VOLTAGE CONTROLLED TEMPERATURE COMPENSATED CRYSTAL OSCILLATORS (VCTCXO)

These SMD TCXOs are suitable for a variety of cost effective applications which require excellent frequency stability.

DIMENSIONS (mm)

RoHS Compliant

- Operating temp.: -30°C to +75°C
- Storage temp.: -35°C to +80°C
- Frequency stability: over temperature range: ± 2.5PPM
  over supply voltage change: ±0.3PPM
  over load change: ±0.3PPM
- Aging: ±0.8PPM/year @ 25°C
- Input current: 2.0mA
- Output load: 10KΩ, 10pF
- Supply volt.: +2.85 (min.) +3.15 (max.)

Pin Connections:
1 - N.C or Vc
2 - GND
3 - Output
4 - V_{DD}

VOLTAGE CONTROLLED CRYSTAL OSCILLATORS (VCXO)

DIMENSIONS (mm)

These SMD VCXOs are a tight stability, VCXO that is available in a wide range of stability and pullability options. It was designed to be a general purpose VCXO with minimum utilization of board space.

- Operating temp.: -10°C to +70°C
- Storage temp.: -40°C to +85°C
- Frequency stability: ± 50PPM
- Input current: 1.0-30MHz - 15mA
  30.0-45.0MHz - 25mA
- Output load: HCMOS - 15pF
- Supply volt.: +3.0 (min.) +3.6 (max.)
- Control volt.: +0.15V (min.) +3.15V (max.)

Pin Connections:
1 - Vcont
2 - E/D
3 - GND
4 - Output
5 - N.C
6 - V_{DD}

RoHS Compliant

MURATA Ceramic Resonators

CERAMIC RESONATORS (CERALOCK®)
CHIP TYPE THREE-TERMINALS CSTCC/E/R/W SERIES

Murata's package technology expertise has enabled the development of the Chip "CERALOCK®" with built-in load capacitors. High-density mounting can be realized because of the small package and the elimination of the need for an external load capacitor.

Features:
- Oscillation circuits do not require external load capacitors.
- The resonators are extremely small and have a low profile.
- No adjustment is necessary for oscillation circuits.

Application:
- Clock oscillators for microprocessors.
- Electronic control circuits for small electronic equipment
- Audio-visual applications (Camcorder, Remote Controller, etc.)
- Office automation equipment (DVD, CD-ROM, HDD, FDD, etc.)

For quantities greater than listed, call for quote.

LEAD TYPE THREE-TERMINALS CSTLS SERIES

Murata's ceramic resonator, "CERALOCK®" has been widely applied as the most suitable component for clock oscillators in a broad range of microprocessors.

Features:
- Oscillation circuits do not require external load capacitors.
- The resonators are compact, light weight and exhibit superior shock resistance performance.
- They enable the design of oscillator circuits requiring no adjustment.

Application:
- DTMF generators
- Clock oscillators for microcomputers
- Remote control units
- Automated office equipment

For quantities of 2000 and up, call for quote.

LEAD TYPE TWO-TERMINAL CSBLA SERIES

The CSBLA series ceramic resonator owe their development to Murata's innovative expert technologies and the application of mass production techniques typically utilized in the manufacture of piezoelectric ceramic components. Because of their high mechanical Q and consistent high quality, the CSBLA series are ideally suited to microprocessor and remote control unit applications.

Features:
- The series comprises fixed, tuned, solid-state devices
- The resonators are miniature, light weight and exhibit excellent shock resistance
- Oscillating circuits requiring no adjustment can be designed by utilizing these resonators in conjunction with transistors or appropriate ICs.

Application:
- Square-wave and sine-wave oscillator
- Clock generator for microprocessors
- Remote control systems

For quantities of 2000 and up, call for quote.

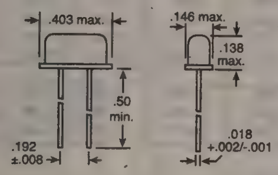
MODEL XT49S - LOW PROFILE HOLDER TYPE CRYSTAL UNITS

- Industry standard
- Operating temperature; -20°C to +70°C
- Frequency tolerance: ±50ppm @ 25°C
- Temperature stablility: ±50ppm
- Shunt capacitance: 7pF max.
- Drive level: 20μW to 5mW
- Seal: resistance weld
- Wide frequency range
- "AT" cut strip crystal unit

RoHS Compliant

DIMENSIONS: In.



For quantities of 500 and up, call for quote.

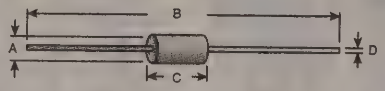
Fair-Rite Products Corp. EMI SHIELD BEADS ON LEADS



Features:

- Beads on oxygen free, high conductivity copper
- Offered in low frequency (73), broadband (43), and high frequency (61) material

RoHS Compliant

DIMENSIONS (IN.)

For quantities of 2000 and up, call for quote.

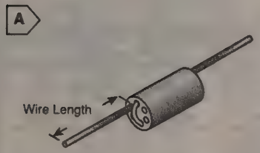
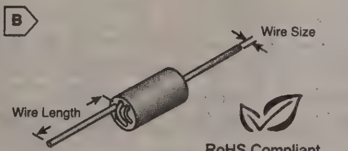
Fair-Rite Products Corp. WOUND EMI SHIELD BEADS





RoHS Compliant

Features:

- Wire used for winding is oxygen free, high conductivity copper.
- Offered in broadband (44) and high frequency (61) materials

For quantities of 2000 and up, call for quote.

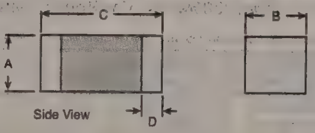
Fair-Rite Products Corp. EMI SUPPRESSION CHIP BEADS

RoHS Compliant



Features:

- Standard Signal Speed
- Controlled 100% for impedance and DCR
- Suitable for both wave and reflow solder process

For quantities of 2000 and up, call for quote.

Fair-Rite Products Corp. KITS

RoHS Compliant

Chip Bead Kit
Wound Bead Kit
Bead-on-Lead Kit

MOUSER STOCK NO.	Type	Description	Price Each
623-019917	Snap-It Cable Suppressor Kit	This kit contains 6 sizes of each in suppression materials 44 and 31 that "snap on" to installed cables. Either material in the snap-its can be used to supress frequencies up to 500 MHz.	52.80
623-019918	Chip Bead Kit	This kit provides 20 different chip bead parts in four different EIA standard package sizes. It includes low, medium, and high current chip beads.Also included are a selection of low, standard and high speed parts.	63.36
623-019919	EMI Suppression Shield Bead Kit	This kit contains different EMI suppression beads ranging in hole diameter from dia. from 0.85mm to 5.0mm in both 73 and 43 materials for frequencies between 20-200 MHz.	52.80
623-019924	RFID Kit	This kit contains 10 different size rods in 78 and 61 materials centered around 125 KHz and 13.56 MHz.	52.80
623-019925	Surface Mount Bead Kit	This kit contains an assortment of 20 different differential and common mode surface mount suppressors in 73, 43, 44, and 61 materials. These beads attenuate conducted EMI from 1 MHz to the GHz frequencies.	124.99
623-019927	Wound Bead Kit	This kit contains an assortment of 6 and 11 hole beads in 44 and 61 materials wound in various configurations.	52.80
623-019928	Bead-on-Lead Kit	This kit contains 3 of the most popular bead sizes in materials 73, 43 and 61.	52.80

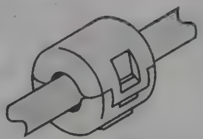
FERRISHIELD Ferrite RFI Suppressors

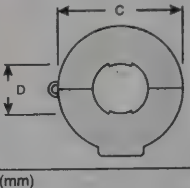
FerriShield, INC.
Interference Control Components

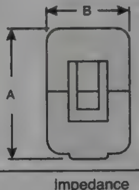
RoHS Compliant **This page of product is compliant.**

Anywhere there is an antenna-like structure such as a power cord or I/O cable, in the presence of a microprocessor, there is a need for RFI suppressors to control unwanted high frequency interference. The selection below is an assortment of the most popular sizes in the most universally applicable broadband formula – effective up to 1GHz by allowing data signals to pass unimpeded and absorbing the high frequency energy.

SPLIT CABLE SNAP FERRITES







RoHS Compliant

For Round Cables up to 0.96" Diameter

For quantities of 50 and up, call for quote.

MOUSER STOCK NO.	FerriShield Part No.	Dimensions: In. (mm)				Impedance (Ω)	Price Each

FERRISHIELD RFI/EMI Gaskets and Fabrics

FerriShield®, INC.
Interference Control Components

RoHS Compliant **This page of product is compliant.**

RFI/EMI CONDUCTIVE SHIELDING FABRIC

Shielding effectiveness is determined by a combination of two events: reflection and absorption of RF signals. Absorption depends on the bulk, or thickness, of the shield material. However, reflection occurs at the shield surface and its effectiveness is independent of thickness. Reflection is the determining factor for all high frequency signal attenuation. (Note: When these materials are used in another regime; i.e., conductive shielding gaskets, conductivity is the determinant.) Maximum reflection occurs with the highest conductivity materials. The best overall metals are copper, nickel and combinations of both - based on high conductivity, compatibility with mating metals, manufacturing versatility and cost. The large 1040mm material width (41") minimizes seams; thin 0.08-0.10mm cross sections (0.003-0.004") maximize conformability to irregular surfaces.

Applications:

- Bonding or laminating to complex geometric shapes
- ESD, RFI-EMI; shielding attenuation >70.0 dB up to 10.0 GHz for CuNi type.
- Enclosure panels and frames, seams, joints, shield curtains for back panel openings
- RFI-EMI conductive shielding gasket cover membranes
- Architectural shielding; shielded room finishing - ceilings, walls, floors; special purpose rooms

RoHS Compliant

Conductive Adhesive

- Sheet size 1040 x 914mm (41" wide x 36" long)
- Available in full rolls of 50 meters (~164')

For quantities of 25 and up, call for quote.

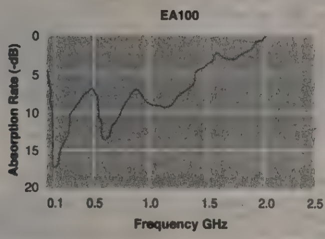
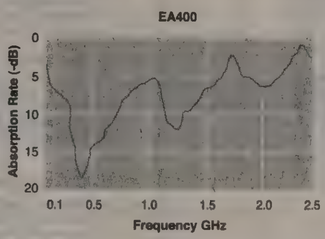
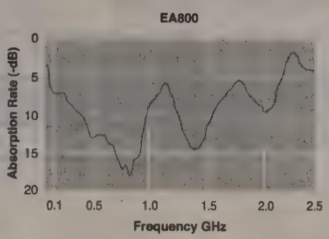
FERRISHIELD RF Absorber Sheet Material

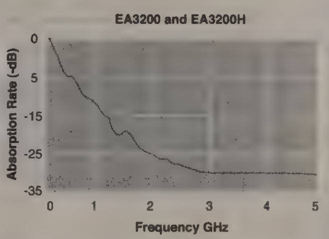
FerriShield®, INC.
Interference Control Components

RoHS Compliant **This page of product is compliant.**









Radio frequencies emanating from electronic components such as the printed circuit board are addressed in three ways: sometimes no shielding is required; a reflective shield in the form of a local cover for the components, or the entire electronic enclosure can be fitted up as a shield; an absorber pad shield which soaks up the RF and converts it to imperceptible heat energy.

The latter Absorber Shield method deals with the unwanted RF energy right at the source and prevents re-radiation and reflection of the signals so that neighboring components are unaffected; also, second, third and fourth order harmonics are nullified or greatly minimized.

EMC WAVE ABSORBER SHEET MATERIAL 100 MHz TO 5 GHz: EA SERIES

The EA Series is a high frequency noise absorber in a range of formulations addressing 40MHz to 5GHz radiations from electronic components. It has a multi-layered structure of screened coating matrixes adjusted for discrete impedance matching to absorb electromagnetic waves at various peak frequencies depending on which of the seven different constructions is used.

RoHS Compliant

Applications:

- PCB's
- PCB Components
- Electronic Enclosures
- Shielded Boxes
- All Microprocessor Based Electronic
- EDP
- Telecom
- Scientific
- Medical
- Architectural Shielding
- RF Test Chambers
- Shielded Facilities

Standard Series - Specifications:

- Frequency Range: 50 MHz - 1 GHz
- Peak Frequency Choices: 100, 300, 400, 500 or 800 MHz
- Temperature Range: -20°C to 100°C
- Flammability Rating: UL94-V0
- Adhesive:
  - Temperature: -18°C to 83°C, ASTM D-3575
  - Tack: 8.4 p.s.i., stainless steel, ASTM D-3575
  - Shear: 300+ hrs. @ 2 p.s.i. @ 22°C, ASTM D-3575
- Dimensions:
  - Standard: 15.75" W x 15.75 "L x .011" max (400.0 x 400.0 x 0.28 mm)
  - Maximum: 3' -0" W x 65' -0" L x .011" max (1.0 x 20.0 M x 0.28 mm)

Extra Wideband Series - Specifications:

- Frequency Range: 40 MHz - 5 GHz
- Peak Frequency: 3.2 GHz
- Temperature Range: -20°C to 100°C and -10°C to 200°C (High Temperature)
- Flammability Rating: UL94-V0
- Adhesive:
  - Standard Temperature: -18°C to 83°C, ASTM D-3575
  - High Temperature: 10°C to 200°C, ASTM D-3575
  - Tack: 8.4 p.s.i. (Stainless Steel Standard) ASTM D-3575
    8.3 p.s.i. (Stainless Steel High Temperature) ASTM D-3575
  - Shear: 300+ hrs. @ 2 p.s.1. @ 22°C, ASTM D-3575
- Dimensions:
  - Standard: 8.25" W x 15.75" L x .004" max (209.6 x 400.0 x 0.10 mm)
  - Maximum: 3'-0" W x 65'-0" L x .004" max (1.0 x 20.0 M x 0.28 mm)

Standard Series - 100 MHz to >1 GHz

For quantities of 20 and up, call for quote.

MICROWAVE ABSORBER - UP TO 116 GHz: MA SERIES

The MA Series is a high frequency microwave noise absorber in a range of formulations addressing 2.5GHz to 116GHz radiations from electronic components. It has a multi-layered structure of screened coating matrixes adjusted for discrete impedance matching to absorb microwaves from a wide range of angles.

Applications:

- PCB's
- PCB Components
- Electronic Enclosures
- Shielded Boxes
- RF Equipment
- VICS Base Antennas
- Radar Equipment
- Mobile Phone Devices
- Architectural Shielding
- RF Test Chambers
- Shielded Facilities

Specifications:

- Frequency Range: 20 MHz - 116.0 GHz
- Peak Frequency Choices: 2.4, 5.8, 10, 18, 24, 26, 38, 60, 76, 110 GHz
- Temperature Range: -20°C to 110°C
- Flammability Rating: UL94-V0
- Adhesive:
  - Temperature: -18°C to 83°C, ASTM D-3575
  - Tack: 8.4 p.s.i. (stainless steel) ASTM D-3575
  - Shear: 300+ hrs. @ 2 p.s.i. @ 72°F, ASTM D-3575
- Dimensions:
  - Standard: 7.875" W x 15.75" L x .0138" max. (200.0 x 400.0 x 3.5 mm)
  - Maximum: 3' W x 65' L x 0.138" max (1.0 x 20 M x 3.5 mm)

RoHS Compliant

MA100 Absorb rate for each angle

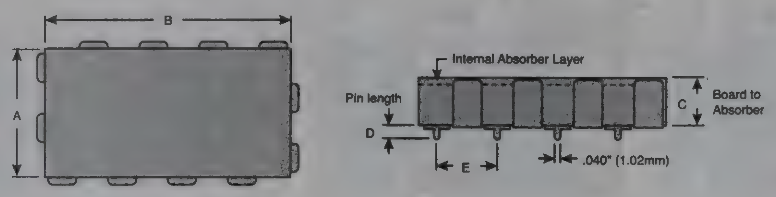
FERRISHIELD PCB Shielded Enclosures

FerriShield®, INC.
Interference Control Components

RoHS Compliant **This page of product is compliant.**



Through-hole mount – recommended hole size .050" (1.27mm)
Surface mount – pins formed w/ 90° outward bend

Through-hole or Adhesive Mount

Shielded enclosures for RF radiations from PCB components stop RF energy right at the source, eliminating re-radiation and interference with other nearby components as well as reducing the number of other shielding expenditures such as filters, gaskets and RF hardening of the equipment exterior structure. The addition of a frequency-tuned absorber membrane layer adds unprecedented performance, assimilating radiated energy without relying on repeated reflections from the interior surfaces of the shield, and without problems of harmonic resonance. Refer to sketches above.

The versatile shield design includes a solderable fence and tight-fitting cover assembly of copper alloy 770 (C77000), a tough solder-compatible material which does not require plating nor has corrosion prone bare edges. The removable cover provides convenient access to circuitry; and is very cost-effective due to the use of universal multi-use manufacturing tooling.

Each enclosure shield size can be combined with frequency-specific absorber material bonded to the cover interior for exacting remediation of otherwise errant frequency emanations - a selection of five EMC absorbers effective from 50 MHz to 1 GHz along with an extra wideband version effective from 40 MHz to 5 GHz; and, ten Microwave versions effective up to 116 GHz. The adhesive mounting option provides quick installation on any circuit without modification of PCB traces.

To specify adhesive mount add suffix "A" to part number. To specify surface mount add suffix "SM" to part number.

EMC Standard Series - Specifications:

- Frequency Range: 50 MHz - 1 GHz
- Peak Frequency Choices: 100, 300, 400, 500 or 800 MHz
- Temperature Range: -20°C to 100°C
- Flammability Rating: UL94-V0
- Adhesive:
  Temperature: -18°C to 83°, ASTM D-3575
  Tack: 8.4 p.s.i., stainless steel, ASTM D-3575
  Shear: 300+ hrs. @ 2 p.s.i. @ 22°C, ASTM D-3575

  Maximum: 3' -0" W x 65' -0" L x .011" max (1.0 x 20.0 M x 0.28 mm)

EMC Extra Wideband Series - Specifications:

- Frequency Range: 40 MHz - 5 GHz
- Peak Frequency Choices: 3.2 GHz
- Temperature Range: -20°C to 100°C and -10°C to 200°C (High Temperature)
- Flammability Rating: UL94-V0
- Adhesive:
  Temperature: 0°F to 180°F, ASTM D-3575
  Tack: 8.4 p.s.i. (8.3 p.s.i. High Temperature), ASTM D-3575
  Shear: 300+ hrs. @ 2 p.s.i. @ 72°F, ASTM D-3575
- Dimensions:
  Standard: 8.25" W x 15.75 "L x .004" max (210.0 x 400.0 x 0.10 mm)
  Maximum: 3' -0" W x 65' -0" L x .004" max (1.0 x 20.0 M x 0.10 mm)

Microwave Series - Specifications:

- Frequency Range: 20 MHz - 116.0 GHz
- Peak Frequency Choices: 2.4, 5.8, 10, 18, 24, 26, 38, 60, 76, 110 GHz
- Temperature Range: -20°C to 110°C
- Flammability Rating: UL94-V0
- Adhesive:
  Temperature: -18°C to 83°C, ASTM D-3575
  Tack: 8.4 p.s.i. (stainless steel) ASTM D-3575
  Shear: 300+ hrs. @ 2 p.s.i. @ 72°F, ASTM D-3575
- Dimensions:
  Standard: 7.875" W x 15.75 "L x .138" max (200.0 x 400.0 x 3.5 mm)
  Maximum: 3' -0" W x 65' -0" L x .138" max (1.0 x 20.0 M x 3.5 mm)

EMC TYPE PCB SHIELD ENCLOSURES - UP TO 5GHZ

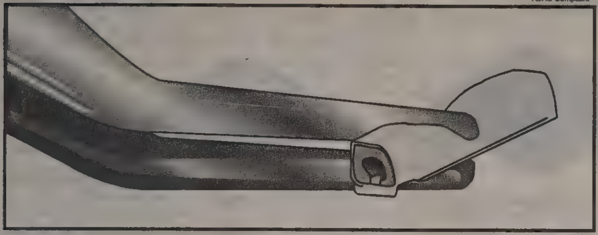
GORE SMT EMI Gaskets and Grounding Pads

RoHS Compliant **This page of product is compliant.**



GORE
Creative Technologies Worldwide

Features:

- Standardization of product allows late-stage implementation.
- Consists of 2 basic parts: Electrically conductive gasket material and solderable support layer.
- Nickel or silver base.
- High Shielding Effectiveness.
- Installed to ground trace with standard pick and place equipment.
- Will survive multiple reflow operations.
- Multiple parts can be used as building blocks to make EMI Gaskets.
- As grounding pads, individual parts create discrete electrical contact points with low DC resistance.
- Form factor insures repeatability, eliminates hand labor and cure time, and is lead free process compatible.
- Ideal for metal enclosures or narrow trace widths.
- A proven solution for in a variety of applications: Power amps, mobile phones, GPS, RF Scanning, Automotive Telematics, Audio applications.
- Provided on EIA-481 standard tape and reel.

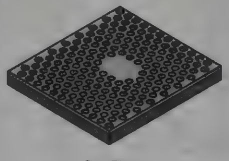
LAIRD TECHNOLOGIES BOARD LEVEL SHIELDS

Standard Surface Mount Shields - One Piece
One-piece shields offer six sides of protection, with the sixth side being the board itself. One-piece designs offer economical shielding protection where access to covered components is not necessary. The One-piece design offers economical shield protection.

Standard Surface Mount Shields - Two Piece
Two-piece board level shields offer users the flexibility to inspect or repair shielded components without having to risk board damage by removing the entire shield or incur any tooling costs. Covers snap on and off with ease, which makes repair of the component under the shield quicker and easier.



One Piece

Two Piece

RoHS Compliant

No tooling costs associated with one or two piece standard designs

For quantities of 250 and up, call for quote.

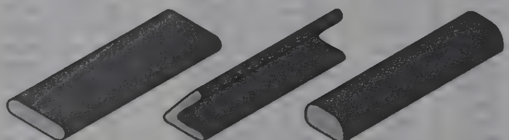
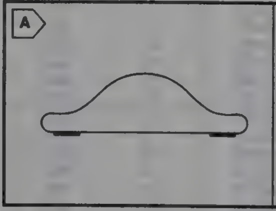
LAIRD TECHNOLOGIES FABRIC OVER FOAM EMI SHIELDING GASKETS

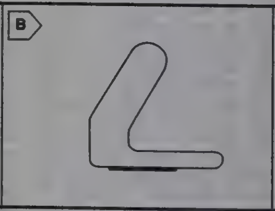
Laird Technologies Fabric Over Foam products are available in a wide range of shapes and sizes offering a diverse selection when addressing your EMI Concerns. Multiple gasket constructions are available to properly fit the gasket to the application. Fabric offerings allow for simple compression designs up to complex high shear applications

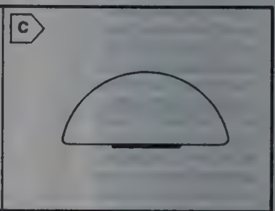
RoHS Compliant

Features:
- Shielding effectiveness of > 100dB across a wide spectrum of frequencies (MIL-STD 285 mod.)
- Extremely low compression forces allow for use of lighter materials
- Low surface resistivity of < 0.07 ohms/square provides improved conductivity (ASTM F390)
- Wide range of flame retardant gaskets available
- Abrasion resistant metallized fabrics show virtually no degradation in shielding performance after 1,000,000 cycles
- Urethane & thermoplastic elastomer (TPE) core provide low compression set ensuring long-term reliable gasket performance
- Service temperatures from -40°F to 158°F (-40°C to 70°C)









For quantities of 250 and up, call for quote.

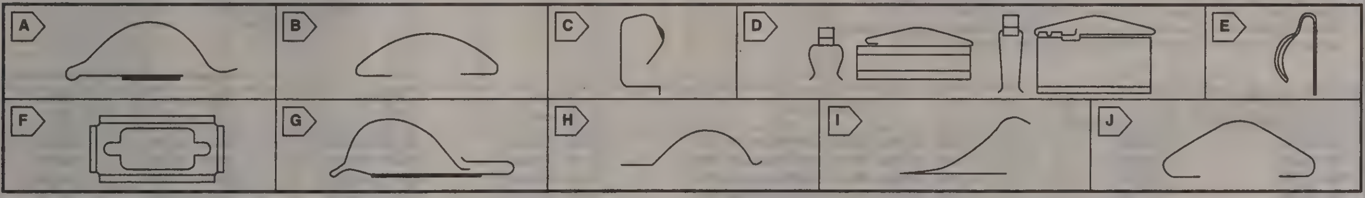
LAIRD TECHNOLOGIES FINGERSTOCK GASKETS AND METAL GROUNDING PRODUCTS

Engineering metal Fingerstock solutions from Laird Technologies dates from 1938. Laird Technologies specializes in designing miniature parts from thin strip metal in quantities ranging from thousands of pieces to millions of pieces. With over 3,400 standard parts, Laird technologies probably already has an off-the-shelf solution that meets your applications' requirements.

RoHS Compliant



BeCu=Beryllium Copper / RCC=Recyclable Clean Copper

For quantities of 250 and up, call for quote.

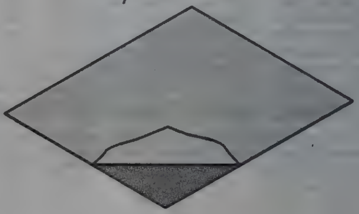
LAIRD TECHNOLOGIES MICROWAVE ABSORBERS

Q-Zorb™ RFSW Surface Wave

Q-Zorb RFSW surface wave absorbers are thin, magnetically loaded elastomeric sheets designed to provide attenuation at high angles of incidence for surface wave attenuation. The are nominally manufactured in the thickness range of 0.010 in. to 0.125 in. (0.3 mm to 3.2 mm).



Features:

- The materials available are in UL fire retardant versions for use in commercial devices.
- Excellent performance at frequencies between 500 MHz and 40 GHz.
- Several magnetic fillers are available carbonyl iron powder is standard, but other materials such as iron silicide (FeSi) are used for corrosion resistant applications.

For quantities of 5 and up, call for quote.

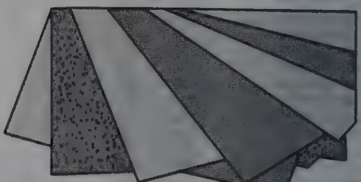
Microwave Absorbing Foam

Microwave absorbing foam is commonly used around antennas and wireless devices to provide isolation or side lobe reduction. It can be die-cut into components for EMI reduction inside microwave cavities and is used to manufacture antenna hats and test boxes. It can be encapsulated into a textile cover for use outdoors and fabricated into blankets, covers and over components. Recently, it has been used for a combination air/EMI filter in networking equipment.

RFRET - Reticulated Foam Absorbers

RFRET is a urethane-based reticulated foam absorber. RFRET is offered with a graded carbon coating providing excellent broadband reflectivity reduction. RFRET with constant carbon loading provides excellent insertion loss. RFRET is useful for antenna sidelobe reduction and pattern enhancement.



RFLS-Lossy Foam Absorbers

RFLS is a single layer "lossy" sheet produced by dipping lightweight open-celled urethane foam into a resistive solution. The end product is a uniform lightweight, loaded sheet material with a specified insertion loss at a given frequency. RFLS offers the lowest cost in microwave absorber products.

Features:

- Typical applications: antennas, amplifiers, oscillators, computer housings and wireless equipment
- Lowers the noise or cavity Q in microwave components
- Can be supplied with PSA backing
- Excellent performance at low frequencies (> 100 MHz)

For quantities of 100 and up, call for quote.

MURATA EMI Suppression Filters (EMIFIL®) Chip Ferrite Beads

RoHS Compliant **This page of product is compliant.**

The chip ferrite beads BLM series comprises ferrite bead in the shape of a chip. This ferrite bead generates a high impedance which at high frequency mainly consists of a resistance element. The BLM series is effective in circuits without stable ground lines because the BLM series does not need a connection to ground. The nickel barrier structure of the external electrodes provides excellent solder heat resistance.

BLM__A SERIES

BLM__A series generates an impedance from the relatively low frequencies. Therefore, BLM__A series is effective in noise suppression in a wide frequency range.

Features:
- Suitable for flow and reflow soldering
- Wide temperature range; -55°C to +125°C
- High Z characteristics

Applications:
- I/O ports, DC power lines, and signal lines

For quantities greater than listed, call for quote.

BLM__B SERIES DESIGNED FOR HIGH SPEED SIGNALS

BLM__B series can minimize attenuation of the signal waveform due to its sharp impedance characteristics.

Features:
- Suitable for flow and reflow soldering
- Operating temperature: -55°C to +125°C
- High impedance characteristics
- Designed to reduce noise above operating frequencies from 10 to 100MHz

Applications:
- Computers and peripheral equipment
- Consumer products
- High speed circuits

For quantities greater than listed, call for quote.

MURATA EMI Suppression Filters (EMIFIL®) Chip Ferrite Beads

RoHS Compliant **This page of product is compliant.**

The chip ferrite beads BLM series comprises ferrite bead in the shape of a chip. This ferrite bead generates a high impedance which at high frequency mainly consists of a resistance element. The BLM series is effective in circuits without stable ground lines because the BLM series does not need a connection to ground. The nickel barrier structure of the external electrodes provides excellent solder heat resistance.

BLM__A SERIES DESIGNED FOR STANDARD TYPE SIGNALS

BLM__A series generates an impedance from the relatively low frequencies. Therefore, BLM__A series is effective in noise suppression in a wide frequency range.

Features:

- Suitable for flow and reflow soldering
- Wide temperature range; -55°C to +125°C
- High Z characteristics
- Operating Temperature: -55°C to +125°C

Applications:

- I/O ports, DC power lines, and signal lines

For quantities greater than listed, call for quote.

BLM__H SERIES DESIGNED FOR UHF APPLICATIONS

BLM18H series has a modified internal electrode structure, that minimizes stray capacitance and increases the effective frequency range.

- BLM18H series realizes high impedance at 1GHz and is suitable for noise suppression from 500MHz to GHz range.
- HG-type is effective in noise suppression in wide frequency range.
- HD-type for high-speed signal line provides a sharper roll-off after the cut off frequency.
- The magnetic shielded structure minimizes cross talk.
- Operating Temperature: -55°C to +125°C

For quantities of 8000 and up, call for quote.

BLM__R SERIES DESIGNED FOR DIGITAL INTERFACE

Resistance of BLM__R series especially grows in the lower frequency range. Therefore BLM__R series is less effective for digital signal waveform at low frequency range and can suppress the ringing.

- Operating Temperature: -55°C to +125°C

For quantities of 8000 and up, call for quote.

DS_6 SERIES DISC TYPE EMIFIL® LEADED EMI SUPPRESSION FILTER

DS_6 is a compact, high performance lead type EMI suppression filter which can be mounted 2.54mm pitch. Its three terminal structure enables nice high frequency performance.

Applications:

- Computer and peripherals interfaces
- Compact digital equipment
- Compact PPC, electronic typewriters, other electronic equipment and appliances
- Helps all electronic equipment and appliances meet FCC, VDE and CISPR regulations
- STD footprint for high density mounting

RoHS Compliant

For quantities of 1000 and up, call for quote.

DS_9 SERIES DISC TYPE EMIFIL® LEADED EMI SUPPRESSION FILTER

Disc type EMIFIL®, DSS9 and DST9 are T-type EMI suppression filters. The disc-type EMIFIL increases the self-resonant frequency of the capacitor by attaching two lead wires to one of the electrodes of the capacitor and increases the insertion loss by adding inductance to the lead. Frequencies to be suppressed can be selected by choosing the capacitance. They are also recommended for use as by-pass capacitors.

RoHS Compliant

For quantities of 1000 and up, call for quote.

BNX SERIES LEADED EMI FILTER LC COMBINED TYPE

The block type "EMIFIL" BNX Series incorporates through-type capacitor, multilayer chip capacitors and bead. The BNX is high performance for use in DC power circuits.

Applications:

- Noise suppression for DC power line of large screen display
- PDP
- LCD-TV

Features:

- The filter enables obtaining high insertion loss in wide frequency ranges from 0.5MHz to 1GHz.
- The only one filter block enable noise suppression of both the positive and negative lines.
- There are no connection routes in the current circuits, thus ensuring highly reliable performance.

RoHS Compliant

For quantities of 100 and up, call for quote.

BL01/02/03 SERIES FERRITE BEAD INDUCTORS

BL01/02/03 series are ferrite beads with lead wires to produce a high frequency loss for suppression of noise. Simple construction and easy-to-use, effective for low impedance circuits such as power supplies and grounds. Effective also for preventing overshoot and undershoot of digital signal in clocks or the like, and suppressing the higher harmonic wave. Suitable for prevention of abnormal oscillation at high frequency amplifying circuit.

RoHS Compliant

For quantities of 1000 and up, call for quote.

MURATA Chip Capacitor Type and LC Combined EMI Filters

muRata
Innovator in Electronics

CHIP CAPACITOR TYPE EMI FILTERS

NFM21CC Series - 0805 Case Size

The "EMIFIL" NFM21C series is a chip type three terminal EMI suppression filter. It can reduce residual inductance to an extremely low level making it excellent for noise suppression at high frequencies.

Applications:
- PCs and peripherals which emit high amounts of noise
- Compact size equipment such as PDA, PC card and mobile telecommunications equipment
- Severe EMI suppression and high impedance circuits such as digital circuits

Features:
- Three terminal structure enables high performance in high frequency range.
- Uses original electrode structure which realizes excellent solderability.

For quantities of 8000 and up, call for quote.

NFM21PC Series - 0805 Case Size

NFM21P is a three terminal structure component. This product can be applied to large current DC power lines. NFM21P is suitable for noise suppression of DC power lines where relatively large current operates.

Features:
- The rated current of 4A is suitable for IC's individual power lines.
- Murata's original internal electrode structure design realizes excellent EMI suppression effects from low frequency to high frequency.

For quantities of 8000 and up, call for quote.

NFE31PT Series - 1206 Case Size

The "EMIFIL" NFE31P is a small size T-type circuit EMI suppression filter.

Features:
- Its large rated current of 6A and low voltage drop due to small DC resistance are suitable for DC power line use.
- The feedthrough capacitor realizes excellent high frequency characteristics.
- The structure incorporates built-in ferrite beads which minimize resonance with surrounding circuits.

For quantities of 4000 and up, call for quote.

NFM41PC Series - 1806 Case Size

The "EMIFIL" NFM41P series consists of three terminal structure. These components are able to be applied to large current DC power lines. NFM41P series are suitable in noise suppression in DC lines where relatively large currents operate.

Applications:
- Personal computers, word processors and peripherals
- Telephones, PCs, communication equipment, etc.
- Digital TVs, VCRs
- Telecommunications equipment

For quantities of 8000 and up, call for quote.

LC COMBINED CHIP EMIFIL

NFL18ST Series

The NFL18ST series is an EMI suppression filter for high speed signal lines, achieving T-type structure in 1.6x0.8mm size with Murata's multilayer technology.

Applications:
- Noise suppression for video signal lines (RGB lines) and high speed clock lines

Features:
- Steep insertion loss characteristics realize excellent noise suppression and prevent distortion of signal waveform.
- By minimizing stray capacitance of inductor, achieves high performance in noise suppression in high frequency range.

For quantities of 8000 and up, call for quote.

NFL21SP Series

- Suppresses noise with little attenuation of the signal itself due to its steep filtering characteristics.
- Murata's original internal structure design enables excellent noise suppression up to high frequencies.

For quantities of 8000 and up, call for quote.

NFW31SP Series

The EMI filter NFW31S series consists of high performance EMI suppression filters. They are designed for noise suppression in high speed signal digital circuits in which the signal harmonics are prone to becoming noise sources. These filters achieve a 100dB/dec. (typ.) damping characteristic with Murata's innovative circuit design. This makes these chips effective in applications where the signal and noise frequencies are close to each other.

For quantities of 4000 and up, call for quote.

SOLDER-IN PI CIRCUIT FILTERS

Solder-in filters are ideal for use in critical areas where space does not allow use of mounting tools or hardware. The solder-in feature also allows installation in unison with other board mounted components. Primarily used in filtering signal/data lines and DC power lines.

Features:

- Small size to allow effective use of space
- Voltage ratings to 200 VDC
- Ampere: 10
- High temperature construction to prevent reflow during installation
- RoHS Compliant per Spectrum Control documentation

RoHS Compliant

For quantities of 25 and up, call for quote.

∗ with Turret on one end

RESIN SEALED BOLT-IN FILTERS

These filters are easily mounted in a tapped hole or thru-hole with supplied nut and lock-washer. The rugged case with resin seals at both ends provides excellent environmental protection. Primarily used in filtering signal/data lines and DC power lines.

Features:

- Ampere: 10
- RoHS Compliant per Spectrum Control documentation

RoHS Compliant

For quantities of 25 and up, call for quote.

HIGH CURRENT / HIGH VOLTAGE RESIN SEALED FILTERS

High current filters are ideal for use in high current 5 volt logic buss, but also can be used for 48 VDC telephone rack buss, high current switch mode power supplies and DC charging systems. High voltage filters find use in high voltage power supplies and applications requiring U.L. Hi-Pot.

Features:

- Continuous voltage ratings up to 1250 VDC/240 VAC (400Hz)
- Rugged bolt-in style for easy installation
- Ampere: 25
- RoHS Compliant per Spectrum Control documentation

HERMETICALLY SEALED THREADED CASE FILTERS

This series of filters features hermetic glass seals and high EMI filtering performance. They are excellent for critical applications that demand high reliability in the toughest enviromental conditions and provide broad-band high performance EMI filtering from 10 KHz to over 10 GHz.

Features:

- .375" case diameters
- Voltage ratings from 50 VDC to 200 VDC
- 1/4-28 Thread
- RoHS Compliant per Spectrum Control documentation

RoHS Compliant

For quantities of 25 and up, call for quote.

ROUND AND CYLINDRICAL FERRITE EMI SUPPRESSION CORES

RoHS Compliant

Features:
- Excellent common and differential mode EMI suppression
- For round cables and wire bundles
- Broadband performance
- Impedance value is NET impedance of the ferrite core only

For quantities of 500 and up, call for quote.

MULTIPLE TURN AXIAL LEAD FERRITE BEAD/CORES - DIFFERENTIAL MODE

- Wirewound through Ferrite
- Lead free and RoHS compliant
- Wound with 24 AWG copper wire

RoHS Compliant

For quantities of 500 and up, call for quote.

STEWARD EMI Chip Beads

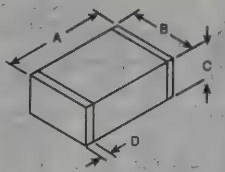
RoHS Compliant **This page of product is compliant.**

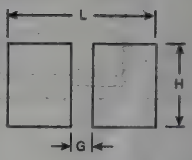
SMD FERRITE EMI CHIP BEADS

Specifications:
- Small Footprint
- Excellent retention under bias
- Rugged monolithic construction
- Superior impedance vs frequency characteristics
- Economical
- Broad range of sizes, impedance values & current ratings

Applications:
- Filtering of power input pins and devices using high speed clocks
- High frequency filtering of medium speed clocks and video signals
- Data Bus Filtration; High frequency amplifier oscillation killers

RoHS Compliant





Land Pattern
(For Reflow Soldering)

Steward Product Series Codes:
LI - Low Current Chips (1 amp & <400 ohms)
MI - Mid Current Chips (1-2.5 amps)
HZ - High Impedance Chip (<1 amp & >400 ohms)
HI - High Current Chip (>3 amps)

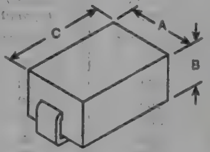
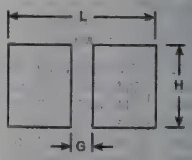
SMD FERRITE BEAD ASSEMBLIES

Specifications:
- 10 Amp continuous operating current capability
- Low DCR
- Rugged construction

Applications:
- EMI Filtering
- Board flexture applications





Land Pattern
(For Reflow Soldering)

RoHS Compliant

SYFER SMD EMI Pi and X2Y Filters

RoHS Compliant This page of product is compliant.

SMD EMI PI FILTERS

Features:
- Miniature SMD package
- X7R and C0G dielectrics
- EMI filtering perfomance up to 1 GHz and higher
- Ideal for telecom, power supplies, and industrial equipment
- Also suitable for mil/aerospace applications

Specifications:
- Tolerance: 20%
- Operating Temperature: -55°C to +125°C
- Rated Current: 1 Amp DC
- Ferrite Inductance: 0.25uH(SBSP), 0.5uH (SBSG,SBSM)
- Max Solder Temperature: 220°C

DIMENSIONS: mm

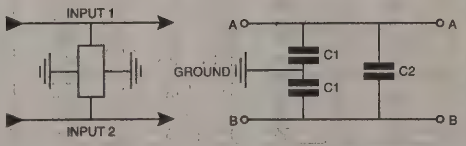
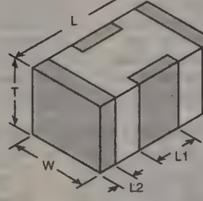
X2Y FILTERS

The Syfer X2Y Integrated Passive Component is a 3 terminal EMI chip device. The revolutionary design provides simultaneous line-to-line and line-to-ground filtering, using a single ceramic chip. In this way, differential and common mode filtering are provided in one device. Available in sizes from 0603 to 2220, these filters can prove invaluable in meeting stringent EMC demands.





Specifications:
- Dielectric: X7R or C0G
- Temperature Rating: -55°C to 125°C
- Dielectric Withstand Volage: 2.5 x Rated Volts for 5 secs.; Charging current limited to 50mA Max.
- Insulation Resistance: 100Gohms or 1000s (whichever is the less)

Features:
- Replaces 2 or 3 capacitors with one device
- Matched capacitance line to ground on both lines
- Low inductance due to cancellation effect
- Differential and common mode attenuation
- Effects of temperature and voltage variation eliminated
- Effect of ageing equal on both lines
- High current capability

Applications:
- Balanced lines and twisted pairs
- EMI Suppression on DC motors
- Sensor/transducer applications
- Wireless communications
- Audio
- CANBUS

For quantities greater than listed, call for quote.

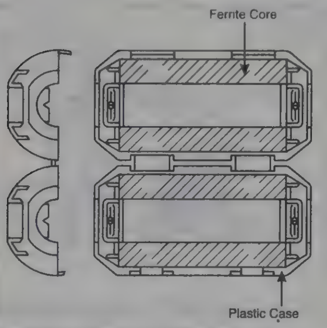
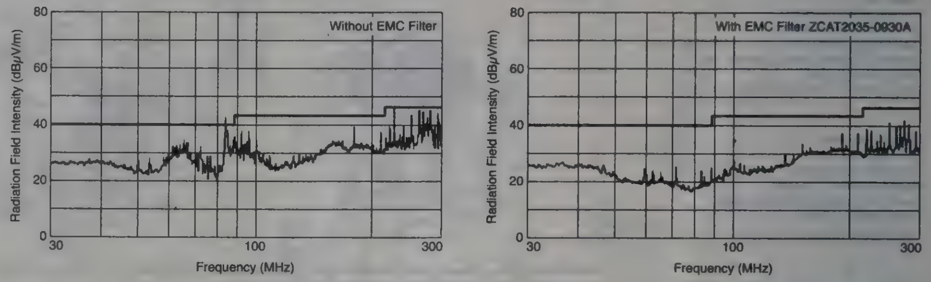
TDK ZCAT Snap-On EMI Clamp Filters

RoHS Compliant **This page of product is compliant.**

INTERNAL CONSTRUCTION



TYPICAL EMC SUPPRESSION EFFECTS - RADIATION LEVEL vs. FREQUENCY CHARACTERISTICS

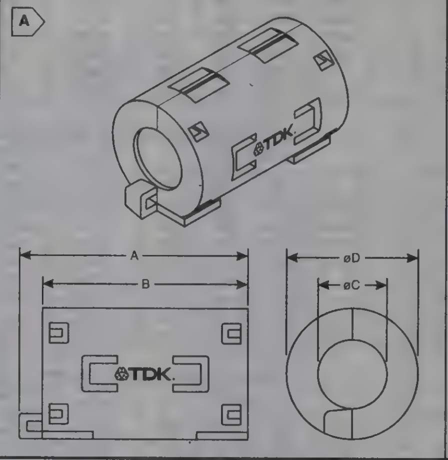


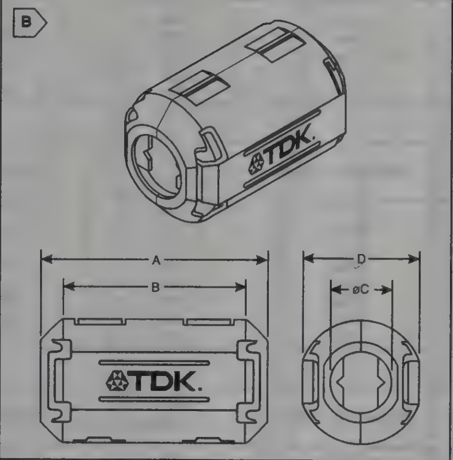
Features:

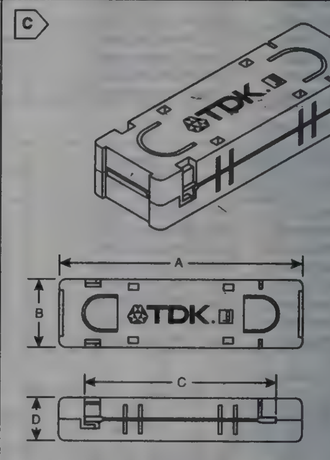
- Unique Plastic case ensures simple, convenient installation.
- Includes a self-locking mechanism to prevent slippage on cables.
- Ferrite core provides excellent absorption of high-frequency EMC.
- Highly effective as countermeasure against common mode EMC without adverse affect on signal quality.
- Large cores prevent saturation during large signal surges.

Applications:

- Personal computers, word processors, monitors, hard disk drives, digital telephone systems, audio devices, electronics musical instruments, video games, copiers, and fax machines.







Applicable Cable Thickness: 1.3mm Max.

TDK RF/EMI Noise Suppression Sheets

RoHS Compliant **This page of product is compliant.**

FLEXIELD® RF/EMI NOISE SUPPRESSION SHEETS

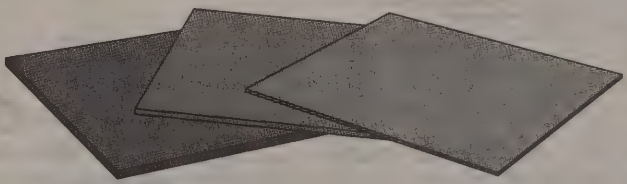
Flexield® is an absorptive electromagnetic shielding material consisting of magnetic material and resin. It suppresses noise radiated from electronic equipment over a wide range of frequencies, offers flexibility in fabrication and delivers particularly excellent performance in high frequency ranges. Flexield® is the ideal sheet-type noise reduction product for mobile devices including notebook PCs, digital cameras and cell phones.

Features:

- Flexible (Will not crack)
- Suited for thin and compact devices.
- Available in a wide range of dimensions and shapes.
- The products in the line-up support a wide range of frequency bands (30MHz to 30GHz).
- Excellent performance at high frequencies (300MHz).
- Environmentally friendly products (All products: Lead-free)
- Product Conforms to RoHS Directive

Applications:

- Electromagnetic noise reduction for electric equipment (especially for mobile equipment)
- Internal EMI, resonance reduction(mounting inside a shielded box)
- RF-block
- Amplifier
- Radiated noise reduction(Circuit, IC, flat cable)
- Surface current suppression
- Improves noise immunity
- SAR reduction for mobile phone
- Electrostatic discharge countermeasure
- Improved antenna reception sensitivity.



IRL02, Specifications:

- Type (Features/Application): High performance
- Material name: IRL02
- Recommended frequency range: 100MHz to 10GHz
- Operating temperature range (°C): –40 to +85
- Initial permeability μi (@10MHz) min.: 20
- Resistivity (Ω/square) min.: 1M
- Thermal conductivity(W/m • k): 1.4
- Standard sheet dimensions (mm): 200x200, 300x200
- Standard sheet thickness (mm): 1, 2, 0.05
- Standard sheet weight (g): 100, 200, 10
- Density (g/cm3): 3.2, 2.5
- Environment: Lead/Halogen-free Conformity to RoHS Directive

RoHS Compliant

For quantities of 50 and up, call for quote.

IRB02, Specifications:

- Type (Features/Application): For quasi-microwave band
- Material name: IRB02
- Recommended frequency range: 500MHz to 5GHz
- Operating temperature range (°C): –40 to +70
- Initial permeability μi (@10MHz) min.: 6
- Resistivity (Ω/square) min.: 1M
- Thermal conductivity(W/m • k): 1.2
- Standard sheet dimensions (mm): 300x300
- Standard sheet thickness (mm): 1, 2, 3, 6
- Standard sheet weight (g): 300, 600, 900, 1800
- Density (g/cm3): 3.3
- Environment: Lead/Halogen-free Conformity to RoHS Directive

RoHS Compliant

For quantities of 50 and up, call for quote.

IRL03, Specifications:

- Type (Features/Application): Wide band
- Material name: IRL03
- Recommended frequency range: 100MHz to 10GHz
- Operating temperature range (°C): –40 to +85
- Initial permeability μi (@10MHz) min.: 20
- Resistivity (Ω/square) min.: 1M
- Thermal conductivity(W/m • k): 1.4
- Standard sheet dimensions (mm): 300x200
- Standard sheet thickness (mm): 0.25, 0.5
- Standard sheet weight (g): 50, 100
- Density (g/cm3): 3.4
- Environment: Lead free Conformity to RoHS Directive

RoHS Compliant

For quantities of 50 and up, call for quote.

IRL04, Specifications:

- Type (Features/Application): High permeability
- Material name: IRL04
- Recommended frequency range: 50MHz to 10GHz
- Operating temperature range (°C): –40 to +85
- Initial permeability μi (@10MHz) min.: 30
- Resistivity (Ω/square) min.: 10k
- Thermal conductivity(W/m • k): 1.4
- Standard sheet dimensions (mm): 300x200
- Standard sheet thickness (mm): 0.25, 0.5
- Standard sheet weight (g): 50, 100
- Density (g/cm3): 3.3
- Environment: Lead/Halogen-free Conformity to RoHS Directive

RoHS Compliant

For quantities of 50 and up, call for quote.

IRJ04, Specifications:

- Type(Features/Application): High-resisting
- Material name : IRJ01
- Recommended frequency range: 100MHz to 10GHz
- Operating temperature range (°C): –40 to +125
- Initial permeability μi (@10MHz) min.: 18
- Resistivity (Ω/square) min.: 1M
- Thermal conductivity(W/m • k): 1.0
- Standard sheet dimensions (mm): 250x250
- Standard sheet thickness (mm): 0.5
- Standard sheet weight (g): 85
- Density (g/cm3): 2.5
- Flame retardant: UL94V-1
- Environment: Lead/Halogen-free Conformity to RoHS Directive

RoHS Compliant

For quantities of 50 and up, call for quote.

MOUSER STOCK NO.	TDK Part No.	Dimensions: mm	Thickness: mm	Frequency Range	Price Each

IRL05, Specifications:

- Type (Features/Application): Super high permeability
- Material name: IRL05
- Recommended frequency range: 30MHz to 10GHz
- Operating temperature range (°C): –40 to +85
- Initial permeability μi (@10MHz) min.: 60
- Resistivity (Ω/square) min.: 1G (The magnetic layer/10)
- Thermal conductivity(W/m • k): 1.6
- Standard sheet dimensions (mm): 300x200
- Standard sheet thickness (mm): 0.1
- Standard sheet weight (g): 25
- Density (g/cm3): 3.7
- Environment: Halogen free Conformity to RoHS Directive

RoHS Compliant

For quantities of 50 and up, call for quote.

It may not be allowed to export these absorbers due to Export Control regulations.

VISHAY / DALE SMT Multilayer Ferrite Beads

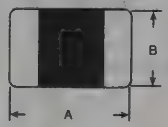
RoHS Compliant This page of product is compliant.

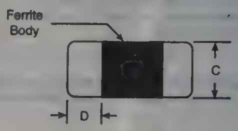
ILHB SERIES - HIGH CURRENT MULTILAYER FERRITE BEADS

DIMENSIONS: In. (mm)

Features:
- High reliability
- Surface mountable
- Current rating up to 6 amps.
- Magnetically self shielded.
- Nickel barrier plating virtually eliminates silver migration
- 100% Lead (Pb)-free and RoHS compliant
- Tape and Reel

Environmental Specifications:
- Operating Temperature: -55°C to +125°C
- Thermal Shock: 100 cycles, -40°C to + 125°C
- Biased Humidity: 85% RH at 85°C, 1000 hours at full rated current.





RoHS Compliant

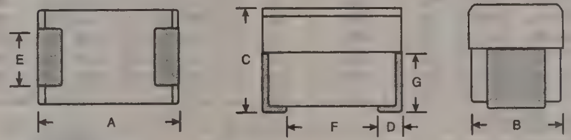
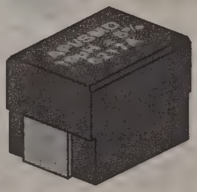
S1812R SERIES

Specifications:
- Operating Temperature: -55°C to +125°C
- Current Rating @ 90°C Ambient with 35°C Rise

RoHS Compliant





Physical Parameters		
	Inches	Millimeters
A	0.166 to 0.190	4.2 to 4.8
B	0.118 to 0.134	3.0 to 3.4
C	0.118 to 0.134	3.0 to 3.4
D	0.038 Min.	0.97 Min.
E	0.041 to 0.061	1.0 to 1.5
F	0.118 (Ref Only)	3.0 (Ref Only)
G	0.066 (Ref Only)	1.7 (Ref Only)
Dimensions "A" and "C" are over terminals.		

Iron Core

For quantities of 1000 and up, call for quote.

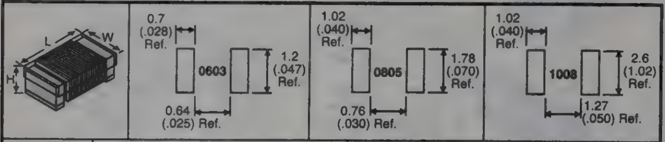
HIGH Q CHIP INDUCTORS



Case Size	Dimensions: mm (in.)		
	L	W	H
0603	1.65 ±0.15 (.065 ±.008)	1.05 ±0.20 (.041 ±.008)	1.0 ±0.20 (.040 ±.008)
0805	2.1 ±0.20 (.083 ±.008)	1.5 ±0.20 (.059 ±.008)	1.3 ±0.20 (.051 ±.008)
1008	2.75 ±0.20 (.079 ±.008)	2.6 ±0.20 (.102 ±.008)	2.0 ±0.20 (.079 ±.008)

Features:
- High Q up to Typical
- High Operating Temperature: 125°C
- Applications: mobile phones, cellular phones, CTV, VCR, HIC, FDD

Materials:
- Core Material: Alumina (1CC201211)
- Wire: Enameled copper (1W1E180)
- Terminal Electrode: Mo/Mn+Ni+Au

Specifications:
- Temp. rise: 40°C max. @ rated current
- Operating/Storage Temp.: -40°C to +125°C
- Reflow soldering: 230°C, 50 sec. max.
- Resistance to solder heat: 260°C, 5 sec.

RoHS Compliant

0603, 0805, and 1008 Sizes

For quantities of 6000 and up, call for quote.

SDR SERIES NON-SHIELDED POWER INDUCTORS

Features:

- Applications: Input/output of DC/DC converters, Portable communication equipment, camcorders, LCD TVs, car radios
- Lead free versions are RoHS compliant
- Low hieght of only 2.7mm

Specifications:

- Reflow soldering: 230°C, 10 sec. max.
- Storage temperature: -40°C to +125°C

BOURNS / J.W. MILLER Chip Inductors

J.W.Miller
MAGNETICS
A Bourns Company

RoHS Compliant **This page of product is compliant.**

PM0805 SERIES CHIP INDUCTORS

Specifications:

- Operating Temperature: -55°C to +125°C
- Ceramic core, wire wound for superior reliability
- Current to cause 15°C maximum temperature rise

RoHS Compliant

BOURNS / J.W. MILLER Chokes

J.W.Miller MAGNETICS A Bourns Company

RoHS Compliant **This page of product is compliant.**

77F SERIES CONFORMAL COATED CHOKES

Specifications:

- Epoxy coated
- Working voltage: 250VDC (max.)
- Operating temperature: -20°C to +105°C
- Core material: ferrite
- Leads: tinned copper wire
- High Q and self resonant frequency
- Low DCR
- Dielectric strength 500Vrms
- Color bands (EIA standard)

RoHS Compliant

For quantities of 2000 and up, call for quote.

9230 SERIES MOLDED RF CHOKES

Specifications:

- Meets MIL Spec: MIL-C-15305, MS75083, MS75084, MS75085
- Inductive tolerance: ±10%
- Miniature size
- Injection molded
- Flame retardant
- Dielectric strength 1000VRMS
- Operating temperature: -55°C to +125°C

RoHS Compliant

For quantities of 2000 and up, call for quote.

9250 SERIES SHIELDED MOLDED RF CHOKES

Specifications:

- Meets MIL Spec: MIL-C-15305, MS75088, MS75089, MS90537
- Electromagnetic shielding
- Inductive tolerance: ±10%
- High Q, high reliability
- Magnetic shielded for low radiation
- Injection molded
- Flame retardant
- Dielectric strength 1000VRMS
- Operating temperature: -55°C to +125°C

RoHS Compliant

For quantities of 2000 and up, call for quote.

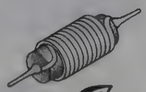
HEAVY DUTY HASH CHOKES

Special Features:
- Low cost, low DCR
- High current capacity
- Varnish coated
- Operating temperature -55 to +105°C
- Ideal for use as EMI filter, output choke, smoothing coil
- Current to cause 10% maximum inductance drop or 35°C maximum termperature rise

Specifications:
- L ≤ 4μH measured on Q meter @ 7.9 MHz
- L ≥ 40μH measured on 1 kHz bridge
- Inductive tolerance: ±20%



RoHS Compliant

For quantities of 50 and up, call for quote.

BOURNS / J.W. MILLER SMT Power Inductors & Ferrite Beads

J.W.Miller MAGNETICS A Bourns Company

RoHS Compliant **This page of product is compliant.**

SMT POWER INDUCTORS

Features:
- Compact size
- Ferrite bobbin core
- High current capability
- Low core loss for high frequency power application
- Operating temperature range: -30 to +100°C
- Large terminal surface for good PCB bonding
- Current to cause maximum 10% of inductance drop or 40°C temperature rise

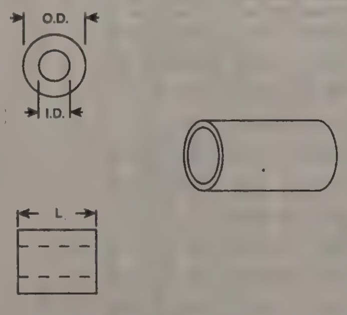
J.W.Miller MAGNETICS A Bourns Company

FB SERIES FERRITE BEADS

DIMENSIONS: in.

Features:
- Very low cost
- Excellent EMI suppression capability at high frequency
- Higher impedance can be achieved with 2 or more beads in series
- Wider frequency range can be achieved with 2 beads of different material grade in series

RoHS Compliant



For quantities of 2000 and up, call for quote.

BOURNS / J. W. MILLER High Current Toroidal Inductors

J.W.Miller MAGNETICS
A Bourns Company

RoHS Compliant This page of product is compliant.

J.W.Miller 2100HT SERIES

DIMENSIONS: In.

RoHS Compliant

Features:

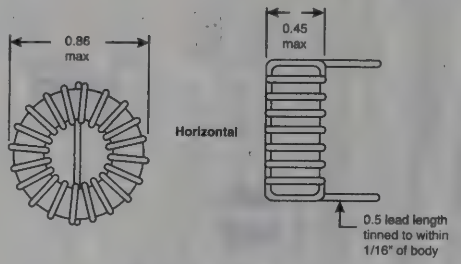
- High Temperature rating-up to +200°C
- Low magnetic radiation
- High current capacity
- Horizontal or vertical mount available
- Low cost
- Operating temperature: -55°C to +200°C

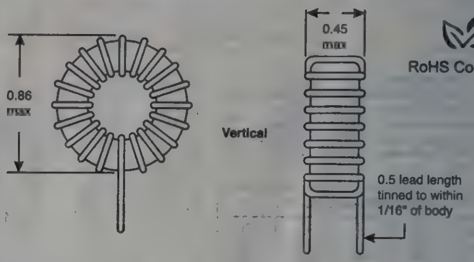
Applications:

- High operating temperature environments
- DC-DC converters
- Output chokes
- EMI filters

Notes:

- Rated Idc causes a 50°C temperature rise.





Horizontal Mount

For quantities of 250 and up, call for quote.

BOURNS / J. W. MILLER High Current Toroidal & Chip Inductors

JWMiller MAGNETICS A Bourns Company

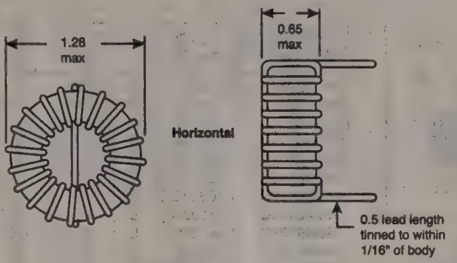
RoHS Compliant **This page of product is compliant.**

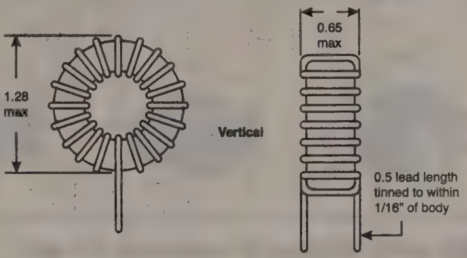
JWMiller 2300 SERIES

Dimensions: mm

- DC-DC converter, EMI filter applications
- Low radiation
- Low core loss
- High current capacity
- Horizontal or vertical mount
- Operating temperature: -55 to +105°C
- Current to cause 30°C maximum temperature rise

RoHS Compliant





Horizontal Mount

For quantities of 1000 and up, call for quote.

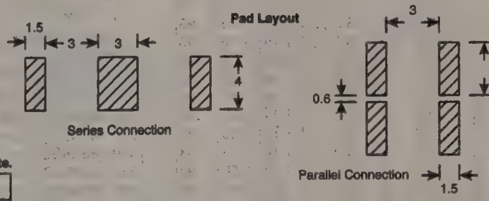
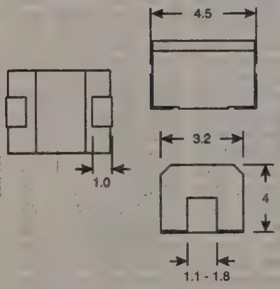
JWMiller PM1812 SERIES CHIP INDUCTORS

Dimensions: mm

- Molded construction for high reliability and superior environmental protection
- High resistance to solder heat and moisture
- Operating temperature -55 to +105°C
- Current to cause 20°C maximum temperature rise
- Tape & reel packaged 500/reel

RoHS Compliant





For quantities greater then listed, call for quote.

SHIELDED SMD POWER INDUCTORS

Common Features:

- Tape and reel packaging
- J-STD-020-C reflow
- RoHS Compliant
- UL 94V-0 materials

RoHS Compliant.

2900 Series

For quantities of 50 and up, call for quote.

COLD CATHODE FLUORESCENT LAMP INVERTER TRANSFORMERS

Specifications:

- Transformers for use in CCFL power supplies
- Supply output current up to 30 milli-Amps
- Frequency range from 40 to 80 KHz
- Deliver output power from 2.5 to 14 Watts
- Ferrite core material
- Operating ambient temperature range: 0°C to +70°C

RoHS Compliant

For quantities of 100 and up, call for quote.

POWER INDUCTORS AND TRANSFORMERS

Specifications:

- OCTA-PAC's are designed around high frequency, low loss MPP core material
- ECONO-PAC's are a lower cost version of OCTA-PAC's offering high saturation flux density, Powder Iron core material
- OCTA-PAC PLUS's offer higher current ratings and higher saturation flux densities than OCTA-PAC and ECONO-PAC, Amorphous metal core material
- Secure 4 terminal mounting
- Inductor more versatile inductance combination by series or parallel connections
- Operating ambient temperature range: -40°C to +85°C

Applications:

- Computer and portable power devices
- LCD panels, DVD players
- Inductor: DC-DC converters
- Buck, boost, forward, and resonant converters
- Noise filtering and filter chokes
- Transformers: 1:1 300VDC isolation, flyback, sepic

RoHS Compliant

OCTA-PAC®

For quantities of 1000 and up, call for quote.

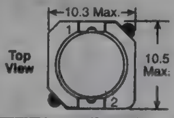
COILTRONICS Low Profile Power Inductors

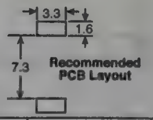
RoHS Compliant **This page of product is compliant.**

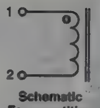
DR1030 SERIES

Features:
- 125°C maximum total temperature operation
- 10.3mm x 10.5mm x 3.0mm shielded drum core
- Ferrite core material
- Frequency Range up to 1MHz

Specifications:
- Storage Temperature Range: -40°C to +125°C
- Operating Temperature Range: -40°C to +125°C
- Solder Reflow Temperature: +260°C max. for 10 seconds max.







DIMENSIONS: mm

RoHS Compliant

For quantities of 1000 and up, call for quote.

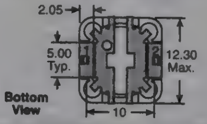
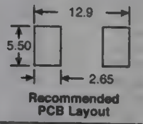
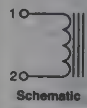
DR124 SERIES

Features:
- 125°C maximum total temperature operation
- 12.3mm x 12.3mm x 4.5mm shielded drum core
- Ferrite core material
- Frequency Range up to 1MHz

Specifications:
- Storage Temperature Range: -40°C to +125°C
- Operating Temperature Range: -40°C to +125°C
- Solder Reflow Temperature: +260°C max. for 10 seconds max.







DIMENSIONS: mm

RoHS Compliant

For quantities of 1000 and up, call for quote.

COILTRONICS Shielded Power Inductors

RoHS Compliant **This page of product is compliant.**

DR SERIES - HIGH POWER DENSITY, HIGH EFFIFIENCY, SHIELDED INDUCTORS

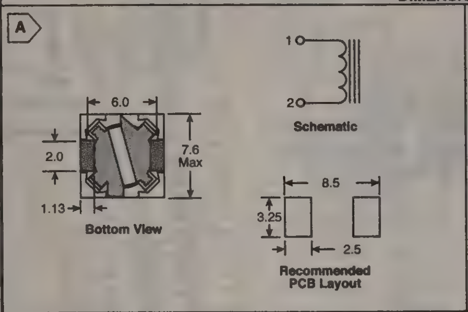
Features:
- 125°C maximum total temperature operation
- Four sizes of shielded drum core inductors
- Ferrite core material
- Magnetic shielding
- Secure mounting

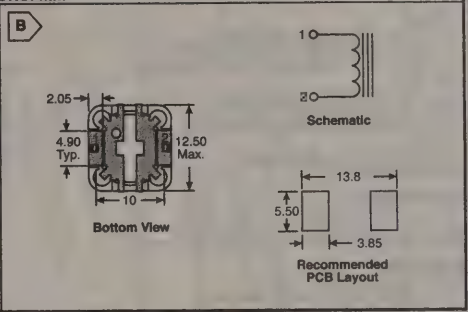
RoHS Compliant

Specifications:
- Storage Temperature Range: -40°C to +125°C
- Operating Temperature Range: -40°C to +125°C
- Solder Reflow Temperature: +260°C max. for 10 seconds max.

Applications:
- Computer, DVD players, and portable power devices
- LCD panels
- DC-DC converters
- Buck, boost, forward, and resonant converters
- Noise filtering and filter chokes

DIMENSIONS: mm





For quantities of 1000 and up, call for quote.

COILTRONICS Dual Winding Shielded Power Inductors

RoHS Compliant This page of product is compliant.

DUAL WINDING, SHIELDED POWER INDUCTOR/TRANSFORMERS

DIMENSIONS: mm

Features:
- 125°C maximum total temperature operation
- Dual winding inductors that can be used as either a single inductor or in a coupled inductor/transformer application
- Four sizes of shielded drum core inductors
- Windings can be connected in a series or parallel, offering a broad range of inductance and current ratings
- 200VAC isolation between windings
- Ferrite core material

Specifications:
- Storage Temperature Range: -40°C to +125°C
- Operating Temperature Range: -40°C to +125°C
- Solder Reflow Temperature: +260°C max. for 10 seconds max.

Applications:
- As a transformer: SEPIC, flyback
- As an inductor: Buck, boost, coupled inductor
- DC-DC converters
- VRM inductor for CPU and DDR power supplies
- Input and output filter chokes

DIMENSIONS: mm

Features:
- 125°C maximum total temperature operation
- Dual winding inductors that can be used as either a single inductor or in a coupled inductor/transformer application
- Four sizes of shielded drum core inductors
- Windings can be connected in a series or parallel, offering a broad range of inductance and current ratings
- 200VAC isolation between windings
- Ferrite core material

Specifications:
- Storage Temperature Range: -40°C to +125°C
- Operating Temperature Range: -40°C to +125°C
- Solder Reflow Temperature: +260°C max. for 10 seconds max.

Applications:
- As a transformer: SEPIC, flyback
- As an inductor: Buck, boost, coupled inductor
- DC-DC converters
- VRM inductor for CPU and DDR power supplies
- Input and output filter chokes

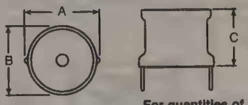
C&D TECHNOLOGIES Inductors

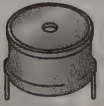
RoHS Compliant This page of product is compliant.

1400 SERIES BOBBIN INDUCTORS

Features:

- Low DC resistance
- Low temperature dependence
- Operating temperature: -40°C to +85°C
- RoHS Compliant





For quantities of 50 and up, call for quote.

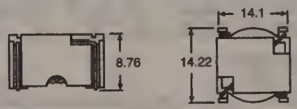
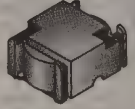
4000 SERIES TOROIDAL SMD INDUCTORS

- 3.3µH to 330µH
- Up to 5.20A IDC
- Toroidal Construction giving Low Leakage Flux
- RoHS Compliant





DIMENSIONS: mm

For quantities of 50 and up, call for quote.

EPCOS Power Inductors

This page of product is compliant.

SMD Series B82789N

- Current Compensated Double Choke with Ferrite Core
- BiFilar Winding
- Lead Free Tinned Terminals

Applications:
- Automotive
- Industrial
- Telecommunications

RoHS Compliant

For quantities of 250 and up, call for quote.

SMD Chokes Series B82731T

- Current Compensated Double Choke with Closed E Core Ferrite Core
- 2 Section Winding
- High Resonant Frequency
- High Pulse Strength
- Lead spacing 10mm x 10mm
- Lead free Pin Leads

RoHS Compliant

For quantities of 250 and up, call for quote.

SMD Chokes Series B82732F

- Current Compensated Double Choke
- 4 Section Winding
- 14mm Height
- High Pulse Handling
- Industry best inductance/rated current ratio
- Excellent diffential mode suppression

RoHS Compliant

For quantities of 250 and up, call for quote.

RING CORE DOUBLE CHOKES

SMD Series B82721

- Current Compensated Ring Core Double Choke with Ferrite Core
- Polycarbonate Case
- Polyurethane Potting
- Sector Winding

Applications:
- Lamp ballasts
- Switch mode power supplies
- Washing machines

RoHS Compliant

For quantities of 250 and up, call for quote.

SMD Series B82473

- Enamel Copper Wire Winding Soldered to Terminals
- Ferrite Core
- Plastic Core
- Size: 7mm by 7mm
- High Current Rating
- Low DC Resistance

For quantities of 250 and up, call for quote.

FASTRON Chokes and Coils

RoHS Compliant This page of product is compliant.

Fine Inductors Fastron EPOXY COATED CHOKES

These choke coils are UL recognized and feature an inductance of 0.15μH to 100,000μH, capable of handling currents from 55mA to 1.35 amps. They are more economical than molded chokes and require no more board space than a 1/2 watt resistor. Tape and reel, ammo pack, and formed leads are available upon request.

E169264

RoHS Compliant

- EIA color coded
- Operating temperature: -55°C to +125°C
- Dielectric Insulation strength: 2.0 KV

For quantities of 1000 and up, call for quote.

Fine Inductors Fastron RFI SUPPRESSION COILS

These RFI suppression coils feature inductance ranges from 1μH to 10,000μH capable of handling currents from 80mA to 12 amps. Non-standard values and tape/reel packaging are available on request.

Specifications:

- Operating temperature range: -55°C - +125°C
- Dielectric insulation strength: 2.5KV
- Inductive tolerance: ±20%
- Rated inductance measured at : 1MHz for L ≤ 10μH; 100kHz for 10μH < L ≤ 1000μH; 10kHz for L > 1000μH

Applications:

- Communications (RF blocking, filtering and decoupling)
- Consumer electronics
- Interference suppression

Features:

- UL recognized and VDE approved

DIMENSIONS: mm

FASTRON Radial Coils and Wideband Chokes

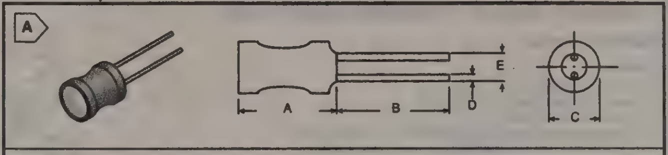
RoHS Compliant This page of product is compliant.

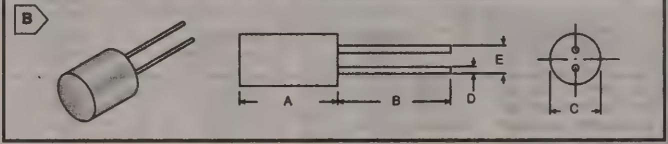
RADIAL PLUGGABLE COILS

Features:
- All 5% inductance tolerance
- Multi-layer windings on ferrite cores
- Heatshrink tube protected or ferrite magnetic shielded
- Sturdy pluggable radial construction with solder dipped leads
- Wide selection of medium to high inductances

Applications:
- DC/DC Converters
- Filtering applications
- Instrumentation

RoHS Compliant





For quantities of 1000 and up, call for quote.

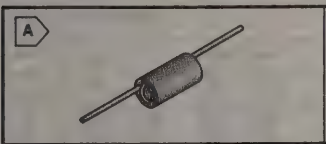
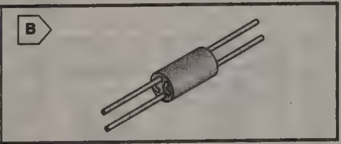
WIDEBAND CHOKES





Specifications:
- 6 hole ferrite core
- 1.5" 24AWG leads

RoHS Compliant

DIMENSIONS: mm

For quantities of 2000 and up, call for quote.

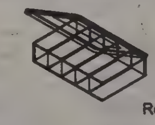
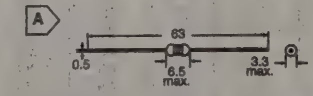
EPOXY CONFORMAL COATED CHOKE KITS

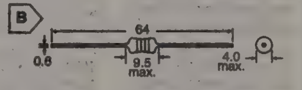
Specifications:
- Solderability: according to MIL-STD-202F method 208D
- Operating temperature: IEC climactic category: 55/125/56; DIN climactic category: FKF: -55°C to 125°C, humidity category F
- Product assurance: according to MIL-STD-790
- EIA color coded



E169264

RoHS Compliant





DIMENSIONS: mm

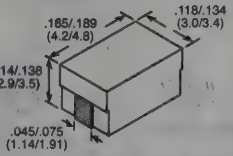
GOWANDA Power and RF Inductors

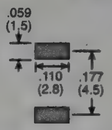
SURFACE MOUNT POWER INDUCTORS

SMP1812 Series

Features:

- Epoxy Encapsulated
- Operating Temperature: -55°C to +125°C
- Stocked on Tape and Reel
- Can be used for all types of power applications including filters for DC/DC converters and switching regulated power supplies.





Recommended Foot Print

RoHS Compliant

DIMENSIONS: In. (mm)

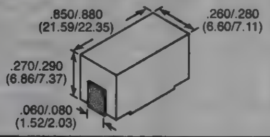
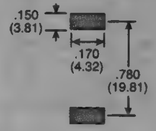
SMP8527 Series

Features:

- Operating Temperature: -55°C to +125°C
- Core material is high resistance nickel zinc ferrite.
- Saturation current is the approximate value that will reduce the initial inductance by 5%.
- Rated current is based on a 40°C temperature rise at an ambient temperature of 85°C.





Recommended Foot Print

RoHS Compliant

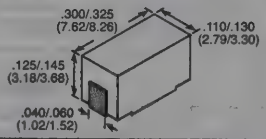
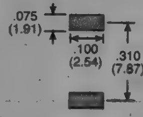
SMRF3013 SERIES UNSHIELDED RF INDUCTORS

Features:

- Operating Temperature: -55°C to +125°C
- Rated current is based on a 35°C temperature rise at an ambient temperature of 90°C.





Recommended Foot Print

RoHS Compliant

KEMET Multilayer Ferrite Chip Beads

RoHS Compliant **This page of product is compliant.**

BK SERIES

Features:

- Internal silver printed layer creates a closed circuit which acts as a magnetic shield minimizing heat generation and crosstalk
- No need for grounding provides greater circuit design flexibility
- Several material types and a broad range of impedance values provide noise countermeasures for various applications

Applications:

- High frequency noise countermeasure in personal computers, digital cameras, and other information system products. For use on digital product clock lines and general signal lines
- Radiated noise suppression in computer or printer interfaces and harness connectors
- Noise suppression in video and other A/V products
- Prevents interference between circuits in cellular phones (PHS, PDC, etc.)
- Due to the closed internal circuit which acts as a magnetic shield, the TS material is extremely effective as a noise filter on LSI power supply lines where downsizing of components is needed

BK SERIES P TYPE

Features:

- Low Rdc value brings about low power dissipation and extending the life of batteries
  That stands on the high advanced green sheet and printing technologies
- No need for grounding provides greater circuit design flexibility

Applications:

- Hign frequency noise debug on the DC power supply line in personal computers and other information system products
- Noise suppression in USB and IEEE1394 interface
- Prevents interference between circuits in mobile systems (PDC, PHS, PDA)

KEMET Multilayer Chip Inductors

KEMET
CHARGED™

LK Series

Features:

- Internal printed coil structure creates a closed magnetic circuit which acts as a magnetic shield eliminating crosstalk, thus permitting higher mounting densities
- Multilayer block structure yields higher reliability
- The smallest µH inductors in the world (LK1005 series)

Applications:

- Any general circuit of portable equipment in which compact size and high mounting densities are required

CK Series

Features:

- Internal printed coil structure creates a closed magnetic circuit which acts as a magnetic shield eliminating crosstalk, thus permitting higher mounting densities
- Multilayer block structure yields higher reliability

Applications:

- Separation of analog and digital circuits
- Prevents interference between PLL and the other digital circuits

HK Series

Features:

- Multilayer inductor made of advance ceramics with low-resistivity silver used as internal conductors provides excellent Q and SRF characteristics
- Designed to address surface mount inductor needs for applications above 100MHz
- Multilayer block structure ensures outstanding reliability, high productivity and product quality

RoHS Compliant **This page of product is compliant.**

Applications:

- Portable telephones, PHS, and pagers
- Miscellaneous high-frequency circuits
- EMI countermeasure in high-frequency circuits

RoHS Compliant

KEMET Wound Chip Inductors

KEMET
CHARGED

RoHS Compliant **This page of product is compliant.**

LB AND LBMF SERIES

Wound Chip Inductors that cover customers' wide range module design by wide-line-up shape, standard, low Rdc, and high electric current series

For quantities greater than listed, call for quote.

Features:
- LB/LBR series: Super low Rdc and high Idc characteristics
- LBC Series: Super high Idc and low Rdc characteristics
- LB3218 Series: This series are downsized from 3225 size Land pattern can be used by 3225 size
- LBMF1608 Series: The best efficiency design is achieved by adopting bottom-surface electrode structure. Because of 1608 shaper, it can be mounted at high density

Applications:
- DSC/DVC/HDD, LCD, portable telephones, game equipment, various audio-visual equipment, various communication equipment, etc.

RoHS Compliant

CB AND CBMF SERIES

This series corresponds to high electric current compared with LB/LBC series

For quantities greater than listed, call for quote.

Features:
- Wound chip inductors that can be used for small DC/DC converters, and are suitable for choke uses
- CBMF1608 Series: The best efficiency design is achieved by adopting bottom-surface electrode structure
- Wound chip inductors are suitable for module design which need high electric current, like DC/DC converters

Applications:
- DSC/DVC/HDD, LCD, portable telephones, game equipment, various audio-visual equipment, various communication equipment, etc.

RoHS Compliant

MURATA SMD Inductors

RoHS Compliant This page of product is compliant.

LQH SERIES CHOKE WINDING TYPE FERRITE CORE (CONT.)

The LQH31C series consists of miniature chip inductors with low DC resistance, high current capacity, and high impedance characteristics. It is suitable for use as choke coils in DC power supply circuits.

DIMENSIONS: mm

Series	A	B	C	D	E	F

MURATA SMD Inductors

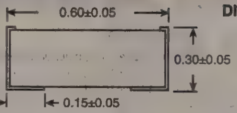
LQP SERIES HIGH FREQUENCY FILM TYPE

RoHS Compliant **This page of product is compliant.**

LQP03T series using Murata's original thin film technology contributes further to miniaturizing high performance equipment due to small case size and high Q-value.

Applications:

- High frequency circuits of mobile phones such as PA, ANT, VCO, SAW, etc.
- Mobile phones such as GSM, CDMA, PDC, etc.
- "Bluetooth"
- W-LAN
- High frequency circuits in general



DIMENSIONS: mm

RoHS Compliant

For quantities of 20,000 and up, call for quote.

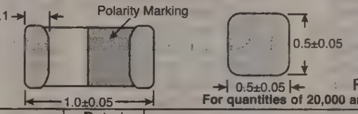
LQG HIGH FREQUENCY MULTILAYER TYPE AIR CORE COIL

The LQG15HS series are chip inductors specifically designed for high frequency applications. The LQG15H series is designed to realize stable characteristics in high frequency range applying integrated multilayer process.

Applications:

- High frequency circuits of mobile phones such as PA, ANT, VCO, SAW, etc.
- Mobile phones such as GSM, CDMA, PDC, etc.
- "Bluetooth"
- W-LAN
- High frequency circuits in general



RoHS Compliant

For quantities of 20,000 and up, call for quote.

MURATA SMD Inductors

RoHS Compliant **This page of product is compliant.**

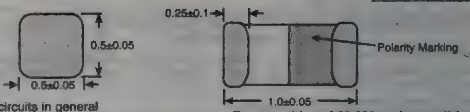
LQG HIGH FREQUENCY MULTILAYER TYPE AIR CORE COIL (CONT.)

The LQG15HS series are chip inductors specifically designed for high frequency applications. The LQG15H series is designed to realize stable characteristics in high frequency range applying integrated multilayer process.

Applications:

- High frequency circuits of mobile phones such as PA, ANT, VCO, SAW, etc.
- Mobile phones such as GSM, CDMA, PDC, etc.
- "Bluetooth"
- W-LAN
- High frequency circuits in general

DIMENSIONS: mm



For quantities of 20,000 and up, call for quote.

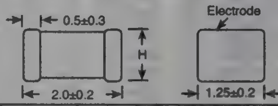
LQM SERIES MULTILAYER TYPE FOR CHOKE FERRITE CORE

The LQM21D series consists of magnetically shielded chip inductors. It has less than half the DC resistance of our conventional monolithic chip inductors as well as high inductance.

Inductance	Dimension of H
1.0 to 10μH	0.85±0.2
22 to 47μH	1.25±0.2



DIMENSIONS: mm

RoHS Compliant

MURATA SMD Inductors

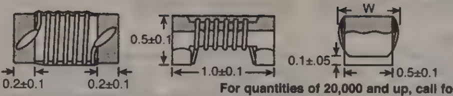
RoHS Compliant **This page of product is compliant.**

LQW15A SERIES HIGH FREQUENCY WINDING TYPE AIR CORE COIL (CONT.)

The LQW 15A series consists of air core chip coil using a miniature alumina core. The LQW15A series has a high Q value in high frequency range and high self resonant frequency.

Inductance (nH)	Dimension of W
1.5-22, 100, 120	0.6±0.1
24-82	0.5±0.1

DIMENSIONS: mm



For quantities of 20,000 and up, call for quote.

LQH SERIES CHOKE WINDING TYPE FERRITE CORE

DIMENSIONS: mm

The LQH31C series consists of miniature chip inductors with low DC resistance, high current capacity, and high impedance characteristics. It is suitable for use as choke coils in DC power supply circuits.

Series	A	B	C	D	E	F

MURATA SMD Common Mode Choke Coils

This page of product is compliant.

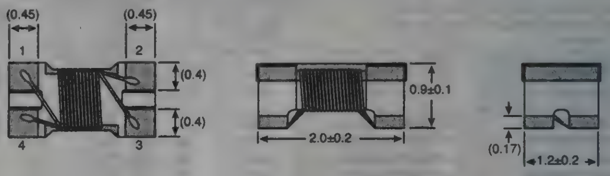
DLW21H SERIES - WOUND TYPE

DIMENSIONS: in. (mm)

Features:

- Small size and low profile (2.0x1.2x0.9mm). Excellent noise suppression.
- High common mode impedance at high frequency effects excellent noise suppression performance.
- Various common mode impedance from 67 to 180 ohm can be selected depending on noise level and signal frequency.
- Small dimension enables higher density mounting
- Suitable for differential signal line like USB2.0, IEEE1394 and LVDS, because DLW21H does not provide distortion to high speed signal transmission due to its high coupling. (USB2.0: DLW21HN900SQ2)
- Operating temperature: -25°C to +85°C

RoHS Compliant



Applications:

- Common mode noise suppression of signal lines in high speed and high density digital equipment such as PC and peripherals and telecommunication equipment.

For quantities of 6000 and up, call for quote.

DLW31S SERIES - WOUND TYPE

DIMENSIONS: in. (mm)

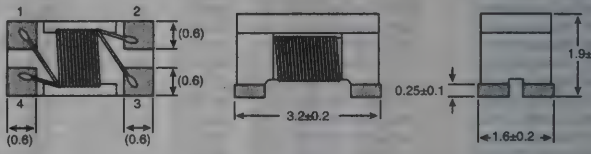
Features:

- Small size and low profile. 3.2x1.6x1.9mm.
- High common mode impedance at high frequency effects excellent noise suppression performance.
- Various common mode impedance items of 90 to 2200 ohm can be used, considering noise level and signal frequency.
- Operating temperature: -25°C to +85°C
- Enables noise suppression for differential signal line without distortion in high speed signal transmission due to its high coupling.
- Small dimension enables higher density packaging.

Applications:

- USB lines of PC, peripheral equipment
- LVDS lines of Note-PC, LCD

RoHS Compliant



For quantities of 4000 and up, call for quote.

DLW5BS SERIES - WOUND TYPE

DIMENSIONS: in. (mm)

The DLW5BS series is a high performance wound type chip common mode choke coil.

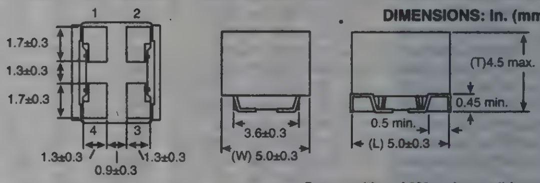
Features:

- High impedance enables great noise suppression.
- Large rated current (max. of 5A) is suitable for power line use.
- DLW5BS series does not damage high speed signal due to high coupling common mode choke coil structure.
- Automatic mounting can be applied.
- Operating temperature: -25°C to +85°C

Applications:

- DC power lines in AC adapter of portable equipment
- DC power lines of DC/DC converter, battery charger

RoHS Compliant



For quantities of 800 and up, call for quote.

DLP31S SERIES - FILM TYPE SINGLE CIRCUIT

DIMENSIONS: in. (mm)

DLP31S series is chip common mode choke coil that realizes high impedance in a small size with ferrite material technology and film processing technology. DLP31S series has excellent performance at high frequency range. It is suitable for differential signal line application.

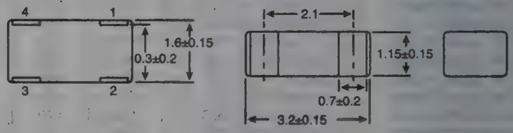
RoHS Compliant

Features:

- Small size, low profile.
- DLP31S suppresses high frequency noise that was unable to be suppressed with existing common mode choke coils. Suitable for differential signal line like USB, because DLP31S does not provide distortion to high speed signal transmission due to its high coupling (coupling coefficient:0.98 min.).
- Operating temperature: -40°C to +85°C

Applications:

- USB lines of PC, peripheral equipment
- LVDS lines of Note-PC, LCD
- USB lines of digital AV equipment such as digital cameras



For quantities of 6000 and up, call for quote.

DLP31D SERIES - FILM TYPE DUAL CIRCUIT

DIMENSIONS: in. (mm)

DLP31D series is chip common mode choke coil array which realizes high coupling and high impedance in a small size with ferrite material technology and thin film processing technology.

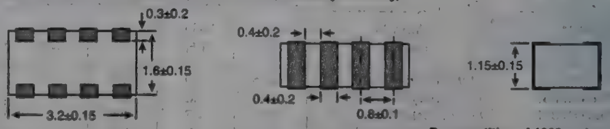
Features:

- 2 components are included in 3.2x1.6mm
- Thin type 1.15mm
- The DLP31D can suppress common mode noise without damage to signal wave.
- Operating temperature: -40°C to +85°C

Applications:

Common mode noise suppression of high speed differential signal lines for USB, IEEE1394, LVDS.

- Main board of personal computer, note PC
- Printer, Scanner
- LCD monitor
- Game equipment
- PC peripheral equipment



For quantities of 1000 and up, call for quote.

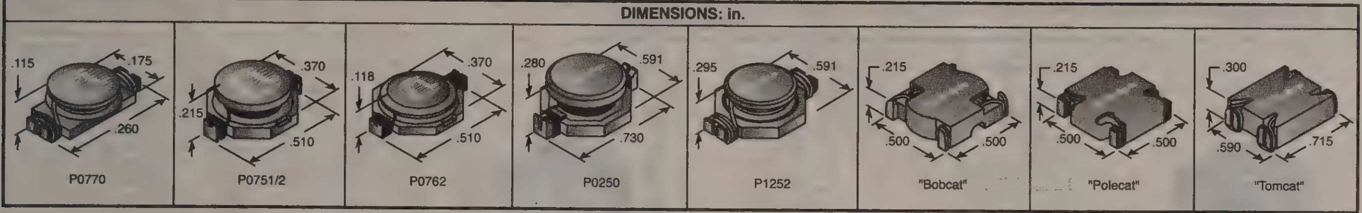
PULSE SMT Power Inductors



Features:
- Reliable self-leads
- High energy storage and low DC resistance
- Ideal for DC/DC conversion in notebook computers
- Direct Coilcraft replacement
- PDA's, step-up or step-down converters

Specifications:
- Operating Temperature: -40°C to +85°C

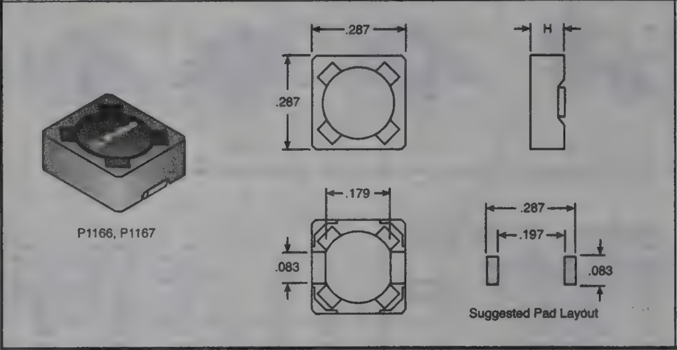
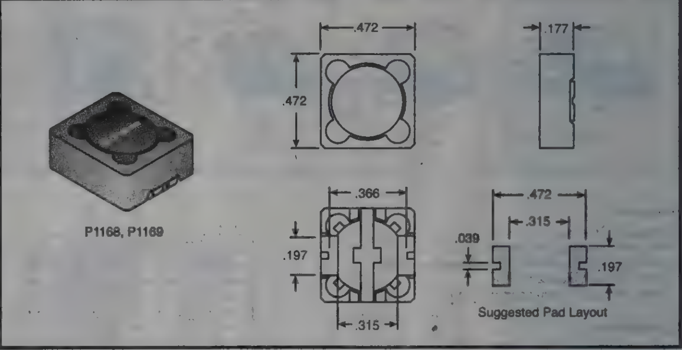
PULSE SMT Power Inductors, Shielded Drum Core

DIMENSIONS: In.



P1166, P1167



P1168, P1169

Pulse offers a complete range of power magnetics for DC-DC converter and switchmode designs. These magnetics include power inductors, power transformers, current sensors, gate drive transformers and common mode inductors.

Many parts are designed for low voltage, high current and high frequency applications. Pulse manufactures the broadest selection of packaging options from various through hole devices to the smallest available surface mount solution with a height of .071" (1.80mm).

Features:

- Low profile and suitable for compact surface area mounting
- Large permissible DC current
- Low DC resistance

Pulse P1166 SERIES

Height =.138"

For quantities of 2400 and up, call for quote.

SUMIDA CEP125

Features:
- Measuring Freq. (L): 100kHz
- Tolerance of Inductance: (S) 0.68μH±30% (N), 1.5μH-10μH±20% (M)
  (H) 0.47μH±30% (N), 1.0μH-7.2μH±20% (M)
  (U) 0.35μH-0.8±30% (N), 1.4μH-5.6μH±20% (M)

Construction

For quantities of 1000 and up, call for quote.

SUMIDA Power Inductors

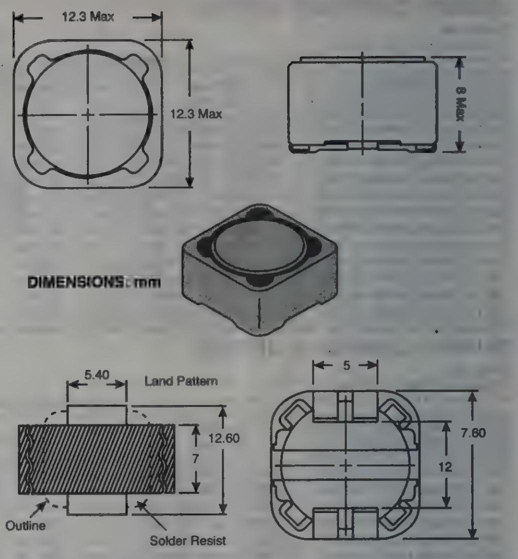
SUMIDA CDRH127LD POWER INDUCTORS

This page of product is compliant.

CDRH127/LD is a low DCR direct drop-in version of Sumida's most popular series, the CDRH127 series. EMI Shielding is used to minimize crosstalk interference.

RoHS Compliant

Construction



For quantities of 1000 and up, call for quote.

SCHURTER Chokes

SCHURTER LINEAR CHOKES

These chokes mount either horizontally or vertically for reduced height or board area used. Finest quality core materials allow the highest electrical performance with minimum component volume. Good design and easy assembly allow good cost/performance ratios. This type of choke is essential in the field of power electronics, e.g. switching power supplies, chopper amplifiers, DC drives and stepper motor controls. They are rated 600VDC and can be used at up to 20kHZ.

RoHS Compliant

- Rated current specified at 70°C

For quantities of 250 and up, call for quote.

SCHURTER COMPENSATED MULTIPLE CHOKES

Magnetic compensating chokes are primarily used as interference suppression components where common mode interference is a problem. Coupled with suitable capacitors these chokes can operate as interference protection suppression filter systems. The range offers a wide choice of operating voltages, rated currents, inductance values, etc., and are enclosed in plastic enclosures to protect them from environmental factors such as humidity, shock and vibration. They are rated at 250 or 440VAC.

RoHS Compliant

- Rated current specified at 40°C

For quantities of 250 and up, call for quote.

SCHURTER SATURATING CHOKES

Magnetic saturating chokes are used mainly in phase angle control circuits using thyristors, triacs or transistors. These chokes are called non-linear inductors. Together with capacitors, they perform as an LC filter at the point of switching. As soon as the current starts to flow, the inductance drops significantly and at the point of complete saturation, its value is approximately that of an air-core coil. Chokes of this kind are very popular due to their low-cost-volume ratio. The DLFP/DLFL series still show more than 40% of their inductance at In. Due to this they are referred to as "linear-saturating" chokes.

RoHS Compliant

For quantities of 250 and up, call for quote.

VLF SERIES

Features:
- Low Coil Resistance
- Excellent Shielding Effect
- Lead Free - RoHS Compliant
- Usable in mobile electronics

DIMENSIONS: mm

TDK Ferrite Beads and GigaHertz Rated Inductors

TDK MLK SERIES INDUCTORS

Features:

- Supports operating frequency bands of up to 12GHz with nominal inductance values from 1 to 33nH.
- The gigaspiral multilayer structure reduces self-resonant frequencies and suppresses the reduction of Q values in gigahertz bandwidths.
- Advanced monolithic structure is formed using a multilayering and sintering process with ceramic and conductive materials for high-frequency.
- Completely lead-free product which contains no lead in any of the materials used. It supports lead-free solder, as well.

Applications:

- High-frequency circuits for portable telephones, PA, Bluetooth modules, etc.

Specifications:

- Operating Temperature Range: -55°C to +125°C
- Storage Temperature Range: -55°C to +125°C (unit of product)

For quantities of 1000 and up, call for quote.

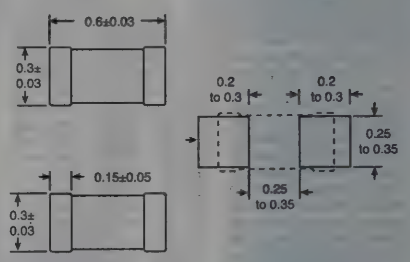
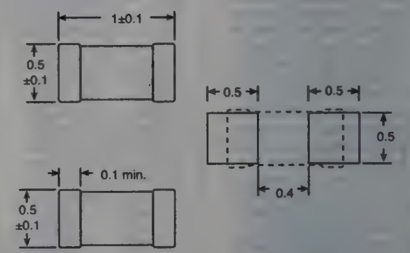
DIMENSIONS: mm

0201 Case Size



0402 Case Size



TDK MMZ SERIES CHIP FERRITE BEADS

Features:

- Size standardized for use by automatic assembly equipment. No preferred orientation.
- Either flow or reflow soldering methods can be used due to electroplating of the terminal electrodes.
- High reliability due to an entirely monolithic structure.
- Low DC resistance structure of electrode prevents wasteful electric power consumption.
- The products contain no lead and also support lead-free soldering.

Applications:

- PCs, CRTs, liquid crystal display panels, printers, hard disk drives, game machines, cell phones, etc.

Specifications:

- Operating/Storage Temp. Range: -55°C to +125°C

Code	Freq. Range	Applications
A	80-400 MHz	Very high impedance @ 100MHz, based on Y material
D	200-500 MHz	High impedance @ high frequencies
R	10-200 MHz	For digital signal lines req'g good waveform integrity
S	40-300 MHz	Standard type with blocking frequency near 100MHz
Y	80-400 MHz	Usable where signal freq. is far from cut-off frequency

For quantities of 2000 and up, call for quote.

TDK SMD Ferrite Core, Magnetic Shielded Chip Inductors

MLF SERIES MLF2012 TYPE

Features:

- High-reliability monolithic structure.
- Ferrite core and magnetic shielding enables the design of compact circuits with high packing density.
- Excellent solderability and hig heat resistance permits either flow or reflow soldering.
- The products contain no lead and aslo support lead-free soldering.

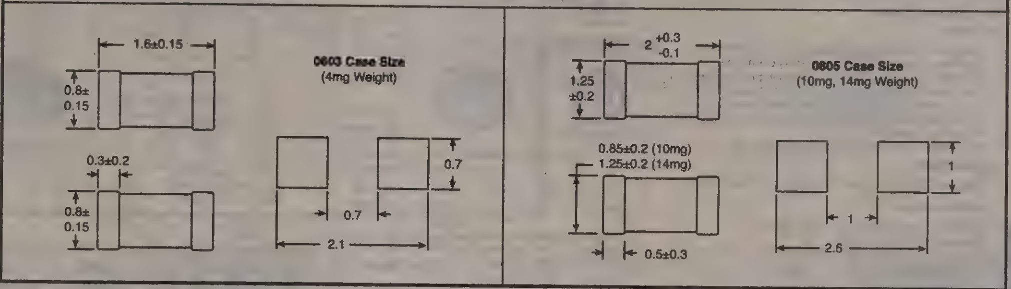
Applications:

- Digital cellular phone, car audio, TV, personal computers, or various electronic appliances

Specifications:

- Operating Temperature Range: -25°C to +85°C
- Storage Temperature Range: -40°C to +85°C (unit of products)

DIMENSIONS: mm



For quantities of 4000 and up, call for quote.

NLV SERIES NLV25/32 TYPE

For Signal Line

Features:

- The product has good heat durability that withstands lead-free compatible reflow soldering conditions
- Lead-free material is used for the plating on the terminal
- The electrical characteristics, reliability, shape and pad shape are the same as the previous NL series
- Highly heat resistant thermoplastic resin is used to form the exterior package
- This product conforms to the RoHS standard

RoHS Compliant

LEAD-FREE

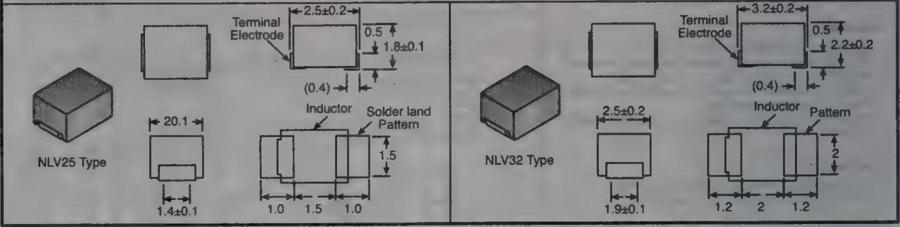
Applications:

- PCs, hard disk drives, and other types of electronics

Specifications:

- Operating Temperature: -20°C to +85°C
- Inductance Tolerance: ±5%

DIMENSIONS: mm



For quantities of 4000 and up, call for quote.

NLCV SERIES NLCV25/32 TYPE

For Power Line

Features:

- The product has good heat durability that withstands lead-free compatible reflow soldering conditions
- Lead-free material is used for the plating on the terminal
- The electrical characteristics, reliability, shape and pad shape are the same as the previous NL series
- Highly heat resistant thermoplastic resin is used to form the exterior package
- This product conforms to the RoHS standard

Applications:

- PCs, hard disk drives, and other types of electronics

Specifications:

- Operating Temperature: -20°C to +85°C
- Inductance Tolerance: ±5%

RoHS Compliant

LEAD-FREE

For quantities of 4000 and up, call for quote.

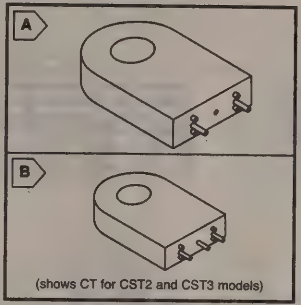
TRIAD CURRENT SENSE TRANSFORMERS

Designed for switching power supply applications. Triad current sense transformers are used to detect the current passing through a conductor. These transformers are very reliable and operate effectively over the frequency range of 20 kHz-200 kHz for the CST2 and CST3 models. The CST1 models have a frequency range of 50-60 Hz. They are constructed of UL rated 130°C materials. The CST2 and the CST3 are available with a center tap option, T-suffix.

Features for CST2 & CST3:

- Derate ET product by 32% for 50 kHz, 52% for 100 Hz and 50% for unidirectional operation
- Rated primary current renders approximately 40°C temperature rise
- CST206 models have maximum recommended terminating resistance of 1 ohm per turn

RoHS Compliant



(shows CT for CST2 and CST3 models)

CST2 & CST3 Series

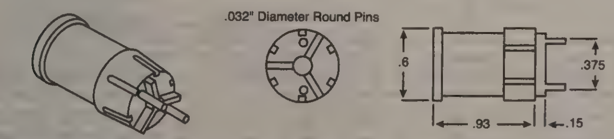
TRIAD ROD CORE INDUCTORS

Triad rod core inductors provide cost effective energy storage. By conditioning the output signal, the inductor smoothes out the current waveform to provide a more stable current. These low cost inductors are designed to be compatible with automated P.C.B. installation.

Features:

- Rated current 10 amps per pin maximum
- Rated current renders @ 40°C temp. rise

DIMENSIONS: In.



For quantities of 25 and up, call for quote.

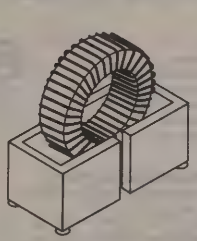
TRIAD TOROIDAL FILTER INDUCTORS

Triad toroidal inductors are specifically designed to minimize transients. These devices store energy, and therefore, condition the output signal by leveling out the current waveform providing a more stable current supply.



Features:

- Nominal inductance values are typically 10% higher than minimal rating
- Biased inductance measure at rated DC amps
- Operation at rated current yields @ 40°C rise over 20°C ambient

For quantities of 25 and up, call for quote.

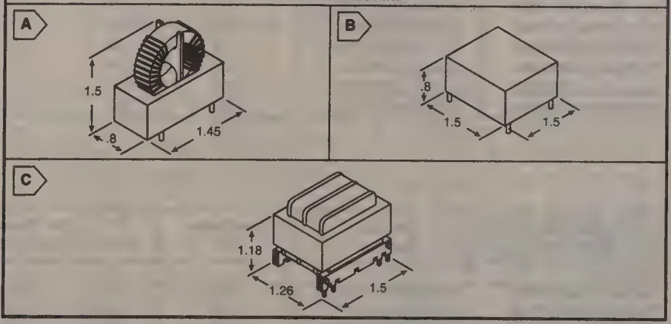
TRIAD COMMON MODE INDUCTORS

Highly dependable Triad common mode EMI suppression inductors are used in various types of power supplies to eliminate noise common to all lines. These units also provide effective differential mode filtering. Meeting VDE, IEC, UL, and CSA requirements, they minimize AC line transmitted interference often created by high frequency switching power supplies

Features:

- Hi-Pot tested at 2500 VRMS
- Current rating for approximately 40°C temperature rise
- DC resistance at 20°C ± 10%
- Inductances are minimum measured at 10 Gauss

DIMENSIONS: In.



For quantities of 25 and up, call for quote.

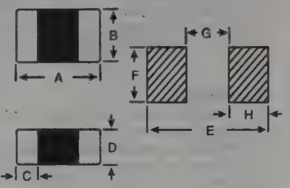
VISHAY / DALE 0603, 0805, 1206 - Monolithic Chip Inductors

ILSB SERIES - SHIELDED INDUCTORS

Features:
- High reliability.
- Magnetically self shielded.
- Nickel barrier plating virtually eliminates silver migration
- Tolerance: ±10%
- Surface mountable

LEAD-FREE

RoHS Compliant



Size	Qty/Reel	Dimensions: mm

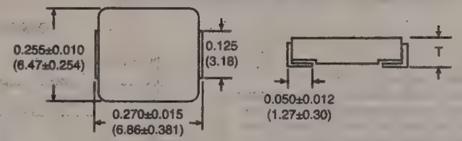
VISHAY / DALE Low Profile - SMD High Current Inductors

RoHS Compliant This page of product is compliant.

IHLP2525 - AH, BD, CZ SERIES - LEAD-FREE

Features:
- Operating temperature: -55°C to +125°C
- Shielded construction.
- Frequency range up to 5.0MHz
- Handles high transient current spikes without saturation

Applications:
- PDA/Notebook/Desktop/Server applications
- High current POL converters
- Power supplies
- Battery powered devices
- DC/DC converters in distributed power systems, FPGAs



DIMENSIONS: in. (mm)

RoHS Compliant

For quantities of 1000 and up, call for quote.

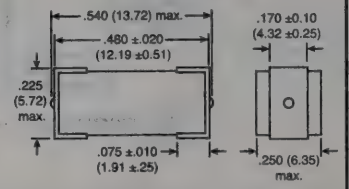
VISHAY / DALE Surface Mount Inductors

IHSM-4825 SERIES HIGH CURRENT, SURFACE MOUNT INDUCTORS

DIMENSIONS: in.



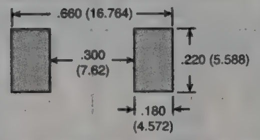
Features:
- Flame retardant encapsulant - (UL-94V-0)
- Completely encapsulated winding provides superior environmental protection and moisture resistance
- High current unit in surface mount package printed with model, inductance value and date code
- Compatible with infrared or conventional reflow soldering methods
- Pick and place compatible

Applications:
- Excellent power line noise filters, filters for switching regulated power supplies, DC/DC converters, SCR and Triac controls and RFI suppression

Specifications:
- Inductance: Measured at 1 volt with no DC current
- Operating Temperature: -55°C to + 125°C (no load) -55°C to + 85°C (at full rated current)
- On Tape and Reel

LEAD-FREE

Recommended Pad Layout



For quantities of 50 and up, call for quote.

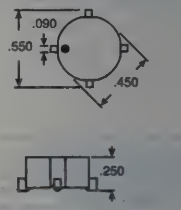
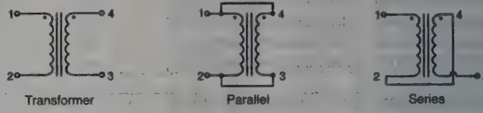
LPT-4545 TOROIDAL SURFACE MOUNT INDUCTORS

DIMENSIONS: in.

Features:
- Toroidal design for minimal EMI radiation in DC to DC converter applications
- Designed to support the growing need for efficient DC to DC converters in battery operated equipment
- Two separate windings provide versatility by ability to connect windings in series or parallel





For quantities of 50 and up, call for quote.

VISHAY / DALE Surface Mount Inductors

RoHS Compliant This page of product is compliant.

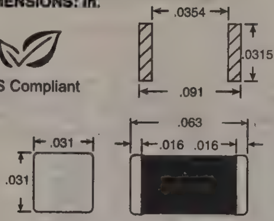
IMC-0603 SURFACE MOUNT INDUCTORS HIGH FREQUENCY, LASER SPIRAL, COATED

Features:
- High self-resonant frequency values
- High Q values relative to size at higher frequencies
- Coated coil provides protection and moisture resistance
- Compatible with vapor phase and infrared reflow soldering
- L and Q value not affected by mounting orientation

Specifications:
- Operating temperature: -40°C to +100°C
- Core Material: Ceramic

RoHS Compliant

DIMENSIONS: in.



For quantities of 6,000 and up, call for quote.

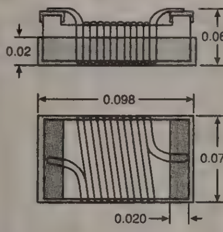
IMC-1008 SURFACE MOUNT INDUCTORS HIGH FREQUENCY

Features:
- High self-resonant frequency values
- High Q values at higher frequencies
- Wirewound construction
- Compatible with vapor phase and infrared reflow soldering

Specifications:
- Inductance and Q measured on HP4191A
- SRF measured on HP8753B
- Temperature range: -40°C to +85°C
- Core material: non-magnetic

RoHS Compliant

DIMENSIONS: in.



For quantities of 4,000 and up, call for quote.

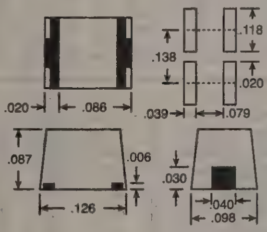
IMC-1210 MOLDED SURFACE MOUNT INDUCTORS

RoHS Compliant

Features:
- Printed marking
- Compatible with vapor phase and infrared reflow soldering
- Molded construction provides superior strength and moisture resistance

Specifications:
- Operating temperature: -55°C to +125°C
- Core material: Ceramic for 3.3nH to 1000nH, ferrite for 1200nH to 22,000nH



DIMENSIONS: in.

For quantities of 4,000 and up, call for quote.

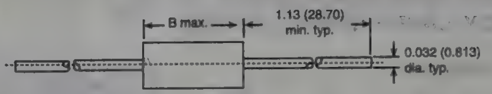
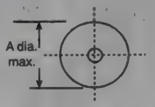
VISHAY / DALE Axial Lead

DIMENSIONS: In. (mm)

IHD FILTER INDUCTORS-HIGH CURRENT



Electrical Specifications:
- Inductance: measured at 1V with no DC current
- Operating Temperature: -55°C to +125°C (no Load)
  -55°C to +85°C (at full rated current)
- Tolerance: 15%



Mechanical Specifications:
- Wire: solid soft copper
- Terminals: 20 AWG tinned copper leads
- Coating: polyolefin tubing
- Core Material: ferrite

IHA HIGH CURRENT FILTER INDUCTORS

Features:
- Printed circuit mounting (axial leads)
- Pre-tinned leads
- Designed for use with switching power supplies
- Protected by polyolefin sleeve

Specifications:
- Tolerance: ±10%
- Inductance: measured at 1V with no DC current
- Current rating: maximum continuous operating current (DC or RMS) based on 50°C temperature rise
- Operating temperature: -55°C to +75°C @ rated current

DIMENSIONS: In.

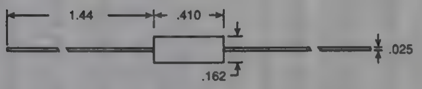
IMS-5 INDUCTORS - MOLDED, SHIELDED TYPE LT AND COMMERCIAL

Specifications:
- Meets MIL spec.: MIL-C-15305
- Insulation resistance: 1000MΩ
- Dielectric strength: 1000VAC
- Operating temperature range: -55°C to +105°C
- Tolerance: ±10%

Features:
- Wide inductance range in small package
- Flame retardant coating
- Precision performance, excellent reliability, sturdy construction
- Epoxy molded construction provides superior moisture protection

DIMENSIONS: In.



For quantities of 50 and up, call for quote.

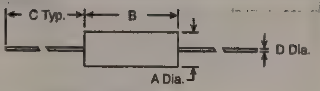
VISHAY / DALE Axial Lead Inductors

IM-2 MOLDED INDUCTORS

Specifications:
- Insulation resistance: 1000MΩ min.
- Dielectric strength: 1000VAC
- Tolerance Standard = 10%, values 56µH > 5%



Features:
- Wide inductance range in small package
- Flame retardant coating
- Precision performance, excellent reliability, sturdy construction
- Epoxy molded construction provides superior moisture protection

DIMENSIONS: in. (mm)					
Model		A	B	C	D
IM-2	max.	.105 (2.67)	.260 (6.60)	1.63 (41.4)	.0215 (.546)
	min.	.085 (2.16)	.240 (6.10)	1.25 (31.7)	.0185 (.470)
IM-3	max.	.165 (4.19)	.385 (9.78)	1.63 (41.4)	.027 (.686)
	min.	.145 (3.68)	.365 (9.27)	1.25 (31.7)	.023 (.584)

For quantities of 50 and up, call for quote.

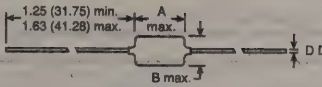
IR SERIES EPOXY CONFORMAL COATED INDUCTORS

Specifications:
- Insulation Resistance: 1000MΩ min.
- Dielectric Strength: 1000VAC



Features:
- Flame retardant coating
- Color band identification
- Excellent environmental characteristics
- Comparable in quality to molded chokes at a lower price
- Uniform coating is excellent for automatic insertion
- Epoxy coating is more durable than lacquer coated models, yet is priced comparable

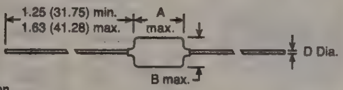
IRF SERIES EPOXY CONFORMAL COATED INDUCTORS

DIMENSIONS: in. (mm)

Specifications:
- Insulation Resistance: 1000MΩ min.
- Operating Temperature: -55°C to +105°C



Features:
- Flame retardant coating and color band identification
- Uniform coating is excellent for automatic insertion
- Superior electrical specifications: high Q and self resonant frequency, low DC resistance, high rated current
- Core: Ferrite

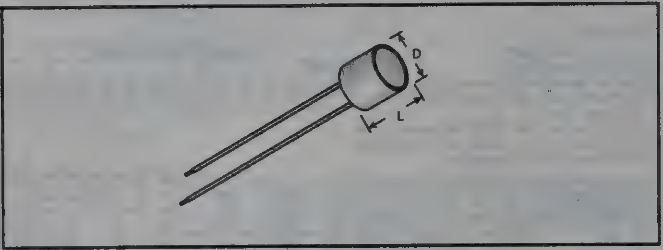
XICON Chokes and Coils

ECONOMY ENCAPSULATED RF CHOKES

Miniature fixed inductor wound on a ferrite core and resin encapsulated into a molded plastic case. These RF chokes exhibit excellent moisture resistance and vibration endurance.



For quantities of 2000 and up, call for quote.

Antennas, Ferrite Beads, and Wirewound SMD Inductors

Innovative Service Around the Globe **YAGEO**

SURFACE MOUNT ANTENNAS

Features:

- Simplifies antenna circuitry
- No need for expensive RF connectors
- Water based non-toxic production process
- NiSn lead-free terminations
- Co-fired ceramic technology reduces manufacturing energy consumption
- Suitable for wave and reflow soldering
- Supplied on tape and reel or in bulk package

Applications:

- Telecommunications
- Computing (PCs, printers, PDAs)
- Wireless office data communications including WLAN
- Consumer electronics (wireless headphones)

✱✱ Package Bulk Only

✱Antenna has a built-in circuit at Ground Termination. However, Ground Termination is optional if good matching is attainable. If good matching is attainable during application, Ground Termination can be used as NC Solder Termination.

XICON™ Passive Components

1812 MAGNETIC SHIELDED WIREWOUND SMD INDUCTORS

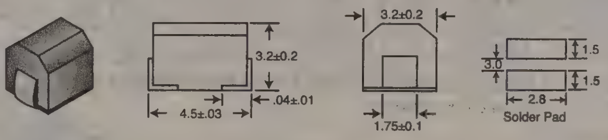
Specifications:

- Temperature rise: 20°C (max.)
- Ambient temperature: 80°C (max.)
- Operating temperature: -20°C to +100°C
- Storage temperature: -40°C to +100°C

Features:

- Very strong solderability
- Can be mounted automatically
- Terminals are highly resistant to pull forces
- Highly resistant to mechanical shocks and pressure

RoHS Compliant



DIMENSIONS: mm

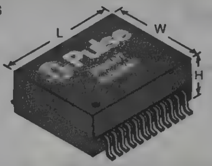
PULSE LAN Discrete Transformer Modules

1000 BASE-T MAGNETICS MODULES

Designed to Support 1:1 Turns Ratio Transceivers



Features:

- Designed for long haul Gigabit Ethernet (10/100/1000 Base-T) Applications
- H5008/9 Designed to fit behind 1x1 RJ45 connector
- Cable interface for isolation and low common mode emissions
- Compliant with IEEE 802.ab Standard for 1000 Base-T

L/W/H are maximum dimensions. Width is measured on surface mount parts pin-tip to pin-tip. Height includes wash area.

10/100/1000 Base-T, Single Port

For quantities of 100 and up, call for quote.

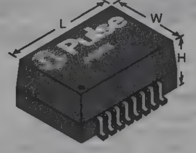
GIGABIT DUAL TRANSFORMERS

For use with 150Ω Twinax Cable



Features:

- Compliant with ANSI X3T9.5, FC-PH-3 Fibre Channel Physical Layer Specification
- Compliant with IEEE 802.3z PMD
- Designed for fast rise-time and a low frequency cutoff of 2.5 MHz
- IC grade transfer-molded withstands 235°C peak temperature profile

L/W/H are maximum dimensions. Width is measured on surface mount parts pin-tip to pin-tip. Height includes wash area.

For quantities of 100 and up, call for quote.

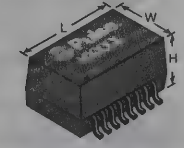
10/100 BASE-TX SINGLE PORT TRANSFORMER MODULES

With 1:1 Transmit Turns Ratios



Features:

- Compact symmetrical size facilitates chip shooter placement and reduces manufacturing time
- IEEE 802.3 and ANSI X3.263 compliant including 350μH OCL with 8mA bias
- IC grade transfer-molded package withstands temperatures over 235°C
- Patented interlock base construction for high reliability

L/W/H are maximum dimensions. Width is measured on surface mount parts pin-tip to pin-tip. Height includes wash area.

For quantities of 100 and up, call for quote.

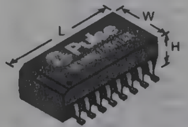
10/100 BASE-TX SINGLE PORT TRANSFORMER MODULES

With Various Transmit Turns Ratios



Features:

- Patented Interlock Base Design
- Meets all IEEE 802.3 and ANSI X3.263 standards including 350μH OCL with 8mA bias
- IC grade transfer-molded package withstands temperatures over 235°C
- Various pinout options available for optimal board layout

L/W/H are maximum dimensions. Width is measured on surface mount parts pin-tip to pin-tip. Height includes wash area.

For quantities of 100 and up, call for quote.

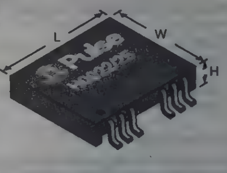
10/100 BASE-T SINGLE PORT SURFACE MOUNT MAGNETICS MODULES

With Various Turns Ratios



Features:

- Meets IEEE 802.3 and ANSI X3.263 Standards including 350μH OCL with 8mA bias
- Designed for reflow soldering at temperatures up to 235°C
- Compact footprint for use in the most space-restrictive applications

L/W/H are maximum dimensions. Width is measured on surface mount parts pin-tip to pin-tip. Height includes wash area.

For quantities of 200 and up, call for quote.

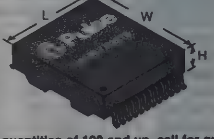
10/100 BASE-T DUAL PORT TRANSFER MODULES

For use with Transceivers Requiring 1:1 Transmit and Receive Turns Ratio



Features:

- Compliant with IEEE 802.3 and ANSI X3.263 Standards including 350μH OCL with 8mA bias
- Modules designed to support two RJ45 connectors
- Some models offer AutoMDIX cabability

L/W/H are maximum dimensions. Width is measured on surface mount parts pin-tip to pin-tip. Height includes wash area.

10/100 Base-TX, Dual Port

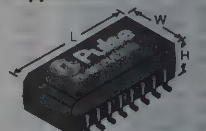
SURFACE MOUNT 10 BASE-T INTERFACE MODULES

Fully Integrated for Adapter, Hub, and Motherboard Applications



Features:

- Low profile surface mount package
- E2000 Series Designed for AMD, DEC, LSI, Motorola, and National tranceivers
- IC grade transfer-molded package withstands 235°C peak temperature performance

L/W/H are maximum dimensions. Width is measured on surface mount parts pin-tip to pin-tip. Height includes wash area.

For quantities of 100 and up, call for quote.

10 BASE-T QUAD SMT TRANSFORMER MODULES

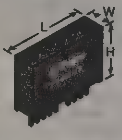
For 802.3 10 Base-T LAN Applications

Features:

- Meet or exceed IEEE 802.3 10 Base-T Specifications
- For MAUs, Hubs, and Motherboard Applications
- High performance for maximum EMI suppression
- Minimum 1500 Vrms isolation per IEEE 802.3 requirement
- Compatible with multiple 10 Base-T Chips



L/W/H are maximum dimensions. Width is measured on surface mount parts pin-tip to pin-tip. Height includes wash area.

For quantities of 300 and up, call for quote.

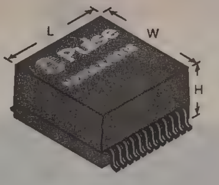
POWER OVER ETHERNET MAGNETIC MODULES

10/100 Base-TX VoIP (PoE) Magnetics

Features:

- IEEE 802.3af/ANSI X3.063 compliant performance
- Suitable for End-span and Mid-span PoE applications
- 350mA Current capability
- Designed for IP phone or switch applications
- Compact footprint
- Some models offer AutoMDIX capability



L/W/H are maximum dimensions. Width is measured on surface mount parts pin-tip to pin-tip. Height includes wash area.

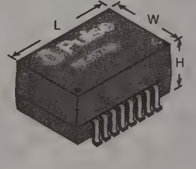
ISOLATION TRANSFORMER FOR ETHERNET

AUI Transformer

Features:

- Low leakage inductance and coupling capacitance for faster rise times
- Small form factor, 50 mil lead spacing



L/W/H are maximum dimensions. Width is measured on surface mount parts pin-tip to pin-tip. Height includes wash area.

For quantities of 200 and up, call for quote.

THT CURRENT SENSE TRANSFORMERS

Features:

- Designed for switching power supply applications
- Transformer meets IEC950 insulation requirements
- Frequency range from 20kHz to 200kHz

As a global leader in interconnect products, JAE Electronics offers a wide selection of connectors ranging from circular, board-to-board, FPC, wire-to-board, input/output, memory card, and automotive grade connectors. JAE is known for delivering quality, leading-edge technology products to a wide range of markets.

Experience Mouser's time-to-market advantage! Our vast selection of the NEWEST products, NEWEST technologies, **new catalog every 90 days**, no minimums, and same-day shipping on most orders, gets you to market faster. We make it easy to do business with Mouser! For more information about our extensive line of JAE products, visit *www.mouser.com/jae* today to easily buy online!

HOOK AND LOOP FASTENERS

Tiny, stiff hooks mesh with pliable loops for quick secure fastening.

Scotchmate™ General Purpose Pressure Sensitive

Simply peel off the liner and press in place. These general purpose products offer high adhesive bond to a wide variety of materials and provide excellent moisture resistance. When supporting static loads, temperature should not exceed 49°C / 120°F to avoid slippage or movement of the fastener in the direction of the static force due to softening of the adhesive. Temperature range is -29°C / -20°F to 49°C / 120°F continuous, to 70°C / 158°F intermittent.

By the Foot / **Mini-Pack (4.9 Yards)**

Dual Lock™ General Purpose Pressure Sensitive

3M™ Dual Lock™ Reclosable Fasteners have been used extensively in transportation, electronics, business equipment, machinery, medical and sign and display markets. When the mushroom-shaped stems interlock, tensile strength is high enough to replace mechanical fasteners in many applications, yet you can readily open and close Dual Lock fasteners hundreds of times. High temperature and solvent resistant. Black, polyproplyene reclosable fastener with rubber based pressure sensitive adhesive and works well on many plastic surfaces.

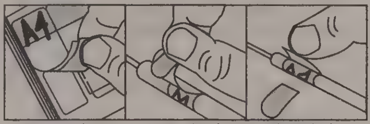
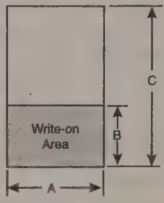
SWB WRITE-ON WIRE MARKER BOOKS

RoHS Compliant

The 3M SWB Write-on Wire Marker Book contains self laminating, write-on markers designed for small volume applications involving special or complex legends that are hand written at the job site.



1. Grasp marker and liner tab at bottom and remove by peeling upward.
2. Apply printed end of marker to wire and wrap, bending marker to lift tab.
3. Wrap tail of marker over legend as tab seperates from marker.



For quantities of 5 and up, call for quote.

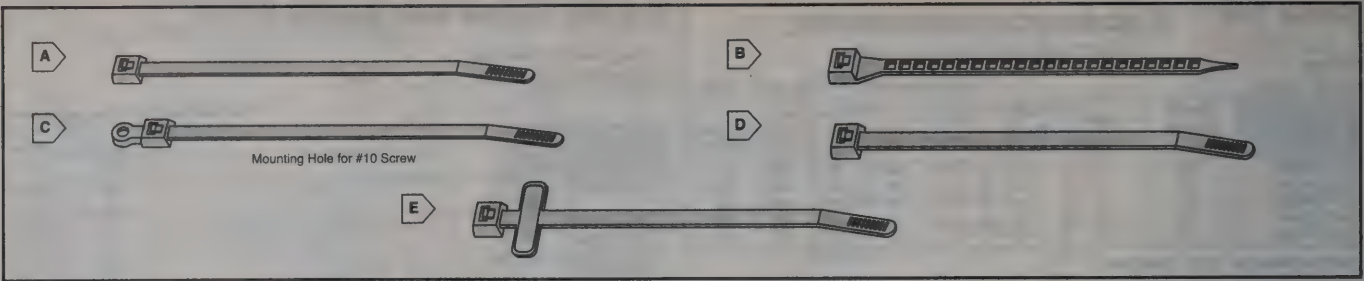
AVERY DENNISON Cable Mounting Hardware

Fastener Division



BAR-LOK® CABLE TIES

Features:
- Manufactured of 100% Nylon
- Bent-tip design for ease of handling and installation
- Maximum holding ability

Specifications:
- Type 6/6 Nylon
- Self-extinguishing - UL94 flam., class: V-2
- Meet MIL-S-23190, MS3367, ASTM D 4066-82
- Operating Temperature: -40°C to 85°C
- Heat Stabilized: -40°C to 105°C

CABLE TIE INSTALLATION TOOL

Features:
- This tool can accommodate all miniature, intermediate and standard ties and is ideally built to withstand the rigors of daily use on the assembly line of high production operations
- Rugged, lightweight cast Aluminum body built to last in production environments
- Nose of the tool allows easy access for miniature, intermediate and standard ties
- Distance between the trigger and handle designed to lower the trigger force necessary or operation, avoiding fatigue and increasing comfort for smaller hands

For quantities of 5 and up, call for quote.

DOUBLE ADHESIVE CABLE CLIPS

Features:

- Tough, corrosion resistant nylon 6/6 clip is backed with a quality foam adhesive tape.
- The double clip design develops greater shear loads and holding power.
- To install, simply pull the clip off of the liner strip and press into place.
- No holes to drill or screws to turn.
- Nylon press clips provide a low in-place assembly that is quick and permanent.
- Polyethylene foam tape has excellent conformability, high temperature and solvent resistance and high ultimate bond strength.

For quantities of 5000 and up, call for quote.

RIBBON CLIPS

Features:

- One Piece Ribbon Clip and Adhesive Ribbon Cable are molded in tough non-conductive nylon.
- The design allows for quick positive clamping of flat cable up to 50 conductors wide, without the need for securing the clip to a board or chassis. One Piece Ribbon Clips are releasable and reusable. The Adhesive Clips have a peel and stick adhesive backing.

For quantities of 5000 and up, call for quote.

QUICK CABLE CLAMPS

Quick cable clamps are designed for one-handed installation. The design features an integrated ratchet fastener which eliminates the need for a screw or other fastener. The part is self-aligning, and the built-in handle allows for quick and easy installation without tools. Tha parts are molded from nylon 6/6 and are suitable for many different wire, cable, or tubing routing applications. Parts are designed to fit a 3/16" diameter hole.

For quantities of 5000 and up, call for quote.

RELEASABLE CLAMPS

Wire/Cable Holders are designed to mount into 3/16 to 1/4 or 6mm hole diameters. Wire/Cable Holders can be used in a variety of panel thicknesses and materials. Sizes are available to handle wire bundle diameters from .375" to 1".

For quantities of 5000 and up, call for quote.

WIRE / CABLE HOLDERS

Wire/Cable Holders are designed to mount into 3/16 or 5mm hole diameters. Wire/Cable Holders can be used in a variety of panel thicknesses and materials. Sizes are available to handle wire bundle diameters from .375" to .500".

For quantities of 5000 and up, call for quote.

WIRE / CABLE CLIPS

Features:

- Wire Clips are molded in Nylon 6/6 material. Holds up to ten 26 gauge wires (1/32 outside dia.)
- They can be used on densely packed PC boards or any other limited space applications.
- Wires install easily by pressing down on retaining arms which flex to accept wire then spring back into place.
- Split wire routing clips allow for the loading of wires by separating the cup at the split and then inserting the prongs of the clip into a hole in the panel.
- Various wiring, such as telephone wire, is often routed with electrical conduit.
- Conduit Clips are designed to snap onto electrical conduit.
- The integrated wire holder on the clip allows wiring to be secured to the conduit.
- Installation is faster and easier than with a wire tie, which is often used for this purpose.
- The clip can be easily removed if necessary, up to 5/16" diameter. Parts are molded in light weight, chemical and corrosion resistant Nylon 6/6.

For quantities of 5000 and up, call for quote.

CONTINUOUS FLEXIBLE GROMMETING

Protect wires, cables, tubing and other objects from sharp panel edges. Can be used for round, square, and irregular shaped panels.

- In Natural (N) or Black (B)
- Material: Polyethylene
- Attaches quickly and easily using no special tools.

RoHS Compliant

For quantities of 2000 and up, call for quote.

PANDUIT Cable Ties

PANDUIT PAN-TY® NYLON CABLE TIES

General Purpose Locking Cable Ties

RoHS Compliant

Features:

- Engineered with quality features designed to increase productivity and reduce your total installed cost
- Low threading force
- No sharp edges
- Finger grip tip
- Bent tip
- Consistent quality assured by tests conducted by military and independent testing labs
- One-piece constructions - up to 250 lbs. minimum loop tensile strength
- Materials and colors to suit the application and environment
- Applicable sizes meet all appropriate Military Specifications and are U.L. Recognized

Nylon 6.6 (Natural) For quantities of 5000 and up, call for quote.

Releaseable Locking Cable Ties

The extended tab end of releasable cable ties permits easy release and reuse even after tie has been pulled up snug by hand. Releasable ties are particularly useful in harnessing where changes are anticipated during development, production or servicing in the field.

Features:

- Tensile Strength: 50lbs.

RoHS Compliant

Nylon 6.6 (Natural) For quantities of 5000 and up, call for quote.

PANDUIT SUPER-GRIP CABLE TIES

Features:

- Thin, wide strap body provides flexibility enabling it to conform to bundle while maintaining tensile strength
- High strength allows the tie to withstand rough installation practices that occur in MRO and Construction environments
- Resists lateral movement on the bundle - tie is designed to grip the bundle when tightly applied
- Curved tip is easy to pick up from flat surfaces, allows faster initial threading, and speeds installation

RoHS Compliant

PANDUIT NYLON 6.6 CLAMP TIES

Clamps are used to attach a bundle to another surface such as a control panel, wall or ceiling using another fastner. The design allows for bundling before or after screwing clamp in place.

Nylon 6.6 (Natural)

PANDUIT CABLE TIE INSTALLATION TOOLS

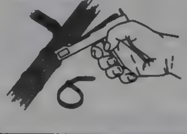
RoHS Compliant

- The preferred tool design in the industry.
- Lightweight and balanced.
- Requires no special maintenance.
- Rugged all-steel construction
- Easy to operate.

GS4H
- Installs standard, light heavy and heavy cross section cable ties.
- Installs superflex cable ties.
- Q.P.L. per Mil. std. MS90387-2 and Mil. spec. Mil-T-81306A.

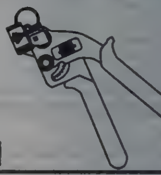
644-GS4H	343.82

STS2
- Installer controlled tension and cut-off.
- Perfect size for pocket or tool box.
- Especially suited to maintenance and construction applications.
- Installs miniature, intermediate and standard ties.



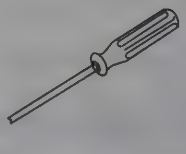
644-STS2	28.62

ST2MT
- Used with all Pan-Steel™ type MLT.
- Single handle trigger for fast installation.
- Cut off capability with the twist of the wrist.



644-ST2MT	319.49

HTMT
- Specially adapted screwdriver type tool is used to tension standard and heavy cross section ties safely.
- Used with all Pan-Steel™ type MLT ties, type MLTC coated ties and type MLPT plenum ties.
- Manual tension, no cut-off.



644-HTMT	22.26

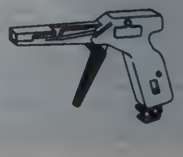
GTS
- Installs miniature, intermediate and standard cross section cable ties.
- Manual tool/lightweight 8.8 oz.
- Meets Mil. std. MS90387-1

644-GTS	168.53

GTH
- Installs Standard, Heavy-Standard, Light-Heavy and Heavy cross section cable ties.
- Manual tool/ lightweight 11.2 oz

644-GTH	320.24

GS2B
- Tool controlled tension and cut-off.
- Automatic tension and cut-off by squeezing trigger.
- Reduces fatigue and increases productivity.
- Especially suited to medium production applications.
- Q.P.L. per Mil. Std. MS90387-1
- Installs miniature, intermediate and standard ties.



644-GS2B	210.97

PAN-CODE™ WIRE MARKER BOOKS

- Material: Vinyl cloth
- 1-3/8" long for wire O.D. up to 3/8"
- Each marker is preformed to form half markers for wire O.D. up to 3/16"
- .22 x .25 long terminal block marker is provided for each full length marker
- 10 pages per book
- Legend: Black
- Background: White

THERMAL TRANSFER LABELS

Polyester Thermal Transfer Labels

Features:

- Durable
- Does not stretch easily or tear
- High Temperature
- Polyester White

Suggested Uses: Circuit Board Labeling, Rating Plans, Bar Code Labels

RoHS Compliant

For quantities of 50 and up, call for quote.

Polyimide Thermal Transfer Labels

Panduit Polyimide Thermal Transfer labels are specifically designed for circuit board manufacturing where there will be contact with direct wave solder and IR reflow.

Features:

- Technically engineered to withstand "flash" temperatures as high as 617°F for up to five minutes and temperatures up to 482°F for 30 minutes.
- UL approved for thermal transfer printers

RoHS Compliant

*To be used on flat surfaces only

For quantities of 50 and up, call for quote.

PANDUIT PAN-WRAP™ SPLIT HARNESS WRAP & INSTALLATION TOOL

PAN-WRAP Split Harness Wrap is an innovative addition to the PANDUIT ®Abrasion Protection Line. Bundles and protects wires or cables. Slotted walls allow for breakouts along the length of the harness. Installation tool with 180° opening allows easy loading of maximum bundle diameters to speed installation, providing the lowest installed cost.

Patented slot pattern provides improved flexibility and abrasion protection in any application. Large overlap accommodates a wide range of bundle diameters. Unique wall design provides for easy wire or cable breakouts. Innovative design maintains uniform bundle protection in dynamic applications. Packaged on a reel for easy handling and dispensing of product.

PANDUIT J-PRO CABLE SUPPORT SYSTEM

The J-Pro Cable Support System is designed to provide a competitive alternative to metal J Hooks for routing communication cables. It is suitable for use in air handling space and prevents pinch points that could cause damage to cable. The pre-riveted assemblies allow for attachment to ceilings, beams, threaded rods, drop wires and under floor supports to meet requirements of a variety of applications.

- Max bundle capacity: 2"
- Max static load: 30 lbs

PANDUCT® WIRING DUCT

Used for general purpose control panel wiring and to route and protect wiring in communication closets. The nonslip cover conceals all wiring and is easy to install. The duct and cover form a flush sidewall providing increased capacity and improved aesthetics. UL recognized, CSA certified. **Other sizes and colors available.** Contact a Mouser Service Representative for assistance.

Specifications:
- Rigid PVC construction
- Color light gray
- UL flammability rating: 94V-0

RoHS Compliant

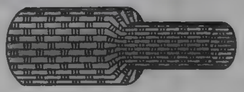
ALPHA WIRE Tubing/Sleeving

FIT FABRIC

Heat Shrinkable Woven Fabric Tubing

Specifications:

- Operating Temperature: -40°C to +125°C
- Shrink Ratio: Approx. 2 to 1 or 3 to 1 at 135°C depending on size
- Color: Black
- Meets MVSS 302 horizontal burn test
- Cuts with scissors



∗ 2 to 1 shrink ratio
† 3 to 1 shrink ratio

For quantities of 5 and up, call for quote.

ZIP-GRP EXPANDABLE POLYESTER WEBBED SLEEVING

With its Velcro-Type enclosure, wires, cable assemblies and wire harnesses are always accessible and can be easily opened for any number of breakouts.

To prevent fraying of ends, ZIP-GRP should be cut/sealed with a a hot knife.

Features:

- Unlimited Breakouts
- Abrasion, Cut-Through Resistance
- Oil and Solvent Resistance
- Superb Flexibility and High Tensile Strength

Specifications:

- Operating Temperature: -70°C to 125°C
- Color: Black

GRP-120 EXPANDABLE BRAIDED POLYESTER SLEEVING

Specifications:

- Operating Temperature: -70°C to +125°C
- GRP-120/ GRP 120NF passes UL VW-1 flame test
- Color: Black

GRP-120 should be cut/sealed with a hot knife to prevent fraying of the ends. GRP-120NF cuts with ordinary scissors without fraying. Does not require a hot knife when cutting.

Typical application for protection of wire, cable, and hoses. Cable not included.

TINNED COPPER FLAT BRAID

Woven Tinned Copper Braid rolled to specific width. Each strand meets requirements of Federal Specifications QQ-W-343E type S & ASTM-B-33. Current carrying capacity shown is for bare cable in free air at 30°C & intended as a reference guide only. Actual values will depend on permissible temperature rise, voltage drop, & other conditions of use.

Features:

- High current carrying ability
- High flexibility
- Meets QQ-W-343E
- Suitable for bonding and grounding applications

Per 100' Spool

For quantities of 50 and up, call for quote.

PIF-200 SILICONE COATED FIBERGLASS SLEEVING

Features:
- High Flexible Routing
- Extreme Abrasion Resistance
- Superior Electrical Properties

Specifications:
- Operating Temperature: -70°C to 200°C
- Voltage Rating: 600V
- Color: Natural

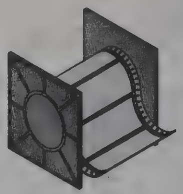
ALPHA WIRE Heat Shrinkable Products

FIT PRINT HEAT SHRINKABLE IDENTIFICATION SYSTEM

Specifications:

- Identification for cable or harness assemblies
- Permanent/smear-resistant marking
- Bright Yellow for high visibility or White
- Operating Temp: -30°C to +105°C
- Tensile Strength: 1200psi
- Shrinkage Ratio: Approximately 3 to 1 at 125°C



Applications:

- Marine Electronics
- Industrial Computers
- Electrical Equipment

Replace the blank in the part number with: **WH** for **White, YL** for **Yellow**

For quantities of 5 and up, call for quote.

FIT 350 HIGHLY FLAME-RETARDANT IRRADIATED KYNAR®

Specifications:

- Operating Temp: -55°C to +175°C
- Shrinkage Ratio: Approximately 2 to 1 at 175°C
- Color: Transparent
- Passes UL VW-1 Flame Test

Applications:

- High Temperature Environments
- Exposure to Chemicals
- Use with High Temperature Wire
- Caustic Environments

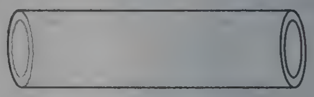
FIT 260 IRRADIATED POLYOLEFIN GROUND IDENTIFICATION



Specifications:

- Operating Temp: -55°C to +135°C
- Shrinkage Ratio: Approximately 2 to 1 at 120°C
- Color: Green with Yellow Stripe
- Tensile Strength: 1500 psi

Applications:

- Color Coding Leads as a Ground Circuit
- Approved for Use By NFPA for 600 Volt Ground Lead Identification
- Wire Harness Identification

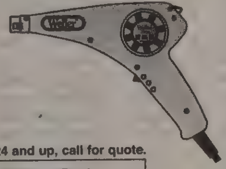
MODEL 6966C INDUSTRIAL HEAT GUN

Specifications:
- Electrical Rating: 120V, 250W, 60 Hz

Includes:
- 1/2" Reflector
- 1 1/2" Reflector
- Reducing Baffle
- Precision Reflector

Features:
- Designed for assembly and repair applications in production plants, laboratories and service shops
- ESD safe
- Approx. 750°F to 800°F hot air at nozzle
- 3 wire grounded plug, 6' cord
- 3 position switch
- Lightweight, 13 oz.



For quantities of 24 and up, call for quote.

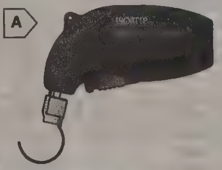
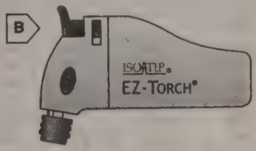
PORTABLE HEAT GUN AND MINI TORCH

MicroTherm Heat Gun
- Portable and Flameless Heat
- Electronic Ignition
- Temperatures up to 1200°F (650°C)
- For heat shrink tubing, activating adhesives and potting compounds.

EZ-Torch Portable Mini Torch
- Electronic Ignition
- Runs approximately 20 minutes of continuous flame per cartridge
- Maximum Temperature Range: 1300°F-2375°F





For quantities of 25 and up, call for quote.

HEAT SHRINKABLE TUBING

- 2 to 1 Shrink Ratio
- Flexible, Highly Flame Retardant Tubing
- Good resistance to most fuels and oils
- Good cut through and solder resistance
- Surface marked
- Operating Temperature: -55°C to 135°C
- Meets MIL I23053/5 Class 1 or Class 2
- Color: Black

alpha FIT 105 FLEXIBLE IRRADIATED PVC SHRINKABLE TUBING

Specifications:
- Operating Temperature: -35°C to 105°C
- Shrinkage Ratio: app. 2 to 1 @ 175°C
- Longitudinal Shrinkage: 10%
- Flammability: Self-Extinguishing (UL VW-1)
- Tensile Strength: 2600psi
- Ultimate Elongation: 250%
- Fungus Resistance: No Growth (MIL-1-7444)
- Dielectric Strength: 750V
- MIL-1-23053/2C, class 1
- Color: Black

Features:
- Economy
- Flexibility
- Excellent Flame Retardancy
- Military, UL/CSA requirements
- Extended shelf life

Applications:
- Use w/ Irradiated PVC wire/cable
- Wire harnesses
- Cable/connector protection
- Insulation of terminals
- Wire splices

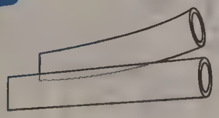
ALPHA WIRE Heat Shrinkable Tubing

Preferred Heat Shrink Products

FIT®-CLEAR, A CRYSTAL CLEAR HEAT SHRINKABLE TUBING THAT IS ALSO HIGHLY FLAME RETARDANT

Features:
- Where visual inspection and identification are required
- Excellent flame retardancy
- Excellent heat resistance
- Excellent chemical resistance
- Operating Temperature: -55°C to 175°C
- Shrinkage ratio: Approximately 2 to 1 @ 150°C
- All standard packages: Clear
- For use with XTRA-Guard® 4 and XTRA-Guard® 5

NEW PRODUCT



Specification:
- Passes UL VW-1 Flame Test

FLEX

Features:
- Highest flexibility available
- Scrape abrasion resistance
- Flame retardancy
- Flexibility in widest temperature range: -75°C to 200°C
- Pliability when substrate requires "Give"
- Use with XTRA-Guard® Flexible Cables
- Color: Gray

Specifications: UL Standard 224

321V LOW SHRINK TEMP, FLAME RETARDANT IRRADIATED POLYOLEFIN

Applications:
- Delicate and intricate electronics protection
- Industrial applications
- Where substrates are heat sensitive

Specifications:
- Operating temperature: -55°C to 125°C
- Shrinkage ratio: App 3 to 1 @ 90°C
- Color: Black
- UL Standard 224
- Fast recovery time
- For use with Series V (VFD Cable)

421 OVER EXPANDED, IRRADIATED POLYOLEFIN

Features:
- Large supplied diameter sizes
- Resistance to water, fungus, and UV light

Specifications:
- Tensile strength: 1500psi
- Operating temperature: -55°C to +135°C
- Shrinkage ratio: Approximately 4 to 1 @ 121°C
- Color: Black

Applications:
- D-Sub connector strain relief
- RS-232 25 pin connector to cable coverage
- Covers the most irregular shapes and connectors
- PC board coverage and protection

600 HIGHLY-FLEXIBLE IRRADIATED ELASTOMER

- Improved flexibility
- More than twice the tensile strength of silicone rubber
- Oil resistance and flame retardancy
- Large tubing diameters
- Use with XTRA-GUARD® 4
- Color: Black

650 CHEMICAL AND TEMPERATURE RESISTANT IRRADIATED VITON®

Features:
- Extreme temperatures: -40°C to 200°C
- Excellent chemical resistance (water, oil, acid and fuels)
- Flexibility
- Use with XTRA-GUARD® 5 and XTRA-GUARD® Flexible Cables
- Color: Black

700 BONDING, MASTIC LINED, IRRADIATED POLYOLEFIN

Features:
- Bonding adhesion to most materials
- Prevents wicking and fills interstices
- Superior strength
- Use with XTRA-GUARD® 3
- Temperature range: -55°C to 90°C
- Environmental and water-tight seal
- High voltage
- Tubing sizes match 14AWG-2000MCM sizes
- Color: Black

750 BONDING, ADHESIVE-LINED, IRRADIATED POLYOLEFIN

Features:
- Bonding to substrates
- Total encapsulation
- Permanent water and corrosion protection
- Internal isolation of individual substrates- "pinching"
- Use with XTRA-GUARD® 2
- Similar to FIT®-221 with adhesive liner
- Reduced diameters
- Color: Black
- Temperature range: -55°C to 110°C

HEYCO-FLEX™ CONDUIT FITTINGS

Use with HEYCO-FLEX™ Conduit and Tubing

LL-84579
LR-81067

E-28430

Features:

- Resists salt water, weak acids, gasoline, alcohol, oil, grease, and common solvents
- Material: 6/6 Nylon
- Suitable for indoor/ outdoor use
- Protection class IP 68 per DIN 40050
- Sealing Washers are not included.

HEYCO FLEXICON FITTINGS

Also available with PG and metric threads

E-229161

Use with Flexicon Tubing

Features:

- Unitary design and assembled shipment allows fast fit
- Resists salt water, weak acids, gasoline, alcohol, oil, grease, and common solvents
- Material: 6/6 Nylon
- IP Rating: IP 66 per BS EN 60529 including high pressure water jet from any angle.
- Color: Black

For quantities of 250 and up, call for quote.

QUALTEK Heat Shrink Tubing

QUALTEK Q2-F SERIES - HIGH STRENGTH, VW-1, THIN WALL POLYOLEFIN, 2:1 SHRINK RATIO

Designed for use in commercial and military applications that require high strength and durability. Flexible, flame retardant and resistant to common fluids and solvents. Meets SAE-AMS-DTL-23053/5, Class 1 & 3 and meets the Sony SS-00259 standard. Wide range of standard colors available.

- Operating Temp: -55°C to +135°C
- Minimum Shrink Temp: 70°C
- UL File No. E236137
- Color: Black

c US RoHS Compliant

QUALTEK Q5-2X & Q5-3X TYPE - DUAL WALL, ADHESIVE LINES, FLEXIBLE POLYOLEFIN 2:1 & 3:1 SHRINK RATIO

Dual wall, adhesive lined tubing manufactured by co-extrusion of polyolefin and hot-melt adhesive. Designed to provide insulation and sealing protection against water and moisture for a wide variety of applications such as automotive harnessing, bundled wires, ship board cables, metal tubes, and many others. Standard color is black but other colors available for special order.

- Operating Temp: -45°C + 125°C
- Min Shrink Temp.: 80°C
- UL File No. E236137
- Color: black

RAYCHEM Heat Shrinkable Tubing

RAYCHEM RNF-100

A premium grade flame-retardant polyolefin heat-shrinkable tubing. Outstanding all around performance. Excellent physical and electrical performance. Good chemical and solvent resistant flexability.

- Shrink Ratio: 2:1
- Operating Temperature Range: -55° to +135°C
- Minimum Shrink Temperature: +95°C
- Minimum Full Recovery Temperature: +121°C
- Color: Black

RAYCHEM Heat Shrinkable Tubing, Splices, and Sleeves

Tyco Electronics
Authorized Distributor

RAYCHEM DUAL WALL /4 CLASS 2

Adhesive-lined, flexible, polyolefin tubing.

Seals and protects simple in-line splices, bimetallic joints, and components from fluids, moisture, and corrosion. Repairs damaged wire insulation, especially where flexibility is required. Provides one-step electrical insulation and moisture sealing.

Specifications:
- Shrink ratio: 2:1
- Operating temperature range: -55° to +135°C
- Minimum shrink temperature: +95°C
- Minimum full recovery temperature: +121°C
- Color: Black

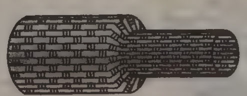
RAYCHEM HEAT SHRINKABLE FABRIC

HFT5000 products are made of very flexible heat-shrinkable fabric material. Heated above 110°C, they shrink to fit snugly and securely around the underlying substrate. Designed primarily to provide mechanical abrasion protection for components such as rubber hoses, plastic pipes, and harness wiring bundles, they are also suitable for other applications, such as noise and rattle suppression.

Specifications:
- Shrink ratio: 2:1
- Warp material: Polyester
- Weft material: Irradiated, modified polyolefin
- Coating: Modified polyolefin
- Color: Black



Features:
- Highly flexible woven fabric tubing
- Polyethylene/polyester construction for excellent abrasion resistance
- Low shrink temperature

RAYCHEM DURASEAL WIRE SPLICES

DuraSeal devices provide a tough, environmentally sealed wire connection. Their crimp barrel or terminal, encased in rugged, heat shrinkable nylon tubing lined with a special hot-melt adhesive, resists damage from abrasions and cuts.

Features:
- Resistance to moisture and abrasion
- Strain relief
- Protection from wire pull-out
- Easy installation

1pc. Crimp Splice with Tubing

RAYCHEM SOLDER SLEEVES

Raychem's SolderSleeve heat-shrinkable wire and cable interconnection devices are a labor-saving alternative to conventional wire and cable termination methods such as craft-sensitive, time-consuming hand soldering or crimping.

Features:
- Controlled soldering with high level of sealing
- Strain relief
- Insulation
- Easy one step installation
- Application from 125°C to 260°C
- NAS, MIL-SPEC, and UL approvals

150C Mil-Spec 83519 Qualified

3M FP-301 FLEXIBLE POLYOLEFIN SHRINKABLE TUBING

- Shrink ratio: 2:1
- Shrink temperature: 100°C min.
- Temperature range: -55°C to +135°C
- Meets MIL-DTL-23053/5 Class 1&2
- Longitudinal shrinkage: <5%
- High resistance to solvents, acids, and alkalis
- Cross-linked polyolefin

3M COLD SHRINK™ CONNECTOR INSULATOR TUBES

The 8420 Series cold shrink connector insulators are open-ended, tubular, rubber sleeves that are factory expanded and assembled onto a removable core. After the tube has been positioned for installation over an inline connection, coupling or termination, the core is removed allowing the tube to shrink and form a water-resistant seal.

Features:
- Simple installation, no tools required
- No torches or heat required
- Good thermal stability
- EPDM Rubber
- Water-resistant
- Resists fungus, acids, ozone & alkalies
- Seals tight with no tape/mastic required
- Improved, tougher rubber formulation to withstand backfilling.

3M VFP-876 VERY FLEXIBLE SHRINKABLE TUBING

Ideal for shrink-fit jacketing and insulation of flexible wire bundles and sensitive components.

- Shrink ratio: 2:1
- Shrink temperature: 121°C min.
- Temperature range: -55°C to +135°C
- Longitudinal shrinkage: <5%
- Reels available upon request with a typical 1-2 week lead time.

Available in Black Only

6" Lengths

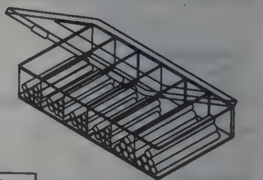
3M EPS-300 ADHESIVE LINED POLYOLEFLIN HEAT-SHRINK TUBING KIT

Flexible bond with a wide variety of rubbers, plastics and metals. EPS-300 offers superb environmental protection for electronic components, wire splices, wire bundles, and harness breakouts. The tubing is made from flame-retardant, flexible polyolefin with an internal layer of special thermoplastic adhesive.



- Shrink ratio: 3:1
- Shrink temperature: 121°C min.
- Operating temperature: -55°C to +110°C
- Longitudinal shrinkage: <15%

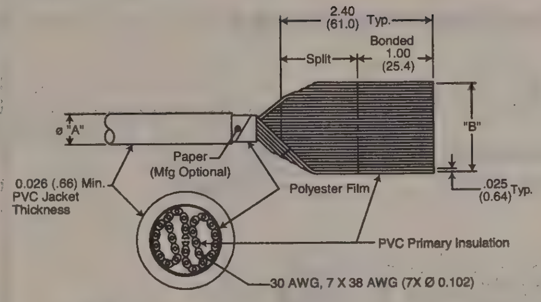
3M™ IDC Flat Cable

RoHS Compliant This page of product is compliant.

3896 SERIES .025" ROUND, JACKETED, FLAT CABLE

Specifications:

- 30 AWG
- Mass termination
- Primary material: Polyvinyl Chloride (PVC)
- Jacket material: Polyvinyl Chloride (PVC)
- RoHS Compliant per 3M documentation
- Flammability rating: USA - VW-1 Canada - FT1
- Temperature rating: -20°C to +105°C
- **Recommended use with 3M 0.050" x 0.100" Tripolarized, Wiremount Socket (82XXX-600X), .050" Mini D Ribbon (MDR) Wiremount Plug (101XX-8X00EE) and PAK 50 IDC Sockets (P25E-XXXS-XXX)**



RoHS Compliant

For quantities of 5 and up, call for quote.

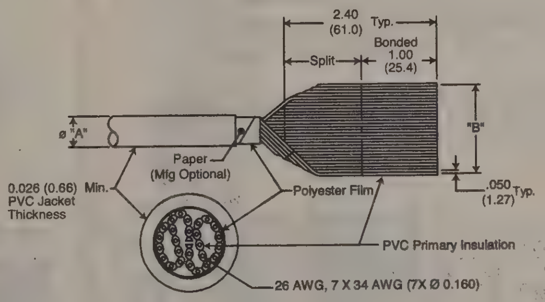
3758 SERIES .050" ROUND, JACKETED, FLAT CABLE

Specifications:

- 26 AWG
- Mass termination
- Primary material: Polyvinyl Chloride (PVC)
- Jacket material: Polyvinyl Chloride (PVC)
- RoHS Compliant per 3M documentation
- Flammability rating: USA - N.E.C. 725, CL2 Canada - FT1
- Temperature rating: USA - CL2, 75°C or AWM; -20°C to +80°C Canada - 80°C
- **Suitable for mass-termination to 3M .100" x .100" IDC Connectors**



RoHS Compliant

For quantities of 5 and up, call for quote.

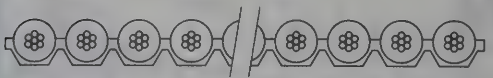
3M™ IDC Flat Cable

.050" ROUND CONDUCTOR FLAT CABLE

Specifications:

- 28 AWG Stranded
- Splice Free
- Mass Termination
- Insulation material: Polyvinyl Chloride (PVC)
- Color: Gray
- RoHS compliant per 3M documentation
- Conductors: Tinned stranded copper
- Voltage rating: 300V
- Temperature rating: -20°C to +105°C
- Flammability rating: USA: VW-1
- Red marking on one edge of cable designates wire #1



RoHS Compliant

.050" ROUND CONDUCTOR FLAT CABLE

Specifications:

- 26 AWG Stranded
- Insulation material: Polyvinyl Chloride (PVC)
- Color: Gray
- Conductors: Tinned stranded copper
- Voltage rating: 300V
- Temperature rating: -20°C to +105°C
- Flammability rating: USA: VW-1

3801 Series

For quantities of 5 and up, call for quote.

.050" HIGH FLEX LIFE CABLE

Specifications:

- 28 AWG Stranded
- Flex life of 100 million cycles at 1 3/4 inch dia.
- Insulation material: Polyvinyl Chloride (PVC)
- Insulation color: Black
- Conductors: Silver plated stranded copper alloy
- Voltage rating: 300V
- Temperature rating: -20°C to +105°C
- Flammability rating: USA: VW-1

3319 Series

IDC Flat Cable and Data Cable

3M 3756 SERIES .025" ROUND CONDUCTOR FLAT CABLE

Specifications:
- 30 AWG
- Mass Termination
- Meets the SCSI-3 characteristic impedance requirements
- Insulation material: Thermoplastic Elastomer (TPE)
- Color: Gray
- Conductors: Tinned Stranded copper
- Voltage rating: 150V

For quantities of 5 and up, call for quote.

3M 3754 SERIES .025" ROUND CONDUCTOR FLAT CABLE

Specifications:
- RoHS compliant per 3M documentation
- 30 AWG Stranded
- Mass Termination
- Insulation material: Polyvinyl Chloride (PVC)
- Color: Gray
- Conductors: Tinnned stranded copper
- Voltage rating: 30V
- Temperature rating: -20°C to +105°C
- Flammability rating: USA: VW-1
- Recommended for use with Pak 25 Sockets

RoHS Compliant

For quantities of 5 and up, call for quote.

KOBICONN FLAT MODULAR TELEPHONE AND DATA CABLE

This modular telephone cable is available in 4, 6, and 8 conductor in three colors: silver satin, black and white. It is sold in 1000' spools.

RoHS Compliant

Features:
- Available in black, white, or silver satin
- Tinned copper conductors prevent corrosion
- Compatible with all USOC modular plugs
- RoHS Compliant per Kobiconn documentation

Specifications:
- 26 AWG, 7 x 34 stranding
- Conductors are USOC color coded
- PVC jacket

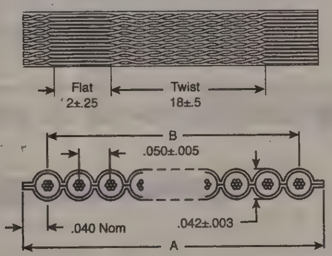
TWIST'N'FLAT .050" CENTERS COLOR CODED FLAT CABLE

Features:

- Provides rapid mass termination of twisted pair cable.
- 28 AWG, 7/36 strand tinned copper
- Fully laminated with clear PVC
- Voltage rating: 300V
- Temperature rating: 176°F (80°C)
- Terminates to standard IDC connectors
- Color coded for easy identification



For quantities of 10 and up, call for quote.

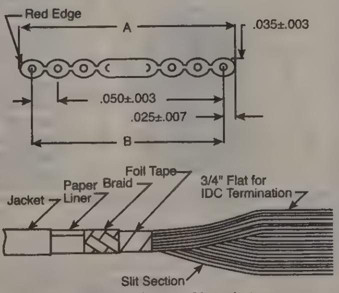
ROUND'N'FLAT .050" CENTERS ZIP CABLE

Features:

- Combines the benefits of shielded round cable and the quickness of mass termination.
- Designed for routing in tight spaces
- 28 AWG, 7/36 strand tinned copper
- Black PVC jacket with indicators for cable flats
- Highly flexible cable with flats every 20"
- Internal cable is gray with a red edge.
- Temperature rating: 221°F (105°C)
- Voltage rating: 300V



3/4" length for up to 26 conductors
1 1/2" length for 34 conductors and higher

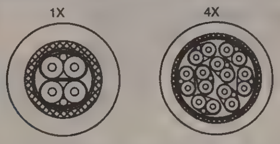
SKEWCLEAR PLUS 1X & 4X INFINIBAND CABLE

SKEWCLEAR Plus family targets copper InfiniBand links running at 500 MB through 6GB bandwidths.

Features:

- Shielded differential cable
- Low skew and crosstalk
- Alternative to fiber optics
- Minimum termination reflections
- Low assembly cost

NEW FROM SUPPLIER



For quantities of 2000 and up, call for quote.

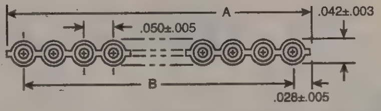
SLIT 3C COLOR CODED .050" CENTERS FLAT CABLE

Features:

- Fast low cost mass termination cable
- 28 AWG, 7/36 strand tinned copper
- Color coded for easy identification
- Terminates to standard IDC connectors
- Current rating: 1A
- Voltage rating: 300V
- Temperature rating: 176°F (80°C)



For quantities of 10 and up, call for quote.

ROUND TWIST'N'FLAT LOOSE PAIR .050" FLAT CABLE

Features:

- Combines the benefits of shielded round cable and the quickness of mass termination.
- Designed for routing in tight spaces
- Internal cable has loose color coded twisted pairs
- Black PVC jacket with indicators for cable flats
- Highly flexible cable with flats every 20"
- 28 AWG, 7/36 strand tinned copper
- Temperature rating: 221°F (105°C)
- Voltage rating: 300V

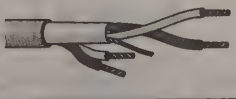
AUDIO VIDEO MULTICONDUCTOR CABLE



Recommend Heat Shrink FIT321
Recommend Heat Shrink FIT221

Specifications:

- UL Type CM, CSA CMG FT4
- Conductor: Stranded Tinned Copper
- Insulation: Color Coded PVC (2465C), Polypropylene (2464C)
- Jacket: Gray PVC
- Voltage Rating: 300V
- Black and Red Shielded
- White and Green Unshielded

SERIES V- HIGH PERFORMANCE SMALL DIAMETER VARIABLE FREQUENCY DRIVE (VFD) CABLE

The Alpha Wire Industrial Series-Series V Enhanced Design Variable Frequency Drive (VFD) Cables are acceptable for use with Allen-Bradley®ArmorStart Distributed Motor Controller Series with integrated variable frequency AC drives manufactured by Rockwell Automation.

Characteristics:
- Operating Temperature: -25°C to 90°C (UL: wet or dry)
- Voltage Rating: UL Listed Type TC 600V
- Jacket Color: Black

Specifications:
- UL Sunlight Resistant
- UL Direct Burial

Applications:
- Multi-Axis Control Systems
- Automotive Assembly Equipment
- Factory Equipment Interconnects
- Robotics
- Machine Tools
- Control Panels

Recommend Heat Shrink FIT321V

ALPHA WIRE XTRA-GUARD® 1 Multiconductor & Multi-Pair Cable

Features:
- Unsurpassed flame and moisture resistance
- Fast, easy stripping of insulation and jacket
- Flexible cable routing requirements

Specifications:
- UL Type CM, AWM style 2464
- CSA PCC FT4
- Passes UL VW-1 flame test
- Passes CSA FT4 flame test

Characteristics:
- Operating Temperature: -20°C to 80°C - AWM -20°C to 75°C - CM
- Voltage Rating: 300V
- Conductor: Stranded Tinned Copper
- Insulation: Color-Coded Premium PVC
- Nylon rip cord for ease of jacket stripping
- Jacket: Premium PVC for extended cable life
- Jacket Color: Gray

Applications:
- High technology applications in controlled environments
- Medical electronics
- Point-of-sale equipment
- Industrial process controls
- EIA RS232C interface

MULTICONDUCTOR, UNSHIELDED

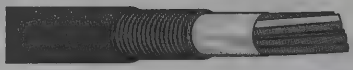
ALPHA WIRE XTRA-GUARD® Flexible Data Cables

XTRA-GUARD® FLEXIBLE CABLE

Multiconductor Shielded



Specifications:
- Operating Temperature: 5°C to 105°C
- Voltage Rating: 300V
- Jacket: Gray Oil Resistant PVC
- Insulation Thickness: .010"
- Extreme flexibility in small spaces
- Continual flexing in cable tracks

Applications:
- Industrial Electronic Processing Equipment
- DataComm Connections
- Connecting Sensors and Actuators to Controllers
- Sensor and I/O Interconnects

XTRA-GUARD® 2 MULTICONDUCTOR, SHIELDED

Specifications:
- Operating Temperature: -20°C to +90°C
- Voltage Rating: 300V
- Jacket: Specially formulated Polyurethane
- Insulation Thickness: .017"
- Unmatched resistance to Oils, Fuels, Solvents, and Water
- Twice the tensile strength of PVC
- Three times the tear and abrasion resistance of PVC
- Extraordinary fungus resistance
- Stranded Tinned Copper

Applications:
- Automotive Assembly Plant Operations
- CNC Machine Centers
- Military Ground Support Systems
- Packing Machinery
- Petrochemical Plant Operations
- Geophysical Exploration Equipment

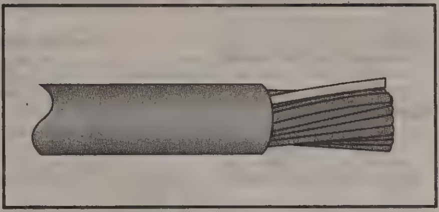
ALPHA WIRE XTRA-GUARD® Flexible Control Cable

MULTICONDUCTOR, UNSHIELDED STANDARD-FLEX CONTROL CABLE



Features:
- Outstanding Oil and Chemical Resistance
- Ease of Installation
- Not for use in High-Flex Applications

Characteristics:
- Operating Temperature: -5°C to 90°C
- Voltage Ratings: 600V
- Conductor: Finely Stranded Bare Copper
- Insulation: Lubricated PVC
- Jacket: Oil Resistant PVC

Specifications:
- UL AWM Style 2587
- Jacket Meets VDE 0472, Section 803 Oil Test
- Bend Radius: 5X Cable Diameter

Applications:
- Increased Flexibility
- Machine Tools
- CNC Machine Centers
- Data Processing Equipment
- Automation Equipment
- Material Handling Equipment

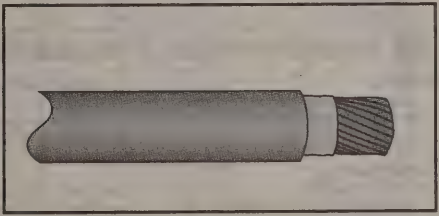
MULTICONDUCTOR, UNSHIELDED HIGH-FLEX CONTROL CABLE



Features:
- Outstanding Oil and Chemical Resistance
- Extra Flexibility and Durability for Continuous Motion
- Extended Flex Life

Characteristics:
- Operating Temperature: -5°C to 90°C
- Voltage Ratings: 600V
- Conductor: Super Finely Stranded Bare Copper
- Insulation: Lubricated PVC
- Jacket: Oil Resistant PVC

Specifications:
- UL AWM Style 2587
- Jacket Meets VDE 0472, Section 803 Oil Test
- Passes MIL-C 13777G Flexlife Test
- Bend Radius: 8X Cable Diameter

Applications:
- Robotics
- Assembly
- Installation in Cable Track
- Data Processing Equipment
- Automation Equipment
- Material Handling Equipment

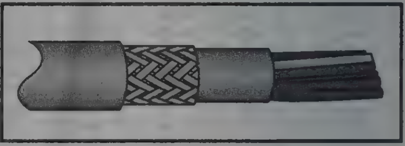
MULTICONDUCTOR, SHIELDED STANDARD-FLEX CONTROL CABLE



Features:
- Outstanding Oil and Chemical Resistance
- Ease of Installation
- Not for use in High-Flex Applications

Specifications:
- UL AWM Style 2587
- Jacket Meets VDE 0472, Section 803 Oil Test
- Bend Radius: 8X Cable Diameter

Characteristics:
- Operating Temperature: -5°C to 90°C
- Voltage Ratings: 600V
- Conductor: Finely Stranded Bare Copper
- Insulation: Lubricated PVC
- Outer Jacket: Oil Resistant PVC

Applications:
- Increased Flexibility
- Machine Tools
- Data Processing Equipment
- Automation Equipment

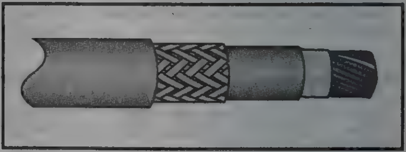
MULTICONDUCTOR , SHIELDED HIGH-FLEX CONTROL CABLE



Features:
- Outstanding Oil and Chemical Resistance
- Extra Flexibility and Durability for Continuous Motion

Characteristics:
- Operating Temperature: -5°C to 90°C
- Voltage Ratings: 600V
- Conductor: Super Finely Stranded Bare Copper
- Insulation: Lubricated PVC
- Outer Jacket: Oil Resistant PVC

Specifications:
- UL AWM Style 2587
- Jacket Meets VDE 0472, Section 803 Oil Test
- Passes MIL-C 13777G Flexlife Test
- Bend Radius: 10X Cable Diameter

Applications:
- Data Processing Equipment
- Automation Equipment

Kynar® Insulation for Wire Wrap (UL 1422, UL1423)

Wire wrapping is an automatic or semi-automatic termination method generally used in large scale wiring of computer backpanels. It involves the helical wrapping of a solid conductor around a rectangular post under controlled tension. Alpha Kynar® wire wrap is manufactured with Silver-Plated OFHC (Oxygen-Free High Conductivity) conductor.

HOOK-UP WIRE KITS

Hook-Up Wire Kits contain an assortment of 100' spools suitable for military or UL/CSA applications. Each kit contains five spools of stranded hook-up wire in a unique, rack-mounted, transparent dispensing tube. The tube and rack system keeps hook-up wire neat, clean, and conveniently at hand.

Features:

- Operating Temperature: -40°C to 105°C
- Voltage Rating: 300V
- Includes cut and strip tool
- Five assorted hook-up wire colors: White, Black, Red, Green, and Blue

BELDEN INFINITY® CABLES

Recommend Heat Shrink FIT600

Belden Infinity® Cables are a complete line specifically designed to handle the rigorous speeds and near constant motion encountered in automated equipment such as robots, pick-and-place machines, automatic handling systems, multi-axis machine tools, and conveyor systems.

- Reduced Cable Memory
- Greater Flex Life
- Greater System Uptime
- No Talc Problems

***All parts Non-Shielded except for part 7436AS which is 85% Braid Shielded**

BELDEN Fiber Optic Products

OPTIMAX FIELD INSTALLABLE CONNECTORS

The Optimax Connectors are reliable field installable optical fiber connectors that are easy to install. They do not require epoxy, curing or polishing. Their unique design incorporates a factory polished fiber stub in a splice mechanism which provides a fast, secure, and reliable termination on optical fiber cables. All critical steps are performed in the factory, ensuring a superior-quality connection every time. These connectors are high-quality LC, SC and ST compatible connectors that use a ceramic ferrule with a physical contact (PC) polish for Multimode and super physical contact (SPC) polish for Singlemode that ensures the best possible mating of optical fibers.

ST=Straight Tip (Twist), SC= Standard Connector (Snap), LC= Local Connector (Snap)

OPTIMAX TOOL KIT

This kit it packaged in a small convenient carrying case and is LC/SC/ST Compatible. It includes installation tools, fiber cleaver, crimping tool, instruction manual, microscope, tweezers, alcohol wipes, marker, scissors, waste bottle, fiber stripper, cable stripper and Training Video. This kit is made to terminate 900 mm buffered optical fiber and jacketed optical fiber.

INTERCONNECT SERIES FIBER OPTIC CABLES

Interconnect Cables are designed for low fiber-count premises environments. They are small and very flexible, making them ideal for confined spaces Their aesthetic appearance makes these cables suitable for use in open office environments.

Features & Benefits:

- Length markings to facilitate installation
- Meets OFNR/FT4 riser and OFNP/FT6 rating requirements
- One sub-unit is marked to permit easy identification of transmit and receive fibers

Applications:

- Patch panels
- Workstation equipment connectors
- Horizontal distribution in open office environments

Belden Part No.	Number of Fibers	Outside Diameter: in. (mm)	Description	1000' Spool Mouser Stock No.	Price Per 1000' Spool	
					1	2
M96915	2	0.11 x 0.23 (2.9 x 5.9)	62.5 / 125 mm Std. / 1 Gbe	566-M96915-1000	250.23	229.84
M9C002	2	0.11 x 0.23 (2.9 x 5.9)	50 / 125 mm 10 Gbe - 300M	566-M9C002-1000	347.75	319.41

3M™ Molded Flat Ribbon Cable Assemblies

2MM MOLDED FLAT RIBBON CABLE ASSEMBLIES

Features:
- Rugged termination
- Sockets mate with standard 2mm x 2mm headers and plugs
- Molded-in strain relief
- Low profile sockets with military polarization slots
- 28 AWG stranded, PVC flat cable
- No center bump
- No marking

Specifications:
- Voltage rating: 30V
- Temperature rating: -20°C to +105°C
- Connector orientation: Up-Up

For quantities of 10 and up, call for quote.

.100" MOLDED FLAT RIBBON CABLE ASSEMBLIES

Features:
- Rugged termination
- Sockets mate with standard .100" x .100" headers and plugs
- Molded-in strain relief
- Low profile sockets with military polarization slots
- 28 AWG stranded, PVC flat cable
- No center bump
- No marking

Specifications:
- Voltage rating: 30V
- Temperature rating: -20°C to +105°C
- Connector orientation: Up-Up

For quantities of 10 and up, call for quote.

AMP Cable Assemblies

RoHS Compliant **This page of product is compliant.**

USB CABLE ASSEMBLIES

Features:
- High density design
- Supports "Plug and Play" peripheral connectivity
- Designed for 480MB/s transfer rate
- RoHS compliant per Tyco Electronics documentation

Specifications:
- Applied Voltage Rating: 30VAC
- Mating Force: 1 oz.
- Durability: 1500 Cycles

File No. E81956

RoHS Compliant

For quantities of 50 and up, call for quote.

DVI CABLE ASSEMBLIES

Features:
- Designed to meet the Digital Display Working Group, Digital Visual Interface (DVI) specification
- Bridges the transition from analog to digital video display designs
- Supports digital and/or analog video functions
- RoHS compliant per Tyco Electronics documentation

Specifications:
- Applied Voltage Rating: 40VAC
- Mating Force: 10.0 lbs. Max.
- Durability: 100 Cycles

RoHS Compliant

For quantities of 50 and up, call for quote.

HDMI CABLE ASSEMBLIES

Features:
- Simple User Friendly Connector
- Replaces existing audio and digital cabling in one assembly
- Full shielding for ESD protection and lead-free process capable
- RoHS compliant per Tyco Electronics documentation

Specifications:
- Applied Voltage Rating: 40VAC
- Mating Force: 9.9 lbs. Max.
- Durability: 10,000 Cycles

RoHS Compliant

For quantities of 50 and up, call for quote.

UMCC – Ultraminiature Cable Assemblies & Connectors

Tyco Electronics
Authorized Distributor

RoHS Compliant **This page of product is compliant.**

UMCC CABLE ASSEMBLIES

Description:
- Extremely Low Profile
- Surface Mount Technology
- 360° mated rotation

Applications:
- Wireless LAN, Mini PCI
- Mobile Antenna/GPS/Radio Systems
- PDA / PCS / Cellular Handset Applications
- Wireless Communications Systems (LAN, GSM, PCS, WCDMA, UMTS)
- Remote Measuring Equipment

Specifications:
- Characteristic Impedance: 50Ω
- Frequency Range: DC to 6 GHz
- VSWR (mated pair): 1.30 max DC to 3 GHz
- 1.40 max 3 to 6 GHz (cable dependent)
- Durability: 30 cycles
- Operating Temperature: - 40°C to + 90°C

- RoHS Compliant per Tyco Electronics Documentation

Features:
- Ultra Low Profile (2.0mm or 2.5mm maximum mated height)
- Easy snap on/off mating
- Small footprint on PCB (3mm x 3mm)
- Excellent performance to 6 GHz
- Surface Mount and Reflow Solderable
- Available on 0.80mm and 1.37mm dia. single shield, and 1.32mm dia. double shield cable
- **Style A** Receptacles mates with HIROSE† U.FL/U.FL(v) Series Connectors
- **Style B** Receptacles mates with MURATA† GSC Series Connectors

† HIROSE is a trademark of Hirose Electric U.S.A. Hirose Electric U.S.A. is not affiliated with the UMCC product.

† MURATA is a trademark of Murata Manufacturing Company, Ltd. Murata Manufacturing Company, Ltd. is not affiliated with the UMCC product.

RoHS Compliant

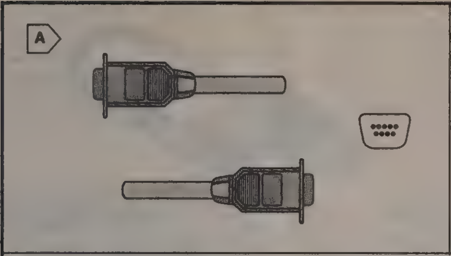
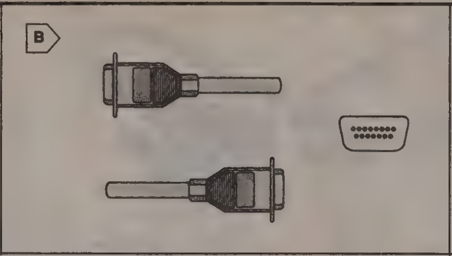
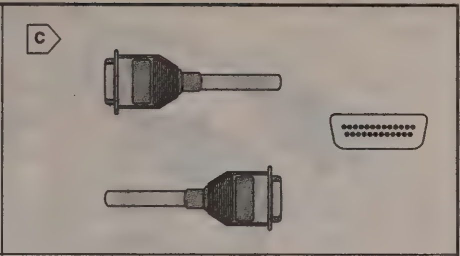
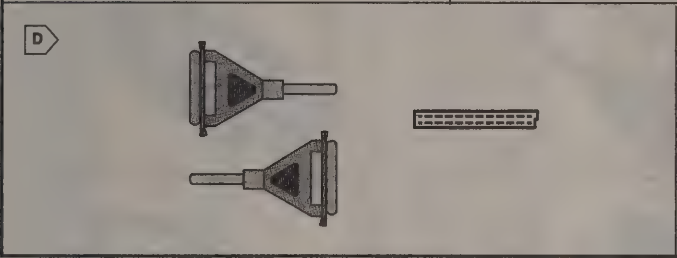
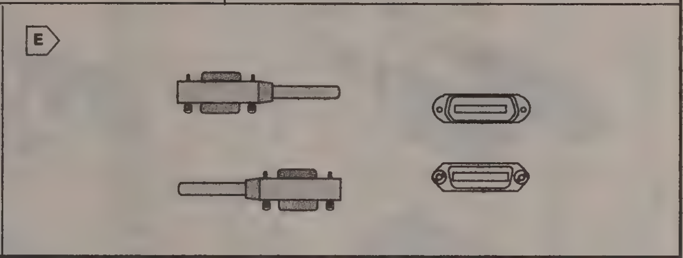
BELDEN Molded Cable Assemblies











SHIELDED D-SUBMINIATURE CABLE ASSEMBLIES

9-Position, Foil Shield

Designed for RS-449 applications.
Molded handles are 100% shielded to assist in FCC compliance and guard against EMI/RFI.
All connectors tin-plated and male connectors have detents for positive ground connection.
Wiring is point-to-point with the shield to connector shell.
Jack screw retention on both connectors.

- 300V 80°C, UL AWM Style 2464

15-Position, Foil Plus Braid Shield

Designed for RS-449 applications. Molded handles are 100% shielded to assist in FCC compliance and guard against EMI/RFI. All connectors tin-plated and male connectors have detents for positive ground connection. Wiring is point-to-point with the shield to connector shell. Jack screw retention on both connectors.

- 300V 80°C, UL AWM Style 2464

25-Position, Foil Shield

Designed for RS-232 applications. Molded handles are 100% shielded to guard against EMI/RFI where indicated. All connectors are tin-plated and male connectors have detents to allow for a positive shield to ground connection. Wiring is point-to-point with the shield to connector shell. Jack screw retention on both connectors.

- 300V 80°C, UL AWM Style 2464

SHIELDED D-SUBMINIATURE CABLE ASSEMBLIES (CONT.)

37-Position, Foil Shield

Designed for RS-449 applications where assembly is exposed to high noise environment.
Molded handles are 100% shielded to assist in FCC compliance and guard against EMI/RFI.
All connectors are tin-plated and male connectors have detents to allow for a positive shield to ground connection.
Wiring is point-to-point with shield to connector shell and pin#1.
Jack screw retention on both connectors.

- 300V 80°C, UL AWM Style 2464

SCSI-1 CABLE ASSEMBLIES

Molded handles are 100% shielded to guard against EMI/RFI and assists in FCC compliance.
These assemblies have tin-plated connectors and can be used in single-ended or differential configurations.
Wiring is per SCSI standard

- 26AWG (7 x 34) Stranded tinned copper conductor

HDMI CABLE ASSEMBLIES

Features:
- Jacket: Molded PVC
- Contacts: Gold plated
- Metal Hood: Gold plated
- DVI Thumbscrews: Black molded PVC #4-40

Specifications:
- Color: Black
- Cable Outside Diameter: 7.0mm
- AWG: 28
- Number of Contacts: 19
- Bandwidth: Up to 5 Gbps

Applications:
- LCD/Plasma Displays
- Set-Top Boxes
- DVD Players/Recorders
- Audio/Video Receivers
- High-Definition Monitors
- Entertainment PC

For quantities of 50 and up, call for quote.

MOLDED CABLES - CAT 5E AND CAT 6

Features:
- 24AWG Round UTP stranded
- Unshielded twisted pair cable
- Modular Plug Contacts: 50μ" gold plated
- ETL tested and verified to CAT 5E & CAT 6 standards
- Designed and tested to meet and exceed ANSI/TIA-568-B.2-1 CAT 6 industry standards
- Molded on low-profile snagless boots
- CAT 5E Cables (350MHz)
- CAT 6 Cables (500MHz)

* RoHS compliant per AIM/Cambridge documentation

For quantities of 50 and up, call for quote.

AIM/CAMBRIDGE BNC Cable Assemblies

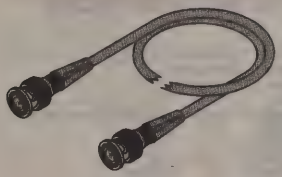
AIM CAMBRIDGE

EMERSON
Network Power
Connectivity Solutions

BNC THIN ETHERNET COAXIAL CABLES - RG-58

Features:

- Body plating: Nickel
- Center contact plating: Gold
- AWG: 20 stranded
- Cable color: Black PVC
- Equivalent to Belden 9907
- Cable constructed of 95% braid and 100% foil shield



For quantities of 50 and up, call for quote.

BNC AUDIO / VIDEO COAXIAL CABLES - RG-59

Features:

- Body plating: Nickel
- Center contact plating: Gold
- AWG: 22 stranded
- .Matching color boot and cable
- Cable constructed of 80% braid

For quantities of 50 and up, call for quote.

JOHNSON COMPONENTS RF Cable Assemblies

Johnson® EMERSON. Network Power Connectivity Solutions

FIXED LENGTH FLEXIBLE RF CABLE ASSEMBLIES

Connector Materials:

- SMA: Brass Body with Gold Plating, Captivated Contacts, PTFE Insulators
- SMB: Brass Body with Gold Plating, Captivated Contacts, PTFE Insulators
- MCX: Brass Body with Gold Plating, Captivated Contacts, PTFE Insulators
- Type N: Brass Body with Nickel plating, Teflon Insulators
- Electrical ratings of a cable assembly are determined by the limiting connector type and cable size.

Electrical Ratings

Connector	Cable	Dielectric Max Voltage	Working Voltage
SMA	Hand Formable .086	1000 Vrms	335 Vrms
	Hand Formable .141	1500 Vrms	500 Vrms
	RG-178	500 Vrms	170 Vrms

JOHNSON COMPONENTS RF Cable Assemblies

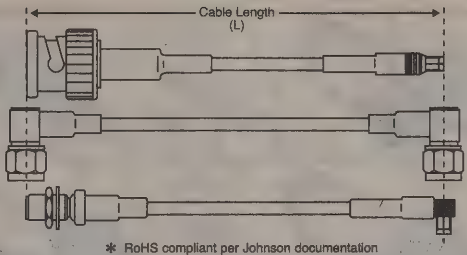
Johnson® EMERSON. Network Power Connectivity Solutions

FIXED LENGTH RF CABLE ASSEMBLIES

Connector Features:

- Body: Gold Plated Brass
- Contacts: Captivated
- Insulator: PTFE
- Electrical Ratings of a cable assembly are determined by the limiting connector type and cable size. (See Chart for Electrical Ratings)

Electrical Ratings			
Connector	Cable	Dielectric Voltage Max.	Working Voltage
SMA	RG-316	750 Vrms	250Vrms
	RG-316DS	750 Vrms	250Vrms
	RG-142	1000 Vrms	335 Vrms
MMCX	RG-178	500 Vrms	170 Vrms
	RG-316	500 Vrms	170 Vrms



∗ RoHS compliant per Johnson documentation

For quantities of 50 and up, call for quote.

FIXED LENGTH FLEXIBLE RF CABLE ASSEMBLIES

Applications
- Wireless LAN, Mini-PCI, and Hand-Held RF Devices
- GSM, GPRS & CDMA Mobile Phones
- PDA & Notebook Computer
- GPS
- Bluetooth
- Microwave radio and measurement

Specifications
- Impedance: 50Ω (Nominal)
- Temperature Range: -40°C to +90°C
- Frequency Rating: 0-6 GHz
- VSWR: 1.30 max
- Durability: 30 cycles

Features
- Ultra Low Connections
- R/A plug to R/A plug cable assemblies on .81mm, 1.13mm, 1.32mmand 1.37mmcables.
- UMC cables available in a variety of standard off-the-shelf lengths (from50mm to 500mm).
- Between-series cables available with standard & reverse polarity SMA plugs and Bulkhead jacks or MMCX plugs on one end of the cable and the UMC plug on the other end.
- In-series UMC adapters available to support testing requirements.
- All cabled plugs and jack receptacles are supplied with gold plated contacts and bodies.
- UMC connectors mate with Hirose U.FL series connectors.*
- RoHS compliant per Johnson documentation.

* Hirose and U.FL are trademarks fo Hirose Electric USA. Hirose Electric is not affiliated with UMC products.

RoHS Compliant

For quantities of 50 and up, call for quote.

50 OHM SHIELDED RF CABLE ASSEMBLIES

All cable assemblies feature a molded strain relief that combines the cable and the nickel plated brass connectors into a single unified assembly minimizing failure due to bending and flexing.

RoHS Compliant

Features:

- Low noise interference
- Weather resistant
- Excellent impedance characteristics
- Flexible
- Molded strain relief

Specifications:

- Cable type: RG 58C/U
- Impedance: 50Ω
- Insulation: polyethylene
- Shielding: tinned copper, 96% coverage

For quantities of 500 and up, call for quote.

75 OHM SHIELDED RF CABLE ASSEMBLIES

These 75Ω coaxial cables offer low noise connections due to their shielded construction. Cables are securely attached to plugs and most are supplied with strain reliefs.

- Impedance: 75Ω
- Tinned copper braid shield

For quantities of 500 and up, call for quote.

MOLDED EXTENSION CABLES

Features:

- Non-UL wire
- 28AWG PVC cover
- Color: beige
- Max Current: 500ma
- 4-40 holding screws
- Connector Housing: nickel plated steel
- Insulator PBT 30% glass
- Pins: brass, gold plated

For quantities of 500 and up, call for quote.

PHONO ADAPTERS

Specifications:

- Body material: PVC plastic
- Contact material: nickel plated brass
- Insulation resistance: 100MΩ min.
- Contact resistance: 30mΩ max.
- Breakdown voltage: 500VAC 1 min.
- Insulation material: ABS plastic

For quantities of 10 and up, call for quote.

D-SUB FLAT CABLE ASSEMBLIES

For all your custom flat cable needs call for a quote.

Material Specifications:

- Shell: Steel zinc plated
- Socket contact: Phosphor bronze, Gold plated over nickel 3 micro/inch
- Insulator: PBT and 30% glass fiber reinforced UL-94-VO
- All cables are 100% tested

Electrical Specifications:

- Current rating: 1A
- Dielectric strength: 1000V for 1 minute
- Insulator resistance: 1000MΩ min. @ 500VDC
- Temperature: -55°C to +105°C

USB AND USB ON-THE-GO (OTG) CABLE ASSEMBLIES

USB allows the hot-pluggable connection of I/O ports into a single interface with automatic configuration capabilities and increased bandwidth. Molex offers a wide range of products supporting USB, including USB Standard A, USB Standard B, extender assemblies, and for applications where space is a constraint, USB On-The-Go.

RoHS Compliant

Features:
- Meets tight packaging needs
- USB On-The-Go is about 1/8th the size of standard USB-B connectors
- Provides host identification between devices through 5-pin design
- Operates at speeds up to 480 Mbps

Applications:
- Cell phones
- Digital still cameras
- PDAs
- MP3 players
- Other portable and hand-held devices
- Desktop PCs
- Notebook PCs
- Scanners

For quantities of 250 and up, call for quote.

IEEE 1394 AND 1394B CABLE ASSEMBLIES

Known as "FireWire" by Apple and "i.Link" by Sony, this simple to use, peer-to-peer interconnect system can carry a dense multimedia data stream at a maximum speed of 400 Mbps. IEEE 1394 is unique in its ability to carry video and audio with assured quality, based on its high bandwidth capabilities.

RoHS Compliant

Features:
- Hot plugging capability - Ideal as consumer interface
- Keying mechanism - Eliminates mismating

Applications:
- Desktop/laptop computers
- DV camcorders
- External hard drives
- Set-top boxes
- DVD/audio components
- HDTV/DVCR

For quantities of 250 and up, call for quote.

HIGH DEFINITION MULTIMEDIA INTERFACE (HDMI) CABLES & ADAPTERS

The HDMI connector system is a small, user-friendly interconnect that can provide up to 5.0 Gbps of bandwidth to support video and multi-channel audio in a single cable. HDMI eliminates the cost, complexity and confusion of multiple cables used to connect current A/V systems.

Features:

- Gold plated connectors provide superior signal integrity
- High speed data transfer with bandwidth up to 5.0 Gbps
- Gas-injected dielectric for optimal signal performance
- Ergonomic grip and strain relief provide easy installation
- Fully shielded for superior EMI/RFI protection

Applications:

- Digital TVs
- Plasma displays
- Audio/video receivers
- LCD monitors
- DVD players/recorders
- D-VHS players
- High definition monitors
- Satellite boxes
- Set-top boxes

RoHS Compliant

For quantities of 50 and up, call for quote.

MICROCROSS™ DVI CABLES, ADAPTERS, AND M1 CABLES

MicroCross DVI cables and adapters provide a high-bandwidth digital video interface for the host and display devices of today, while addressing the bandwidth requirements of tomorrow. M1 cables from Molex easily connect two display devices to either a digital or analog DVI, VGA or DFP input, with increased video and data transmission flexibility.

Applications:

- Desktop Computers
- Multimedia equipment
- Set-top boxes
- Satellite boxes
- Flat panel displays
- High definition monitors

RoHS Compliant

For quantities of 50 and up, call for quote.

MICROCROSS™ DVI ADD2 CARDS

MicroCross DVI ADD2 cards are high-performance, small-size boards that ensure full hardware and software compatibility, supporting the full-range of digital display resolutions from VGA (Video Graphics Array) to UXGA (Ultra Extended Graphics Array). Molex's cards are approved by Intel for 915G chipset motherboards.

Applications:

- Graphics controllers
- Dual monitor applications
- Projectors
- Kiosk applications
- High-end PCs with vacant PCI Express (PCIe) slot

For quantities of 50 and up, call for quote.

MOLEX SERIAL ATTACHED SCSI (SAS) CABLE ASSEMBLIES

Molex SAS cable assemblies support the next generation of storage devices for enterprise storage markets offering increased scalability and flexibility at high-speed data rates. SAS delivers speeds ranging from 1.5 Gbps to 6.0 Gbps. This allows OEMs and integrators to provide systems with the interconnect granularity and bandwidth that eliminates the need to invest in new connectors for generations to come. Also, users do not have to test and qualify two different families of connectors because the mating interface is the same for both internal and external applications, saving additional costs.

Applications:

- HBAs (Host Bus Adapters)
- Servers
- Storage racks
- Switches / routers
- RAIDs (Redundant Array of Independent Disks)
- JBODs (Just a Bunch of Disks)

RoHS Compliant

For quantities of 10 and up, call for quote.

MOLEX SERIAL ATA CABLE ASSEMBLIES

Serial ATA cable assemblies offer high-quality data transfer at high speeds. Molex leads the connector industry with the largest growing family of Serial ATA interconnect solutions that support this platform, including latching versions. Serial ATA is compliant with SATA-IO specification for speeds up to 3.0 Gbps.

Applications:

Desktop Computing:
- Hard Disk Drive
- Motherboard
- Power Supply
- Adapters
- Controller Boards
- Data Protection
- Workstation

Emerging Trends:
- Set-Top Box
- Digital Audio
- Automotive - Navigation
- Brown Goods
- Optical Drives
- HDTV Home Theatre
- Games - 3d Video

Enterprise Computing:
- Mid Range Servers
- Network Storage
- RAID Storage
- Backplane
- Internet Service

Mobile Computing:
- Notebook PC
- Sub-Notebook PC
- Media PC
- Multimedia Peripherals

RoHS Compliant

For quantities of 25 and up, call for quote.

MOLEX SCSI AND VHDCI CABLE ASSEMBLIES

Molex's offering of SCSI (Small Computer Systems Interface) provides a wide range of cable assemblies featuring SCSI-3 connectors for data-transfer applications. The 68 circuit cables are designed for attaching disk drives and other devices internally or externally, supporting the interconnect needs that comply with SCSI-3 U320 specifications.

Molex's Ultra+ VHDCI (Very High Density Cable Interconnect) system is a leader among the next generation of high-density I/O interconnects. These 68 circuit cables are designed for high performance memory transfer applications supporting the latest SCSI style interfaces. They offer increased density compared to existing SCSI connector styles. They are also suited for other high density I/O needs.

Applications:

- Mainframes
- File servers
- Workstations
- RAID (Redundant Arrays of Inexpensive Disks)
- Tape and Disk Drives
- Applications requiring hi-speed memory transfers

RoHS Compliant

For quantities of 10 and up, call for quote.

USB CABLE ASSEMBLIES

Universal Serial Bus

Features:
- Transfer rates up to 480Mbps depending on USB version
- Connect an USB peripheral to an USB Hub or USB port on PC/MAC
- Compatible with USB specifications 1.0, 1.1, and 2.0
- Make plug and play connections for such devices as keyboards, mice, modems, printers, and other USB peripherals.
- Black

RoHS Compliant

For quantities of 50 and up, call for quote.

Fire Wire

Features:
- Supports Plug-n-Play operation
- Hot Pluggable
- Black

Applications:
- Video presentation and editing
- Desktop and commercial publishing
- Document imaging
- Home multimedia
- Personal computing

Designed For:
- Digital camcorders
- Scanners and printers
- Storage devices
- Other Firewire devices

For quantities of 50 and up, call for quote.

POWER SUPPLY CORDS

Both two and three conductors types are offered in 6', 7 1/2', 8', and 10' lengths with molded, low profile, crush resistant, NEMA 1-15P or 5-15P plugs. 18 AWG types are rated 125V, 1250 watts. 16 AWG type is rated 125V, 1625 watts. 14 AWG type is rated 125V, 1875 watts.

Specifications:
- Temperature: 60°C
- Rated:

AWG	18	16	14
Watts	1250	1625	1875

Features:
- Economical and efficient
- Mechanical performance meets OEM requirements and blade wear requirements
- Excellent resistance to abrasion

RoHS Compliant

Two and Three Conductor Types

For quantities of 1000 and up, call for quote.

SHIELDED, THREE CONDUCTOR POWER CORDS

Control the error-generating effects of ambient electrical interference.

- Low profile molded plug
- Color: black
- NEMA 5-15P Plug
- Drain wire terminated to ground pin of plug
- High stranding for extended flexibility
- 100% foil shield

† Designed for use with the Cincon TR45 and TR70 Series table top power supplies.

RoHS Compliant

For quantities of 1000 and up, call for quote.

NEMA 5-15R, Screw Mount AC Power Inlets

Features:
- Mates to standard CEE-22 cord set
- Receptacles: approved for use in Europe
- Mates with detachable power cord sets 173-63101-E, 173-63102-E, 173-63121-E
- Mates to Belden 17250, 17251 power cords
- 16PJ522 fused receptacle accepts up to 6 amp midget fuse (5 x 20mm)

For quantities of 500 and up, call for quote.

AC POWER OUTLETS IEC 320-C13

Female power outlets available in screw or snap-in mounting.

Features:
- Max Rating: UL & CSA 15A/250VAC - VDE 10A/250VAC
- ✻ Universal snap-in feature to fit 0.8mm; 2.0mm panel thickness
- ✻✻ Panel thickness: 1.5mm (1.0, 2.0, 2.5, & 3.0 are also available)

RoHS Compliant

For quantities of 100 and up, call for quote.

DUAL FUSE IEC INLETS

EN 133200
IEC60939

Specifications:

- Up to 6A current ratings
- IEC 950-compliant
- One or two fuses (5 x 20mm)
- Lightweight construction
- General-purpose application
- Optional medical version (B type)

For quantities greater than listed, call for quote.

FUSED INLETS

EN 133200
IEC60939

Specifications:

- Up to 6A current ratings
- IEC 950-compliant (twin fuse configurations only)
- One or two fuses (5 x 20 or 6.3 x 32mm)
- Easy-access fuse compartment
- Voltage selector
- Snap-in or screw-mount versions
- General-purpose application

For quantities greater than listed, call for quote.

SCHURTER AC Inlets and Outlets

SCHURTER GSP1 / GSP2 SERIES: IEC320 AC INLETS FOR PCB MOUNTING

- For "cold" connections 70° C.
- Class I level of protection (with ground terminal); IEC320/C14
- Ground terminal is solder/quick connect .187", 90° to connector axis.
- Housing material: Black thermoplastic UL 94V-O
- Rating: UL/CSA - 15A/250V; VDE 10A/250V
- 2 screws included with GSP2. Screws for GSP1 not included.

For quantities of 200 and up, call for quote.

SCHURTER 4300 SERIES: LOW CURRENT AC INLETS

- For "cold" connections 70° C.
- Rating: UL/CSA/VDE - 2.5A/250V
- Housing material: Black thermoplastic, PBT
- Class I level of protection (with ground terminal) is IEC320/C6 3-pin
- Class II level of protection (without ground terminal) is IEC320/C8 2-pin

RoHS Compliant

For quantities of 200 and up, call for quote.

SCHURTER 6600/4721 SERIES: AC OUTLETS FOR PANEL MOUNTING

Shuttered outlets have mechanical covers over the L and N contacts which slide aside like a camera shutter when a plug is inserted and then spring back when the plug is removed. This offers protections against ingress of dust and against electrical shock.

- Class I level of protection (with ground terminal); IEC320/F
- Ratings: 6600 - UL/CSA 15A/250V, VDE 10A/250V
  4721 - UL/CSA/VDE 10A/250V
- For "cold" connections 70° C.
- Housing materials: 6600 - Thermoplastic, Polyamid 6.6
  4721 - Modified PPO UL94V-O

RoHS Compliant

For quantities of 200 and up, call for quote.

SCHURTER HIGH CURRENT CORD CONNECTORS

These new power cord connectors are rated for use with cordage up to 16/21A. Two types, 4789 and 4790 (plug or connector), are angled for closer placement of the equipment to the wall, consuming less space and minimizing the potential for tangling or tripping.

Specifications:

- Ratings IEC: 16A / 250VAC; 50Hz
- Ratings UL/CSA: 21A / 250VAC; 60Hz
- Dielectric Strength: 2kVAC between L-N and L/N-PE
- Operation Temp: -25°C to 70°C

Features:

- Screw Terminals
- Rewireable plug/connector
- Housing material: Thermoplastic, Black UL 94V-0

For quantities of 200 and up, call for quote.

SCHURTER 4797 SERIES: HIGH CURRENT APPLIANCE OUTLETS

Specifications:

- Designed to IEC 60320 type "C20"
- Rated 16A VDE, 20A UL, 250 VAC
- Protection Class I (with ground). For pin temperatures to 70°C
- Screw-On or Snap-In mounting types; either quick connect or solder terminals
- Snap-In versions for other panel thickness available

RoHS Compliant

For quantities of 500 and up, call for quote.

SCHURTER 5110 SERIES: AC INLETS WITH STANDARD RFI LINE FILTER

Specifications:

- For "cold" connections 70° C.
- Class I level of protection (with ground terminal); IEC320/C14
- Terminals: .250" quick connect
- Designed to replace discrete filters that require wiring between the filter and panel inlet.
- Medical units qualify for use in equipment with safety requirements according to IEC 601-1
- Ratings: c-UL-us - 1A-15A/250V; VDE - 1A-10A/250V
- Max. leakage current: Standard - <0.5mA; Medical - <5μA

For quantities of 100 and up, call for quote.

SCHURTER DF11 SERIES POWER ENTRY MODULES

Specifications:

- Two functions: Inlet protection class I, fuseholder circuit breaker type TA45 2-pole
- Qualified for use in equipment according IEC/EN 60950
- Rating: IEC 10A @ 250VAC, 60Hz; UL/CSA 1-15A @ 250VAC, 60Hz
- Housing material: Thermoplastic, black, UL 94V-0
- Panel mount
- Quick connect terminals 6.3 x 0.8 mm
- Thermal overload protection

RoHS Compliant

* Embossed Legend

For quantities of 200 and up, call for quote.

SCHURTER 6200/6220 SERIES: AC INLETS WITH FUSEHOLDER

Specifications:
- For "cold" connections 70°C
- Class I level of protection (with ground terminal); IEC320/C14
- Rating: UL/CSA/VDE - 10A/250V
- 6200 fusedrawers meet requirements of tool only accessibility of medical standards IEC 601-1

Casing and fusedrawer combined, 5x20mm fuses sold separately.

RoHS Compliant

For quantities of 200 and up, call for quote.

SCHURTER KM SERIES: AC INLETS WITH SWITCH AND FUSEHOLDER

Specifications:
- For "cold" connections 65°C
- Class I level of protection (with ground terminal); IEC320/C14
- Rating: UL/CSA/VDE - 10A/250V
- Medical fusedrawers meet requirements of tool only accessibility of medical standards IEC 601-1

* RoHS Compliant

Fusedrawers and casings must be ordered separately, 5X20mm fuses sold separately * RoHS Compliant

For quantities of 200 and up, call for quote.

SCHURTER DC11/DC12 POWER ENTRY MODULES FOR HIGH CURRENT

Specifications:
- Rated Voltage: DC11 - 2500VAC; DC12 - 125/250VAC
- Appliance inlet according to IEC/EN 60320-1/C14
- Degree of Protection: IP40
- Terminals: DC11 - .187"QC; DC12 - .250"QC
- Switch Rating: 16A/250VAC - 10,000 switch operations; 10A/250VAC - 50,000 switch operations

Features:
- All single elements are already wired
- Qualified for use in equipment according to IEC/EN 60950
- Models with line filter have EMC shield

For quantities of 100 and up, call for quote.

SCHURTER DC21/DC22 SERIES: PCB MOUNT, COMPACT POWER ENTRY MODULES

Specifications:
- Screw-on rear side panel mount
- Non-illuminated 2-pole switch
- Inrush current: 100A 3-4ms, 5 A continuous
- Switch and inlet pre-wired for 3-pin (L, N, & E) installation
- Qualified for use in equipment according to IEC/EN 60950
- Switch UL1054 rating: 20A @ 125VAC
- DC22 also available with medical version filter

For quantities of 100 and up, call for quote.

SCHURTER KFB SERIES: AC INLET WITH RFI LINE FILTER AND LINE SWITCH

Specifications:
- For "cold" connections 70° C.
- Terminals: .250" quick connect
- Screw mount from front or rear
- Medical units qualify for use in equipment with safety requirements according to IEC 601-1
- Class I level of protection (with ground terminal); IEC320/C14
- Max. leakage current: Standard - <0.5mA; Medical - <5μA

For quantities of 100 and up, call for quote.

SCHURTER KMF SERIES: AC INLETS WITH RFI LINE FILTER, SWITCH EMC SHIELD, AND FUSEHOLDER

Specifications:

- For "cold" connections 70° C.
- Class I level of protection (with ground terminal); IEC320/C14
- Terminals: .187" quick connect
- DPST switch (On-Off)
- Snap-in mounting from front
- Medical units qualify for use in equipment with safety requirements according to IEC 601-1
- **5X20mm fuses sold separately**
- **Fusedrawers and casings must be ordered separately**

For quantities of 100 and up, call for quote.

SCHURTER GRF4 SERIES: AC INLETS WITH RFI LINE FILTER AND EMI SHIELD

Specifications:

- For "cold" connections 70° C.
- Class I level of protection (with ground terminal); IEC320/C14
- Terminals: .187" quick connect
- Max. leakage current: Standard - <0.5mA; Medical - <5μA
- Metal shield safeguards equipment against radiated EMI.
- Snap-in design allows pre-wiring before mounting
- Flexible steel claws make multiple contact points on the panel to ensure shield integrity
- Medical units qualify for use in equipment with safety requirements according to IEC 601-1

For quantities of 100 and up, call for quote.

GENERAL PURPOSE COMMON MODE FILTERS

Designed to economically suppress line-to-ground interference and built to meet or exceed most international safety agency standards and requirements.

Specifications:

- Maximum leakage current each line-to-ground @ 115VAC 60Hz: .25mA; @ 250VAC 50Hz: .45mA
- Rated voltage: 115/250/VAC
- Hipot rating (one minute) line-to-ground: 2250VDC; line-to-line: 1450VDC
- Operating frequency: 50-60Hz

RoHS Compliant

Use Circuit Diagram GG

For quantities of 100 and up, call for quote.

MEDICAL FILTERS

Provide effective EMI suppression on line-to-ground (common mode) and low frequency line-to-line (differential mode) noise while saving space and reducing cost.

Specifications:

- Maximum leakage current each line-to-ground @ 115VAC 60Hz: .2mA; @ 250VAC 50Hz: .4mA
- Rated voltage: 115/250/VAC
- Hipot rating (one minute) line-to-ground: 2250VDC; line-to-line: 1450VDC
- Operating frequency: 50-60Hz

RoHS Compliant

Use Circuit Diagram HH

For quantities of 100 and up, call for quote.

GENERAL PURPOSE FUSED IEC CONNECTOR FILTERS

Designed for one 5mm x 20mm fuse and a spare fuse with a safety interlock that prevents fuse removal with power cord inserted.

Specifications:

- Maximum leakage current each line-to-ground @ 115VAC 60Hz: .25mA; @ 250VAC 50Hz: .45mA
- Rated voltage: 115/250/VAC
- Hipot rating (one minute) line-to-ground: 2250VDC; line-to-line: 1450VDC
- Operating frequency: 50-60Hz

RoHS Compliant

Use Circuit Diagram II

QUALTEK EMI Power Line Filters

861 SERIES MULTI-FUNCTION MODULE FILTERS

A multi-function power entry module filter that incorporates an IEC connector, a single fuse holder (6.3 x 32) and a voltage selector switch providing space savings.

- UL 125/250 @ 15A CSA 125/250 @ 6A

RoHS Compliant

For quantities of 50 and up, call for quote.

862 SERIES MULTI-FUNCTION MODULE FILTERS

A multi-function power entry module filter that incorporates an IEC connector, a fuse holder with optional power on/off switch, and voltage selector switch.

- With IEC Connector
- With Fuse Holder

RoHS Compliant

For quantities of 50 and up, call for quote.

864 SERIES MULTI-FUNCTION MODULE FILTERS

Effectively suppress EMI noise, both line-to-ground (common mode) and line-to-line (differential mode) for general applications. Compact design provides significant savings in space and cost compared with individual components.

Note: 5 x 20mm Fuse sold separately

Specifications:

- Maximum leakage current each line-to-ground @ 115VAC 60Hz: .25mA
  @ 250VAC 50Hz: .45mA
- Rated voltage: 115/250/VAC
- Hipot rating (one minute) line-to-ground: 2250VDC; line-to-line: 1450VDC
- Operating frequency: 50-60Hz

RoHS Compliant

For quantities of 100 and up, call for quote.

880 SERIES MULTI-FUNCTION MODULE FILTERS

A multi-function power entry module filter that incorporates an IEC connector, double pole power switch, voltage selector switch, and optional single or double fuse holder (5 x 20) offering space savings.

- With IEC Connector
- Voltage Selector: No
- Power Switch: DP (UL/CSA 125/250 VAC 10A VDE 250VAC 4A)

RoHS Compliant

For quantities of 50 and up, call for quote.

KYCON DC Power Connectors

KYCON

RoHS Compliant This page of product is compliant.

STANDARD DC POWER JACKS (2.0MM AND 2.5MM)

- Built in DC On/Off Switch
- Screw machine contact center pin
- Housing: PBT Thermoplastic, UL94V-0 Rated
- Color: Black

- RoHS Compliance per Kycon Documentation
- Rated Current: 3.5 Amps
- Durability: 5000 Cycles
- Operating Temperature: -25°C to +85°C
- Rated Voltage: 24VDC (excluding Vertical SMT Jacks)

RoHS Compliant

C US LR78160

∗ Vertical SMT Jacks: 16VDC rated voltage

∗∗ High Temperature Thermoplastic UL94V-0 Rated

For quantities of 1,000 and up, call for quote.

KYCON Stereo Audio Jacks

RoHS Compliant This page of product is compliant.

2.5MM STEREO AUDIO JACKS

- ST-2000: Housing: PBT Thermoplastic, UL94V-0 Rated
- Durability: 5000 Mating Cycles
- ST-2500 and ST-2550: Housing: High Temperature Thermoplastic, UL94V-0 Rated
- RoHS Compliance per Kycon Documentation
- Operating Temperature: -25°C to +80°C
- Terminals: Copper Alloy, Silver over Nickel plating
- Color: Black
- Non-threaded

∗ High Temperature Thermoplastic UL94V-0 Rated

RoHS Compliant

For quantities of 1,000 and up, call for quote.

NEUTRIK Phone Jacks

RoHS Compliant This page of product is compliant.

M SERIES 1/4" NYLON STANDARD JACKS

Material Specifications:
- Body material: heavy duty nylon
- Contact material: solid nickel silver
- Mounting hardware included
- RoHS compliant per Neutrik documentation

Electrical Specifications:
- Insulation resistance: >7000 MΩ@ 50VDC
- Test voltage: 2000V
- Temperature range: 0°C +70°C

RoHS Compliant

For quantities of 500 and up, call for quote.

1/4" NYLON SLIM JACKS

Features:
- 19% space saving advantage over standard socket
- All SlimLine jacks have 1/4 inch PCB horizontal mount pins
- No mounting nuts and washers included, must be purchased separately.

Material Specifications:
- Body material: heavy duty nylon
- Contact material: solid nickel silver
- RoHS compliant per Neutrik documentation

Electrical Specifications:
- Contact resistance: <0.025 MΩ
- Temperature range: 0°C +70°C

RoHS Compliant

For quantities of 500 and up, call for quote.

COMMERCIAL 1/4" PHONE JACKS

- Mono and stereo jacks
- Stereo jacks feature all contacts switched
- Can be used with panels as thick as 5.5mm with washer and nut (included)
- Housing/shell: Brass Ni/Au/Black plated or Zinc diecast
- Insulation: Thermoplastic
- Contacts: Brass, Ni/Au plated
- Strain relief: Crimp type SnCe plated
- RoHS compliant per Neutrik documentation

RoHS Compliant

For quantities of 500 and up, call for quote.

HI-D JAX, 1/4" ENCLOSED PHONE JACKS

Small, compact phone jacks mate with standard .25" (6.35mm) phone plugs. The molded body protects the integral silver plated contacts. They feature low contact resistance, low electrical leakage and low capacity between contacts. Mounts in single .375" hole in panels up to .156" thick.

For quantities of 100 and up, call for quote.

1/4" RIGHT ANGLE AUDIO PHONE PLUG

- Designed for OEM's and users of commercial phone plugs.
- Large terminals for easy wiring
- Only 3 pieces to assemble handle, insulator, and finger/housing assembly
- Rugged reliability for stable, long-term, trouble-free operation

For quantities of 500 and up, call for quote.

DELTRON Professional Phono and DIN Connectors

PROFESSIONAL RCA PHONO PLUGS AND LINE JACKS

A range of high quality UK manufactured phono plugs and line sockets made from machined brass with various plating options

Specifications:

- Center contact: brass with silver or gold plated
- Ground contact and cable clamp: brass with nickel or gold plated
- Body and spring strain relief: brass with nickel, gold, or black chrome plate
- Current rating: 5A @ 200VDC/150VAC
- Insulation: Noryl SE1
- Insulation resistance: 100MΩ @ 500VDC
- Maximum cable size: .22"

Cable Jacks

- Spring center contact for secure cable connection

COLORED CAP PHONO PLUGS

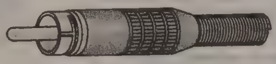
A range of high quality UK manufactured phono plugs made from machined brass with various plating options. The aluminum housing is anodized in various colors for easy identification.

Specifications:

- Current rating: 5A @ 200VDC/150VAC
- Insulation resistance: 100MΩ @ 500VDC
- Center contact, ground contact, and collet: brass with flash gold plate
- Body: anodized aluminum
- Spring: brass with black chrome plate
- Insulator: PTFE

Features:

- "T" shape ground contact for maximum contact area
- Accepts cable diameters up to .216"
- collect for cable gripping and dual grounding



MOUSER STOCK NO.	Cap Plating	Price Each		
		1	10	100
174-3461	Black anodized	4.88	4.43	4.03

174-3467	Yellow anodized	4.88	4.43	4.03

PROFESSIONAL PHONO PLUGS

Designed and manufactured in the UK to the highest quality standards for use with Professional Audio Equipment.

Specifications:

- Current rating: 5A @ 200VDC/150VAC
- Insulation resistance: 100MΩ @ 500VDC
- Center contact, ground contact, and collet: 0.5 micron gold plated brass
- Insulator: PTFE for high dielectric constant

Features:

- Ground contact with "T" shaped slot for effective spring contact retention
- Solid brass body provides 100% shielding

DELTRON Color Coded XLR / DIN Connectors

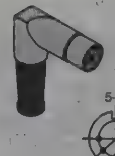
COLOR CODED XLR CONNECTORS/DIN CONNECTORS

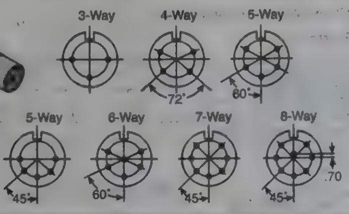
Right Angle DIN Connectors

A fully shielded robust range of 90°. DIN Connectors for use in instrumentation and audio applications. Available in bright nickel. A robust construction incorporating cable grip and strain relief.

Specifications:

- Material Housing: Zinc Alloy heavy nickel plated over copper
- Contacts: brass, silver plated





For quantities of 100 and up, call for quote.

CHANNEL IDENTIFICATION SYSTEM

This unique color coded system gives you durable, bright identification for both free cable or panel plugs and sockets, making the marking of panel mounted connectors foolproof. The 10 available colored collars are numbered 0-9 using the standard industry resistor color code system.

Color Coded Connector Collars

Features:

- Full circular ring prevents ring from falling off
- Collars numbered with corresponding color for easy identification

2 rings required for complete collar assembly

MOUSER STOCK NO.	Description	Price Each

174-72809	Assorted Bag of 50	5.00	4.00	3.87

Color Coded Panel Buttons

Features:

- 3 protruding lugs provide positive retention in panel connector
- 2 buttons may be used giving up to 100 possible identification combinations

For quantities of 500 and up, call for quote.

Latching Illustrated

Specifications:

- Current rating per contact: 3C = 16A, 4C = 10A, 5C = 7.5A
- Maximum wire gauge: 3C = 12AWG, 4C = 16AWG, 5C = 18AWG
- Contact resistance: < 3mΩ
- Voltage rating: 250VAC

Features:

- Screwless assembly
- Die-Cast body parts (no plastic)
- Flexible colour coding systems
- Unique "squeeze" clip

- Assembly and disassembly is a quick few turns of the barrel: No fiddle screws. Inside there are generous sized solder buckets and a clever collet to ensure a very positive cable grip over a wide range of cable sizes.
- The female panel socket employs a unique squeeze clip which is very easy to use - just squeeze down and pull back.

NON-REFLECTIVE NICKEL FINISH

AIM/CAMBRIDGE A/V Compression Connectors

COMPRESSION CONNECTORS

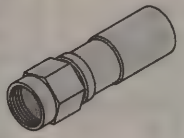
These weatherproof compression connectors allow you to quickly make your broadband CATV and Satellite connections indoors and out. They provide a quick easy weatherproof termination that can be used in all the latest high-definition TV, DVD, and Audio/Video standards.

Specifications:

Connector Type	Cable Type	Max. Braid Coverage	Dielectric O.D. (Nominal)	
F Connector 7/16" Hex	RG - 6 Dual	Up to 90%	.180 in	4.57mm
BNC Connector	RG - 6 Tri-Shield	Up to 90%	.180 in	4.57mm
RCA Connector	RG - 6 Quad Shield	Up to 90%	.180 in	4.57mm
F Connector 7/16" Hex	RG - 59 Dual	Up to 90%	.144 in	3.27mm
BNC Connector	RG - 59 Tri-Shield	Up to 90%	.144 in	3.27mm
RCA Connector	RG - 59 Quad Shield	Up to 90%	.144 in	3.27mm

Features:

- Compression termination
- Weatherproof
- Single connector terminates Dual,Tri, and Quad Shield cables
- RG-59 and RG-6 versions available
- Machined nickel or gold plated brass construction
- Designed to SCTE and Bellcore® GR-1503 compliance
- Patent protected
- All-in-one adjustable rachet crimp tool for BNC,F & RCA connectors
- Gold plated BNC and RCA available
- Color- Coded RCA for standard and high-def connections



F TYPE COMPRESSION CONNECTORS

RoHS Compliant

Male - 7/16" Hex • RoHS Compliant per AIM/Cambridge documentation

For quantities of 500 and up, call for quote.

POMONA Audio Connectors

Pomona ELECTRONICS

POMONA RCA / PHONO PLUG CABLE ASSEMBLIES

For quantities of 100 and up, call for quote.

MOUSER STOCK NO.		Fig.	Description	Price Each		
Mfr.	Mfr. Part No.			1	25	50
565	6900-180	A	3 RCA plugs / 3 RCA plugs cable assembly, 15 ft, Red, Grn, Blu	9.47	8.98	8.56
565	6896-180	B	2 RCA plugs / 2 RCA plugs cable assembly, 15 ft, Wht & Red	9.87	9.43	8.93
565	6898-180	C	RCA plug / RCA plug cable assembly, 15 ft, Blk	6.65	6.30	5.98
565	6901-180	C	RCA plug / RCA plug cable assembly, 15 ft, Yellow	6.61	6.30	5.98

POMONA PHONO PLUG TO BNC MALE W/ MOLDED STRAIN RELIEF

For quantities of 100 and up, call for quote.

MOUSER STOCK NO.		Fig.	Description	Length	Price Each		
Mfr.	Mfr. Part No.				1	25	50
565	4963-E-24	D	Phono Plug to BNC Male w/ Molded Strain Relief	24in (0.6m)	15.69	14.93	14.16
565	4963-E-36	D	Phono Plug to BNC Male w/ Molded Strain Relief	36in (0.9m)	16.25	15.46	14.67
565	4963-E-48	D	Phono Plug to BNC Male w/ Molded Strain Relief	48in (1.2m)	16.74	15.93	15.11
565	4963-E-60	D	Phono Plug to BNC Male w/ Molded Strain Relief	60in (1.5m)	17.30	16.46	15.61

POMONA PHONO PLUG CABLE W/ MOLDED STRAIN RELIEF

For quantities of 100 and up, call for quote.

565	5092-K-36	E	Phono Plug Cable with Molded Strain Relief	48in (1.2m)	19.01	18.06	17.16
565	5092-K-48	E	Phono Plug Cable with Molded Strain Relief	60in (1.5m)	20.45	19.45	18.46

POMONA RCA CONNECTORS

For quantities of 100 and up, call for quote.

MOUSER STOCK NO.		Fig.	Description	Price Each

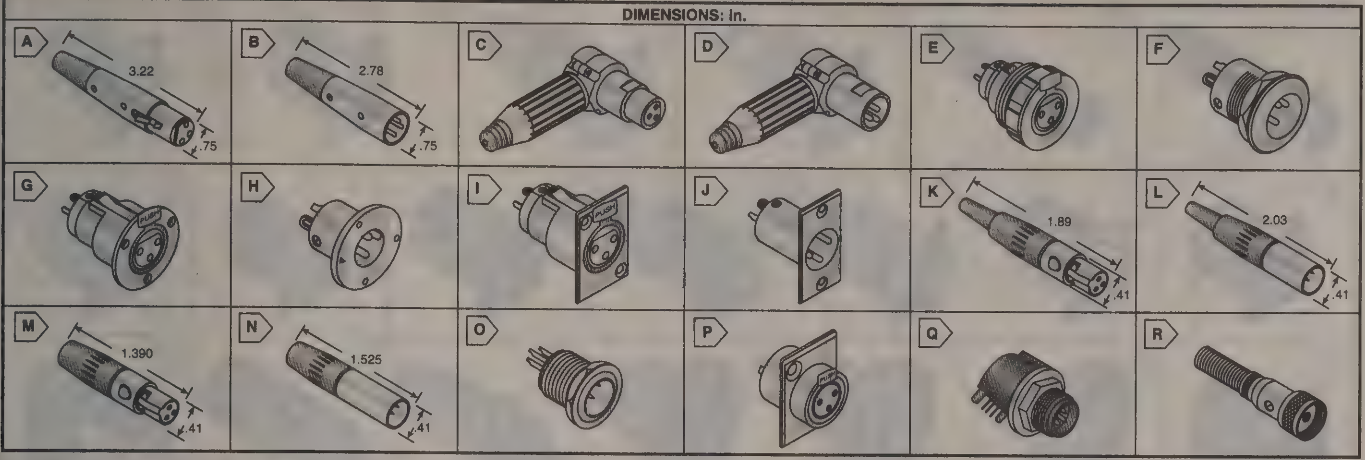
DIMENSIONS: in.



"Q-G" QUICK GROUND XLR AUDIO CONNECTORS

"Q-G" connectors feature a separate ground terminal integral with the connector shell. The high-impact thermoplastic insert is retained by a loss preventing captive design screw, female connectors have positive latch lock system.

RoHS Compliant

Specifications:
- Current Rating: 3C = 15A, 4C = 10A, 5C = 7.5A
- Cable Size: .21" to .30" O.D.
- RoHS compliance per Switchcraft documentation
- Pin and Socket Contact: Silver-plated copper alloy
- Wire Size: 3 contact-12 AWG solid, 14 AWG stranded; 4 contact-14 AWG solid, 16 AWG stranded; 5 contact-18 AWG solid, 20 AWG stranded
- Housing Material: Die-Cast zinc with satin nickel or, black velvet finish

Cord End Plugs

TINI "Q-G" QUICK GROUND XLR AUDIO CONNECTORS

Miniature XLR connectors, ideal for use with slim lavaliere microphones and instrumentation using shielded or unshielded cables. Positive latch locking system and molded thermo plastic strain relief.

Specifications:
- Current Rating: Plug or Panel 3-4C = 5A, 5C = 4A; PCB Receptacle 3-5C = 5A
- Maximum Cable: .115" O.D. for flex relief versions; .170" O.D. for "L" version (omitted flex relief)
- Wire Size: 22 AWG solid; 24 AWG stranded
- Contacts: Pin and Socket-Silver-plated copper alloy; PCB Receptacle-Tin-plated brass
- Housing Material: Plugs and Male Receptable-Nickel-plated copper alloy, Female Receptable-Nickel-plated die cast zinc; PCB Receptable-Thermoplastic

Cord End Plugs

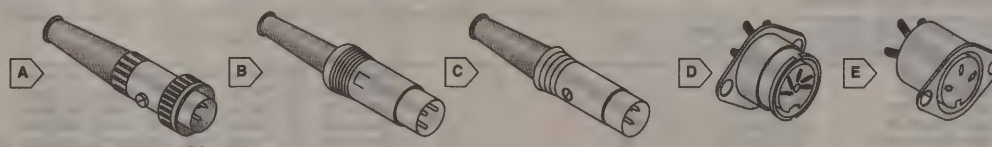
MICROPHONE CONNECTOR

Designed with 5/8-27 threads for use with single conductor microphones with cable O.D. No greater than .281". The coupling ring is removable for fast change from female to male type.

502-2501FX	2501FX	R	Female microphone connector	6.29	5.72	5.43

CIRCULAR DIN CONNECTORS

Designed for low level circuitry in computer, commercial, industrial, consumer, and military applications. They are exact replacements for many foreign built products. They are used extensively for computer keyboard, I/O, and peripheral applications.



DIN Cord End Plugs

For quantities of 100 and up, call for quote.

AAA SERIES XLR CONNECTORS

Features easy twist on combination handle/strain relief, and reduced number of parts to assemble.

Specifications:
- Current rating per contact: 3 pole=15 A
- Max Wire Size: 3 contact = 14 AWG

RoHS Compliant per Switchcraft documentation.

Letter	Meaning
N	Nickel
M	Metal
B	Black
P	Plastic
S	Silver
G	Gold

RoHS Compliant

For quantities of 50 and up, call for quote.

NEUTRIK Audio Connectors

RoHS Compliant This page of product is compliant.

XLR CONNECTORS

Specifications:

- Current rating per contact: 3C = 16A, 4C = 10A, 5C = 7.5A, 6C = 7.5A, 7C = 5A
- Maximum wire gauge: 3C = 14AWG, 4C = 16AWG, 5C, 6C, & 7C = 18AWG
- Contact resistance: ≤ 3mΩ
- RoHS compliant per Neutrik documentation

RoHS Compliant

X Series Straight Cable Connectors

- Screwless assembly • Die-cast shell • Compact design • Chuck type strain relief

For quantities of 500 and up, call for quote.

XX Series Straight and Right Angle Cable Connectors

- Compact, uniquely styled diecast shell with internal thread that mates with external thread of boot to eliminate thread exposure
- Improved chuck type strain relief increases retention force and makes assembly easier and faster
- New ergonomic latch lock design mates reliably and gives a positive tactile feedback
- Female connector incorporates new cage type contact spring
- New ground contact provides excellent contact integrity between chassis and cable connector
- Male connector designed with internal locking cam, replacing open "window" cut-out design found in other XLRs
- Right Angle connector is slim and has rotatable insert
- RoHS compliant per Neutrik documentation

RoHS Compliant

For quantities of 500 and up, call for quote.

EASYCON® XLR SERIES STRAIGHT CABLE CONNECTORS

Specifications:

- Current rating per contact: 6A
- Contact: Female: CuSn6; Male: CuZn36Pb1.5
- Maximum wire gauge: 22-26 AWG
- Cable OD range: 5.5 - 7.0 mm
- Contact Plating: Au
- RoHS compliant per Neutrik documentation

Features:

- IDC termination
- 3 piece construction reduces assembly time
- No set screw assembly
- Self adjusting cam lock cable clamp

RoHS Compliant

For quantities of 500 and up, call for quote.

XLR RECEPTACLES - DLX SERIES

NEW FROM SUPPLIER

Features:

- Male connector's retention bar replaces plastic design with all metal version
- Unique cage type female contacts on 3 pole version for increased conductivity
- D-style housing provides installation compatibility with industry standard D mounting dimensions

RoHS Compliant

For quantities of 500 and up, call for quote.

A & B-SERIES XLR RECEPTACLES

Specifications:

- Current rating per contact: 6A
- Contact resistance: female < 5mΩ, male: < 3mΩ
- Rated voltage: 250VAC
- RoHS compliant per Neutrik documentation

Features:

- Same dimensions for male and female
- Hard gold plated contacts

"A" Series: One piece high impact plastic shell. Internal shell and chassis contact.
"B" Series: Metal shell with plastic insert. Shell of F-version connected to mating shell with grounding contacts.

RoHS Compliant

For quantities of 500 and up, call for quote.

Speakon® and Powercon® Audio Connectors NEUTRIK

SPEAKON® LOUDSPEAKER AMPLIFIER CONNECTORS

Specifications:
- Current rating per contact: 25A rms continuous
- Rated voltage: 250VAC
- Panel cutouts the same as existing audio connector types
- RoHS compliant per Neutrik documentation
- Cable O.D. Range (for plug connectors only): 2-Pole = 6-10mm, 4-Pole = 6-15mm, 8-Pole = 8-20mm

RoHS Compliant

For quantities of 100 and up, call for quote.

SPEAKON® SPX SERIES

Features a higher current rating for the operation of high power speakers and amplifiers carrying more than 1000 Watts. Change easily and quickly from a straight connector to the right-angle version, without disconnecting the cable.

Specifications:
- Rated Current / Contact: 40A rms continuous, 50 A audiosignal, duty cycle 50%
- Dielectric Strength: 4kV peak
- Rated Voltage: 250VAC
- Temperature Range: -30°C to +80°C
- Max. Wire Size: 10AWG/5mm$_2$
- Cable O.D. Range: 6-14mm
- RoHS compliant per Neutrik documentation

Materials:
- Contacts: Brass
- Locking Element: Zinc Diecast
- Housing / Insert: PBTP 20% GR
- Bushing: Polyamide PA 6 15% GR
- Chuck: Polyacetal POM

RoHS Compliant

For quantities of 100 and up, call for quote.

SPEAKON® STX SERIES

All metal housing makes for rugged and durable connectors. Weatherproof built-in gasket meets IP54 protection class when mated. Mates with all currently available 4 pole Speakon® Products.

Specifications:
- Rated Current per Contact: 40A rms continuous
- Rated Insulation Voltage: 250VAC
- Temperature Range: -30°C to +80°C
- Max. Wire Size: 10AWG/6mm^2
- Cable O.D. Range: 9-16mm
- RoHS compliant per Neutrik documentation

Materials:
- Contacts: Female-Brass; Male-Copper
- Housing/Bushing/Locking Element: Zinc Diecast
- Insert: Polyamide
- Chuck: Polyacetal

RoHS Compliant

For quantities of 100 and up, call for quote.

POWERCON® LOCKING 3-POLE CONNECTION SYSTEM

Specifications:
- Rated current: 20A rms @ wire size 2.5mm^2
- Rated voltage: 250VAC
- Contact resistance: ≤3mΩ after 5000 insertion withdrawal operations
- Cable OD range: 5-15mm
- Wiring: cable-screw type terminals: chassis-flat tabs
- RoHS compliant per Neutrik documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

DELTRON BANANA PLUGS

These banana plugs fit all standard banana jacks and are interchangeable with all standard banana plugs. These plugs are available in a variety of styles and sizes to meet all kinds of industrial, OEM, and consumer applications.

RoHS Compliant

For quantities of 1000 and up, call for quote.

DELTRON PCB INSULATED BANANA PLUG SOCKETS

These new sockets mount directly onto printed circuit boards and accept standard banana plugs. They incorporate alignment grooves in the outer housing which allows close mounting. A double height socket permits two test or feed points to be mounted to a PCB. Both single and double sockets are constructed of durable acetal plastic and are rated at 10 amps. Available in red or black.

RoHS Compliant

For quantities of 1000 and up, call for quote.

AMP BNC Connectors

Tyco Electronics
Authorized Distributor

BNC PLUGS

- Bayonet lock coupling for quick connect/disconnect
- Fully intermateable with comparable BNC UG/U connectors
- Single crimp connectors offer one crimping operation

- UL approved: File No. E81956
- CSA approved: File No. LR 7189

Specifications:
- Center contact plating: Gold

Dielectric: is either polyethylene (PE), polymethylpentene (PM), polypropylene (PP), or TEFLON (T).
✻ Silver Center Contact Plating

For quantities of 100 and up, call for quote.

JACKS WITH MOUNTING FLANGES

Specifications:
- Body material: VALOX, White
- 1/2-28 Thread
- PC Board/Panel Mount

RoHS Compliant

For quantities of 500 and up, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Description	Center Contact	Mounting Height In. (mm)	Price Each			
						1	10	25	100
571-5226978-1	5226978-1	A	Right Angle	Tin	.625 (15.88)	7.16	6.44	6.09	5.73

AMP RF Connectors

Tyco Electronics

Authorized Distributor

RoHS Compliant **This page of product is compliant.**

MINI BNC CONNECTORS - 75 OHM

Features:
- Bayonet locking coupling mechanism
- 40% more interconnects in the same area
- Compatible with Trompeter tooling
- Ideal for telecommunications and broadband applications
- RoHS compliant per Tyco documentation

Specifications:
- Frequency: DC - 2 GHz
- Normal Impedance: 75 ohms
- Voltage Rating: 300V
- Temperature Rating: -40°C - +85°C

RoHS Compliant

For quantities of 500 and up, call for quote.

MMCX CONNECTOR

Features:
- Snap-on interface facilitates assembly
- Designed for space saving applications up to 6 GHz
- Conforms to CECC Specifications
- Ideal for GPS, PCS, automotive and wireless communications
- RoHS compliant per Tyco documentation

Specifications:
- Frequency: DC - 6 GHz
- Normal Impedance: 50 ohms
- Voltage Rating: 170V
- Temperature Rating: -55°C - +155°C

RoHS Compliant

For quantities of 500 and up, call for quote.

COMPRESSION COAX BOARD-TO-BOARD RF CONNECTOR

Features:
- Single connector design - no mating connectors needed
- Available in four sizes for varied board spacing: 14mm, 10mm, 6.65mm and 4mm
- Large radial and axial misalignment: For positioning both boards and for gap between boards
- Surface Mount Device for standard pick & place compatibility
- Gold plated phosphor bronze and brass contacts, stainless steel springs
- Mating directly on target board
- Easy connection without risk of breaking soldering or connector when mating or unmating
- Low applied material and assembly costs
- RoHS compliant per Tyco documentation

Specifications:
- Frequency: UP to 6 GHz
- Normal Impedance: 50 ohms
- Working Voltage: 125 VAC, 50 Hz
- Temperature Rating: -40°C - +125°C

Description
- Board-to-Board RF Connector Series
- Single connector product
- Surface mount technology
- Excellent price-to-performance ratio

Applications:
- Modular parallel board-to-board blind mate applications
- Base Station / Sub Station systems
- PDA / PCS / Cellular Handset applications
- Wireless Communications systems (GSM, PCS, WCDMA, UMTS)

RoHS Compliant

For quantities of 500 and up, call for quote.

BETWEEN SERIES ADAPTERS

Between Series Coaxial Transmission Line Adapters provide convenient transitions between popular series coaxial connectors. The adapter design provides a minimum length consistent with good electrical performance. The small size, low VSWR, and broad frequency coverage permits a wide range of applications in both measurement and systems use.

RoHS Compliant

For quantities of 25 and up, call for quote.

SMA IN-SERIES ADAPTERS

Designed for performance to 18 GHz to satisfy the growing demand for SMA connectors in the wireless communications industry. The SMA product line offers stainless steel bodies, as well as non-ferrous metals. The SMA series meets the performance, quality and application requirements of the commercial marketplace.

RoHS Compliant

For quantities of 100 and up, call for quote.

AMPHENOL RF Connectors and Adapters

Amphenol®

RoHS Compliant **This page of product is compliant.**

AMPHENOL NON-MAGNETIC COAXIAL CONNECTORS

- Contact and body plating: Gold over white bronze
- Designed to carry 50Ω signals within the magnetic imaging field of MRI equipment where a high signal-to-noise ratio (SNR) is required.
- Product is manufactured under strict quality procedures throughout the entire production process to ensure that each connector will not produce image artifacts during MRI scans.
- All product is 100% tested for magnetism prior to shipping.

RoHS Compliant

Type MMCX

For quantities of 500 and up, call for quote.

AMPHENOL BETWEEN SERIES ADAPTERS

Amphenol Between Series Adapters are used to join two connectors of different series. They are designed to offer the lowest VSWR rating of the two series involved. For Reverse Polarized connectors, RP is added to the end of the part number.

RoHS Compliant

Reverse Polarity Type SMA

For quantities of 50 and up, call for quote.

RoHS Compliant This page of product is compliant.

AMPHENOL BETWEEN SERIES ADAPTERS (CONT.)

Amphenol Between Series Adapters are used to join two connectors of different series. They are designed to offer the lowest VSWR rating of the two series involved. They are widely used with laboratory test applications and in systems equipment applications where different connectors must be mated. For Reverse Polarized connectors, RP is added to the end of the part number.

RoHS Compliant

- RoHS compliant per Amphenol documentation

Type N

RoHS Compliant

For quantities of 50 and up, call for quote.

SMA SERIES CONNECTORS, ADAPTERS, AND ACCESSORIES

These SMA connectors offer a compact size and mechanically give outstanding durability.

RoHS Compliant

- Impedance: 50Ω
- Body Material: Brass
- Insulation: Teflon
- Finish & Center Contact: Gold
- Frequency Range: 0-18GHz (semi-rigid); 0-12.4GHz (flexible cable)

For quantities of 100 and up, call for quote.

RoHS Compliant **This page of product is compliant.**

N SERIES FOR LMR AND SEMI-RIGID CABLES

The Connex N connectors with screw coupling are fully interchangeable with N connectors made to the MIL-C-39012 specification. Designed for use in all systems where good RF and mechanical performance is critical, whether it be at low or high frequencies.

- Impedance: 50Ω
- Body Material: Brass
- Finish: Nickel
- Center Contact: 3μ" Gold
- Frequency Range: 0-11GHz
- Insulation: Teflon

RoHS Compliant

For quantities of 500 and up, call for quote.

TNC SERIES FOR LMR AND SEMI-RIGID CABLES

The Connex TNC connector is a medium size coaxial connector with thread coupling made to a high quality level. All 50Ω TNC connectors are intermatable with 75Ω TNC connectors.

- Impedance: 50Ω
- Frequency Range: 0-11 GHz
- Body Material: Brass
- Finish: Nickel
- Insulation: Delrin (or Teflon ✻)
- Center Contact: 3μ" Gold

RoHS Compliant

For quantities of 500 and up, call for quote.

AMPHENOL RF Connectors

Amphenol®

RoHS Compliant **This page of product is compliant.**

MINI SMB 75 OHM CONNECTORS

SMB connectors feature quick connect/disconnect snap-on mating. Mini 75 ohm connectors are matched-impedance. SMB connectors to be used with 75Ω miniature coax cables. The connectors are the same size as, and intermateable with, standard 50Ω connectors.

- Impedance: 75Ω
- Body Material: Brass
- Insulation: Teflon
- Finish: Gold, unless part number is noted with ✱ = Nickel
- Contact Plating: 30µ" Gold
- Frequency range: 0-4 GHz

RoHS Compliant

For quantities of 500 and up, call for quote.

TRUE 75OHM BNC CABLE CONNECTORS

Designed for the most popular 75Ω cables used in broadcast and CATV applications when performance is needed to insure low signal distortion.

- Impedance: 75Ω
- Body Material: Brass
- Body Plating: Nickel
- Contact Plating: Gold
- Frequency range: 0-4 GHz

RoHS Compliant

For quantities of 500 and up, call for quote.

BNC COAXIAL CONNECTORS

RoHS Compliant **This page of product is compliant.**

- Frequency Range: 0-4 GHz
- Insulators: TFE
- Temperature Range: -65° to 165°C (TFE Insulators)
- Crimps: Hex Braid
- RFX Designation: Commercial versions with diecast and molded components.
- Mating: 2 stud Bayonet Coupling per M39012

AMPHENOL RF Connectors

RoHS Compliant This page of product is compliant.

MCX CONNECTORS

- Impedance: 50Ω
- Frequency Range: 0-6 GHz
- Temperature Range: -65° to 165°C
- Connector Durability: 500 matings
- Mating: Quick snap-on coupling
- 30% smaller than SMB type
- Contact Plating: Gold

RoHS Compliant

For quantities of 100 and up, call for quote.

SLIMLINE MINI BNC CONNECTORS

- Working Voltage: 400 VAC, peak
- Impedance: 75Ω
- Body Material: Brass with nickel or gold plating
- Contact Plating: Gold
- Reduced footprint size allows 40% more connections in the same area
- Crimp/Crimp Design-Compatible to Trompeter tooling
- Same Standard Industry Installation Telco DS3 Tooling

RoHS Compliant

For quantities of 100 and up, call for quote.

AMPHENOL AMC CONNECTORS

Features:
- Easy snap-on / snap-off mating
- Ultra low-profile (2.5mm mating height)
- Small footprint (3mm x 3mm)
- 100% Compatible with Hirose U.FL series ✻✻

Specifications:
- Impedance: 50Ω
- Frequency Range: 0-6 GHz
- V.S.W.R.: 1.3 max DC to 3 GHz, 1.4 max 3 to 6 GHz
- Temperature Range: - 40°C to +90°C
- Durability: 30 cycles
- Mating Female contact holding force: 0.15 N min
- Body Material: Silver over Phosphor Bronze

Applications:
- WLAN
- Bluetooth
- PDA
- Notebook computers
- GPS
- Portable Devices
- Remote Measuring Equipment

RoHS Compliant

AMPHENOL QMA CONNECTORS

QMA is a quick disconnect version of the SMA connector. Instead of using a threaded coupling mechanism, a new snap-lock mechanism is used.

Features:
- Operates at the same electrical performance as SMA
- Snap-on interface for quick and easy installation (can be installed 10x faster that SMA)
- Snap-Lock mechanism removes requirement for wrench clearance, allowing for denser packaging
- Rotatable 360° after connection

Specifications:
- Impedance: 50Ω
- Frequency Range: 0-6 GHz
- V.S.W.R.: 1.05 max DC to 3 GHz, 1.12 max 3 to 6 GHz
- Temperature Range: - 40°C to +80°C
- Body Material: White Bronze over Brass
- Durability: 100 cycles
- Power Handling: 125W at 40°C

Applications:
- Base Stations
- Instrumentation
- Process Controls
- Cable Assemblies
- Mil/Aero
- Telecom
- Components
- PC/LAN

RoHS Compliant

For quantities of 100 and up, call for quote.

AMPHENOL SMP CONNECTORS

The SMP interface is a subminiature interface in the same scale as MMCX connectors but offers a frequency range of DC to 40GHz. It is commonly used in miniaturized high frequency coaxial modules and is offered in both push-on and snap-on mating styles.

RoHS Compliant

Features:
- RF performance DC to 40GHz
- Designed to accommodate both radical and axial misalignment
- Push-on and Snap-on mating styles for quick installation

Specifications:
- Impedance: 50Ω
- V.S.W.R: 1.50 max 0-20 GHz
- Temperature Range -65°C to +155°C
- Contacts: Gold-plated brass, Gold plated beryllium copper
- Mating Cycles: 100 with full detent, 500 with limited detent
- Body Material: Gold plated brass, Gold Plated beryllium copper

Applications:
- Aerospace
- Routers
- Broadband
- Board to Board Interconnect
- Telecom
- Instrumentation
- Phased array antennas

For quantities of 100 and up, call for quote.

Between series adapters solve a variety of connection problems where connectors of different types could ordinarily not be mated together. Each adapter has a different type coupling at each end allowing for a wide variety of interconnections to fit almost all interconnection situations. All adapters are constructed of machined brass and are nickel plated.

- RoHS Compliant per Bomar documentation

BOMAR Between Series Adapters and RF Connectors

Between series adapters solve a variety of connection problems where connectors of different types could ordinarily not be mated together. Each adapter has a different type coupling at each end allowing for a wide variety of interconnections to fit almost all interconnection situations. All adapters are constructed of machined brass and are nickel plated.

TYPE RCA ADAPTERS

RoHS Compliant

- RoHS Compliant per Bomar documentation

For quantities of 100 and up, call for quote.

RF ADAPTER KITS

Commercial grade kit ADPT1 is a 30 piece kit containing: 2 each of males and females of: BNC, TNC, N, Mini-UHF, UHF, SMA and 6 universal adapters.
Made of machined brass and nickel plated bodies, with gold contacts.

RoHS Compliant

- RoHS Compliant per Bomar documentation

For quantities of 10 and up, call for quote.

BOMAR RF and Modular Jack Connectors

RoHS Compliant

BNC PRINTED CIRCUIT BOARD RIGHT ANGLE JACKS

- 50Ω versions have been approved by most U.S. manufacturers of LAN cards.
- 75Ω versions are in wide use in High Definition Video which require the use of a true 75Ω connector

For quantities of 100 and up, call for quote.

AIM/CAMBRIDGE RF Connectors

BNC COAXIAL CONNECTORS

Specifications:
- Frequency range: 50Ω 0-4GHz
  75Ω 0-2GHz
- Phosphor bronze with gold plating
- Working Voltage: 500 volts RMS
- Temperature range: -55°C to +85°C

Material:
- Body: Zinc or Brass with Nickel plating
- Contact: Beryllium copper or Phosphor bronze with gold plating
- Crimp Sleeve: Brass with Nickel plating
- Insulator: Delrin or TPX Polymethylpentene

* RoHS compliant per AIM/Cambridge documentaion

For quantities of 200 and up, call for quote.

JOHNSON COMPONENTS RF Connectors

SMA QUICK-CONNECT

The Johnson SMA Quick-Connect plug can quickly mate to a standard, threaded SMA Jack receptacle allowing rapid test connections to devices utilizing SMA threaded jacks. Full Mil-C-39012 electrical compatibility is obtained with a push and twist motion. The knurled thumbnut requires only one half to one full turn to create a solid connection. Rapid disconnect is accomplished with a twist and pull motion.
The SMA Quick-Connect plug adapter converts a standard SMA plug test cable into a Quick-Connect cable.

- Coupling Hardware: Nickel plated
- Frequency Range: 0-12.4 GHz Plugs, 0-18GHz Adapter
- VSWR: 1.15 +.02f(GHz) Plugs, 1.05 +.005f(GHz) Adapter
- Contact Plating: Gold
- RoHS Compliant per Johnson documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

JOHNSON COMPONENTS RF Connectors

SMA CABLE CONNECTORS

- Impedance: 50Ω
- Body: Brass
- Contact Plating: Gold
- Insulator: PTFE Fluorocarbon
- Temperature Range: -65° to +165°C
- Durability: 500 Cycles minimum

- Frequency Range: 0-12.4 GHz for Flexible Cable Types
  0-26.5 GHz for Semi-Rigid Cable Types
  0-28 GHz for Plugs with Semi-Rigid cable and Captivated Solderless Contact;
  0-25 GHz for Jacks with Semi-Rigid cable and Captivated Solderless Contact

* RoHS compliant per Johnson documentation

For quantities of 200 and up, call for quote.

JOHNSON COMPONENTS RF Connectors

SMB CONNECTORS

- Impedance: 50Ω
- Connector Bodies: Machined Brass
- Body Plating: Gold or Nickel
- Durability: 500 Cycles minimum
- Frequency Range: 0-4.0 GHz for Flexible Cable Types
- Contact Plating: Gold
- Insulators: PTFE Fluorocarbon
- Temperature Range: -65° to +165°C

∗ RoHS compliant per Johnson documentation

For quantities of 200 and up, call for quote.

SMK (2.92MM) 40 GHZ CONNECTORS

Precision SMK connector provides an excellent solution for demanding applications requiring high frequency transmission. Although similar to a SMA connector, a smaller internal body diameter and air dielectric provide a higher cutoff frequency.

- Connector Mating: per MIL-STD-348
- Impedance: 50Ω
- Connector Body: Stainless Steel
- RoHS compliant per Johnson documentation
- Temperature Range: -65° to 165°C
- Frequency Range: 0-40GHz
- Contacts: Gold Plated
- Durability: 500 Cycles Minimum

RoHS Compliant

For quantities of 100 and up, call for quote.

KOBICONN RF Connectors

BNC / TNC / UHF

KOBICONN

BNC, TNC CONNECTORS, AND ADAPTERS

Designed for the requirements of commercial applications that do not require performance above 1-3GHz.

- Nickel plated pins
- Delrin insulators
- For instrumentation, medical equipment

BNC Connectors

For quantities of 1000 and up, call for quote.

MOUSER STOCK NO.	Fig.	Description	RG/U Cable Type	Price Each

MOLEX RF Connectors

BNC CONNECTORS

These are small, lightweight, weatherproof miniature connectors. The two stud bayonet coupling system of the BNC yields an easy-to-use, quick connecting/disconnecting device.

Features:
- Miniature
- Bayonet lock coupling
- Weatherproof

Specifications:
- Frequency Range: dc-4 GHz
- Voltage Rating: 500 Vrms
- Contact Plating: Gold
- Temperature: -65 to +165°C
- Mounting: PCB

BNC PCB Jacks

For quantities of 100 and up, call for quote.

SMA CONNECTORS

SMA Connectors are high performance subminiature connectors for the microwave frequencies. These connectors are typically specified to operate up to 18GHz but will function mode free to 25GHz. The screw threaded coupling insures uniform contact of the outer conductors, which enables the SMA to minimize reflections and attenuation at higher frequencies while providing a high degree of mechanical strength and durability.

Features:
- Subminiature
- Threaded coupling

Specifications:
- Frequency Range: dc - 18 GHz
- Voltage Rating: 335 Vrms
- Temperature: -65 to +165°C
- Contact Plating: Gold
- Impedance: 50Ω

Plugs

For quantities of 100 and up, call for quote.

SMB CONNECTORS

These are a subminiature connector series designed for applications operating to 4 GHz. This series includes a snap on interface that is controlled by industry standard specifications and is easy to connect and disconnect.

Features:
- Subminiature
- Snap-on coupling
- Body Material: Brass
- Plating: Gold

Specifications:
- Frequency Rating: dc-4 GHz
- Voltage Rating: 500 Vrms
- Temperature: -65 to +165°C

Plugs

PCB MODULAR JACKS

This series is designed for direct mounting onto a printed circuit board and are available in two profile heights; low and standard for through-hole, low only for surface mount and shielded through-hole applications.

Specifications:

- Color: Black
- Current Rating: 1.5 amp max.
- Voltage Rating: 150 volts ac max.
- Durability: 750 mating cycles
- Housing: Through-Hole: Polyester, UL 94V-0 rated
- Housing: Surface Mount: Polyphenylene Sulfide, UL 94V-0 rated
- Contact: .014 (0.36) thk. Phosphor bronze; plated .000050 (0.00127) gold in contact area and .000150 (0.00381) tin on solder tails, over .000050 (0.00127) nickel underplate
- RoHS Compliant per Tyco Electronics documentation

Features:

- Meets or exceeds FCC Part 68 rules and regulations
- Meets 1000 volt dielectric requirement
- Designed for ease of soldering and board cleaning
- Designed for direct mounting on pc boards
- Surface mount jacks compatible with vapor phase & IR reflow soldering
- UL: File No. E81956
- Terminal No. 1 is the terminal to the extreme left as you face the jack opening, tab notch down

RoHS Compliant

Through Hole, Side Entry, Low Profile

For quantities of 500 and up, call for quote.

Multi-Ports - Unshielded

Specifications:

- Current Rating: 1.5 amp max. @ 25°C
- Voltage Rating: 150 VAC max.
- Durability: 750 mating cycles
- Operating Temperature: -40°C to 70°C
- Housing: Polysulfone, black UL 94V-0
- Contact: .013 (0.33) phosphor bronze; plated .000050 (0.00127) gold in localized area and .000150 (0.00381) tin on solder tails, over .000050(0.00127) nickel underplate
- Shield: .010 (0.25) copper alloy tin plated

Features:

- Meets or exceeds FCC Part 68 rules and regulations with industry standard pc board footprints
- Low profile and narrow width allow more ports to be packed into less space
- Center mounting leg standard on 8 port versions
- Available with two grounding paths; pc board and panel

RoHS Compliant

For quantities of 500 and up, call for quote.

High Performance PCB Single Port Modular Jacks - Side Entry

Specifications:

- Current Rating: 1.5 amperes maximum at 25°C
- Voltage Rating: 150 VAC maximum
- Operating Temperature: -40°C to 70°C
- Mating/Unmating Forces: 5 pounds maximum
- Durability: 750 minimum mating cycles
- Housing: Polyester, black UL 94V-0
- Contact: Phosphor bronze, gold over nickel plated in contact area, tin over nickel in solder area
- Shield: Brass, bright tin plated

Features:

- Performance exceeds Near End Crosstalk (NEXT) requirements of -40dB at 100 MHz per EIA/TIA 568A
- Meets all dimensional, tolerance and metallic plating requirements of FCC Part 68
- Available in single port or multiple port configurations, shielded or unshielded

RoHS Compliant

For quantities of 500 and up, call for quote.

Modular Telephone Keystone Kits

These jacks are specially designed to snap into wallplates, panels and undercarpet fittings.

Features:

- Stuffer Cap: Clear polycarbonate
- AMP-BARREL Terminal: Tin plated phosphor bronze
- Label: Adhesive backed polyester
- Contacts: Nickel plated high strength copper alloy having selective gold plating in contact area and selective tin plating in AMP-BARREL terminal area.
- Housing: Black thermoplastic, UL 94V-0
- All Keystone jacks are wired one-to-one

RoHS Compliant

For quantities of 500 and up, call for quote.

AMP Modular Connectors

Tyco Electronics
Authorized Distributor

LOW PROFILE RJ45 MODULAR JACKS

Features:
- Meets the requirements for I/O connectors on AdvancedTCA and AMC cards
- Fits in an AMC compact module faceplate
- Shielded and include panel ground springs for EMI containment
- With and without LEDs
- Category 5e performance
- 4.20mm max above PCB
- 7.38mm max below PCB
- RoHS compliant per Tyco Electronics documentation

RoHS Compliant

For quantities of 500 and up, call for quote.

STANDARD MODULAR PLUGS

Specifications:
- Electrical: Applications- 150 VAC max. at 1.5A @ 25°C, derated to .2A @ 70°C
- Durability: 750 mating cycles
- Temperature Rating: -40°C to +60°C
- Housing: Polycarbonate, UL 94V-0
- Terminal: .014 (.36) thick, phosphor bronze; underplated with 100μin Nickel and plated with 50μin Gold in contact region and gold flash on remainder of terminal.
- Terminal No. 1 is the terminal to the extreme left as you face the cable opening, latch tab down.

Features:
- One-piece construction with preloaded contacts
- FCC and EIA/TIA industry standard size and performance
- RoHS Compliant per Tyco Electronics documentation

RoHS Compliant

* Long Body

For quantities of 500 and up, call for quote.

"CATEGORY 5" MODULAR PLUGS - HIGH PERFORMANCE

Features:
- Exceeds EIA/TIA 568A and TSB-40A requirements for Category 5, 4-Pair (RJ45) UTP applications
- RoHS Compliant per Tyco Electronics documentation
- Utilizes a load bar for easier cable preparation and termination
- Load bar aids in maintaining 1/2" twist requirements

RoHS Compliant

For quantities of 500 and up, call for quote.

AMPHENOL® EMI QUIET MODULAR JACKS WITH LED'S

Features:
- Meets CAT 5 performance
- UL File #: E135615
- CSA File #: LR68598
- 8 position - 8 contact

Specifications:
- Contacts: Flat Phosphor Bronze with 50μ" Au Plating
- Current Rating: 1.5A
- Voltage Rating: 125V

RoHS Compliant

For quantities of 500 and up, call for quote.

AMPHENOL® STACKED AND SHIELDED MODULAR JACKS

Features:
- Reduces component and labor cost by incorporating LED's into the connector
- Meets Ethernet Cat 5 performance
- Stackable feature enables more ports with same board space
- Ferrite filter available

Specifications:
- Contacts: Flat Phosphor Bronze with 50μ" Au Plating
- Current Rating: 1.5A
- Voltage Rating: 125V

RoHS Compliant

For quantities of 500 and up, call for quote.

AMPHENOL® FILTERED AND SHIELDED MODULAR JACKS

Features:
- Effective EMC control with a standard RJ-45 jack
- Drop in replacement for non-filtered RJ-45 jacks
- Ferrite Block for filtering
- UL File #: E135615
- CSA File #: LR68598

Specifications:
- Contacts: Flat Phosphor Bronze with 50μ" Au Plating
- Current Rating: 1.5A
- Voltage Rating: 125V
- 8 position - 8 contact

RoHS Compliant

For quantities of 500 and up, call for quote.

FCI MODULAR JACKS

Features:
- Thru-hole, solder to board configuration
- Press-fit design eliminates hot and cold staking
- RoHS compliant per FCI documentation
- Mate with modular plugs conforming to FCC Part 68, Subpart F
- Housing: thermoplastic resin, UL94V-0 rating

RoHS Compliant

KOBICONN MODULAR PLUGS

(Types marked with † have 50μ" gold plated contacts, all others have 6μ" gold plated contacts)

* 616 Type - 4 conductor for handset to telephone use; 623 type - 4 or 6 conductor for telephone to wall use; 641 type - 8 conductor for telephone to wall or modem dialer use.

For quantities of 1,000 and up, call for quote.

KOBICONN MODULAR TELEPHONE GANGED JACKS

The ganged jack, originally developed as a labor and space saving jack for OEM use, now has found extensive use in many new product designs. Modems, answering machines, and office equipment are but a few of the many potential applications.

Features:

- Western Electric 623/RJ11 PCB type
- 2-4 gang assemblies
- Color: gray

Specifications:

- 50 micron gold plated contacts
- 25% glass filled nylon 66

RIGHT-ANGLE MODULAR JACKS

Features and Specifications:

43860-xxxx
- RJ-45 version meets Category 5 for Fast Ethernet
- Plug latch on top
- Enhanced grounding tabs on shield
- Electrical Voltage: 125V
- Current: 1.5A max.
- Housing: Black glass-filled, high-temperature nylon, UL 94V-0
- Operating Temperature: -40°C to +80°C

44170-xxxx
- Exceeds Category 5 performance
- Distinctive lightpipe arrow indicators
- Lower electrical noise than LED offerings
- 30% fewer leads than LED offerings
- Voltage: 125V
- Current: 1.5A max.
- Housing: Black glass-filled Polyester, UL 94V-0
- Operating Temperature: -40°C to +80°C

43202-xxxx
- Ultra low profile
- Enhanced panel grounding tabs on shielding RJ-45 configuration
- Enclosed top
- Electrical Voltage: 125V
- Current: 1.5A max.
- Housing: Black glass-filled nylon, UL 94V-0
- Operating Temperature: -40°C to +80°C

95001-xxxx
- Very-low profile - about 3/4 that of industry standard
- Foot pattern identical to industry standard
- High reliability, square contact
- Voltage: 125V
- Current: 1.5A max.
- Housing: Black polyester, UL 94V-0
- Operating Temperature: -40°C to +80°C

44144-xxxx
- Side-by-side stackable
- Enclosed top
- 100% electrically tested
- .006" max. "nail-to-tail" coplanarity
- Electrical Voltage: 125V
- Current: 1.5A max.
- Housing: Black glass-filled, high-temperature nylon, UL 94V-0
- Operating Temperature: -40°C to +80°C

15-43-xxxx
- 50μ" Gold meets FCC 68 requirements
- Top-covered leads meet British Telecom 4000V test
- Voltage: 125V
- Current: 1.5A max.
- Housing: Black glass-filled polyester, UL 94V-0
- Operating Temperature: -40°C to +80°C

RoHS Compliant

RoHS Compliant per Molex documentation

For quantities of 500 and up, call for quote.

VERTICAL MODULAR JACKS

Features:
- Industry compatible
- Foot patterns identical to industry standard jacks
- High reliability, square contact
- Low profile 12.70mm (0.5")

Specifications:
- Voltage: 125V
- Current: 1.5A
- Housing (95003-2xxx): Black Polyester, UL 94V-0
- Housing (95003-6xxx): Black Polyamide, UL 94V-0
- Contact: Phosphor Bronze
- Operating Temperature: -40°C to +80°CV

For quantities of 500 and up, call for quote.

PULSE PulseJack™ Filtered Connectors

Pulse
A TECHNITROL COMPANY

RJ45 SURFACE MOUNT JACKS

10/100 Base-TX surface mount RJ45 single port (1x1) Tab-UP/DOWN with or without LEDs Integrated Magnetics Connector, designed to support applications such as: Set Top Box and Network Interface Cards (NIC).

Features:
- High performance for maximum EMI suppression
- J3 SMT - Available with or without LEDs
- J0C SMT - Reduced size and low cost alternative to JV Series
- Internal Magnetics: 100% electrically tested for HI-POT & Continuity

Electrical Specifications:
- Meets or exceeds IEEE 802.3 standards for 10/100 Base-T
- Both transmit and receive channels meet IEEE 802.3 specifications
- Minimum 1500Vrms isolation per IEEE 802.3 requirement
- Insertion Loss TX/RX (dB Max.): -1
- Hipot (Vrms Min.) @ 60Hz for 1 minute: 1500

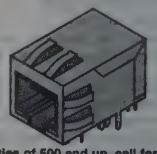
RJ45 TAB-DOWN JACKS

10/100 Base-TX RJ45 1x1 Tab-DOWN with LEDs 8-pin (J0 Series) Integrated Magnetics Connector (ICM), designed to support applications such as: SOHO (ADSL Modems), LAN-on-Motherboard (LOM), Hub and Switches.

Features:
- High performance for maximum EMI suppression
- 1x1 Tab-DOWN RJ45 with integral magnetics
- Available with or without LEDs
- Suitable for CAT 5 & 6 fast ethernet cable or better UTP
- Internal Magnetics: 100% electrically tested for HI-POT & Functionality

Electrical Specifications:
- Meets or exceeds IEEE 802.3 standards for 100 Base-T
- Both transmit and receive channels meet IEEE 802.3 specifications
- 350μH minimum OCL with 8mA bias current
- Minimum 1500Vrms isolation per IEEE 802.3 requirement



LED Color: G = Green, Y = Yellow, YG = Bi-Color LED Yellow Green, N/A = None

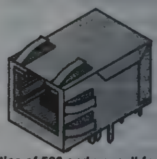
RJ45 TAB-UP JACKS

10/100 Base-TX RJ45 1x1 Tab-UP with LEDs 8-pin (J1 Series) and 6-pin (JP Series) Integrated Magnetics Connector (ICM), designed to support applications such as: SOHO (ADSL Modems), LAN-on-Motherboard (LOM), Hub and Switches.

Features:
- High performance for maximum EMI suppression
- 1x1 Tab-UP RJ45 with integral magnetics
- 8 or 6-pin signal versions available
- Available with LEDs
- Suitable for CAT 5 & 6 fast ethernet cable or better UTP
- Internal Magnetics: 100% electrically tested for HI-POT & Functionality

Electrical Specifications:
- Meets or exceeds IEEE 802.3 standards for 100 Base-T
- Both transmit and receive channels meet IEEE 802.3 specifications
- 350μH minimum OCL with 8mA bias current
- Minimum 1500Vrms isolation per IEEE 802.3 requirement



LED Color: G = Green, Y = Yellow, G_O = Green/Orange Bi-Color, R = LEDs with resistors

For quantities of 500 and up, call,for quote.

KYCON Modular Jacks

RoHS Compliant This page of product is compliant.

RIGHT ANGLE MODULAR JACKS

- Snap-In board retention tabs
- Housing Material: PBT Thermoplastic, UL94V-0 rated
- Contact Material: Phosphor Bronze
- Current Rating: 1.5 Amps
- Shield Material: Copper Alloy, Nickel plated

- RoHS Compliance per Kycon Documentation
- Insulation Resistance: 500 MΩ min.
- Dielectric Withstanding Voltage: 1000VAC for 1 minute
- Contact Resistance: 20 mΩ max.
- Standard Contact Plating: 15μ" Gold over Nickel
  50μ" Gold plating available upon request

RoHS Compliant

IEEE 1394 / FIREWIRE CONNECTORS

- Voltage Rating: 30 VAC
- Rated 400 Mbps
- Supports hot plugging
- Operating Temperature: -55°C to +85°C
- RoHS Compliance per Kycon Documentation
- 2mm pin spacing
- Shell: Nickel plated Copper alloy
- Durability: 1500 plus cycles
- Contacts: Phosphor Bronze
- Insulator: PBT Thermoplastic, UL94V-0 Rated
- Standard Contact Plating: 30μ" Gold over Nickel on contacts

RoHS Compliant

C US LR78160

✻ High Temperature Thermoplastic UL94V-0 Rated

For quantities of 1,000 and up, call for quote.

4P MINI IEEE 1394 CONNECTORS

- Insulator: PBT thermoplastic, black, UL94V-0 rated
- Shell: Stainless steel, tin plating
- Dielectric withstanding voltage: 750VAC for 1 min.
- RoHS Compliance per Kycon Documentation
- Rated up to 400Mbps
- Contacts: Phosphor bronze, 30μ " gold plating
- Insertion force: 2kg max.
- Capacitance: 2pF max.
- Withdrawal force: 0.5kg min.
- Voltage rating: 30VAC

RoHS Compliant

✻ High Temperature Thermoplastic UL94V-0 Rated

SURFACE MOUNT MINI-USB SOCKET CONNECTORS

- Overall size 1/3 of standard USB
- Contacts: Phosphor bronze, 30μ" gold plated
- High Temperature Thermoplastic, UL94V-0 Rated
- RoHS Compliance per Kycon Documentation
- Insulation resistance: 1000 MΩ min.
- Contact current rating: 1A max.
- Contact resistance: 50 mΩ max.
- Shell: Copper alloy
- Voltage rating: 30VAC
- Meets USB 2.0 specification

RoHS Compliant

For quantities of 1,000 and up, call for quote.

KYCON USB Connectors

RoHS Compliant This page of product is compliant.

RIGHT ANGLE USB SOCKET CONNECTORS

KUSB Series - Meets USB 1.1 and 2.0 Specifications

- Insulator: PCB version: PBT Thermoplastic, UL94V-0 rated
- Contacts: Phosphor Bronze
- RoHS Compliance per Kycon Documentation
- Contact Plating: Gold over Nickel on contacts
- Operating Temperature: -25°C to +80°C
- Contact Resistance: 15 Milliohms max.
- Shell: Phosphor Bronze

RoHS Compliant

* w/ Backshield

* * High Temperature Thermoplastic UL94V-0 Rated

For quantities of 1000 and up, call for quote.
